THE MEMORIAL HOSPITAL OF RHODE ISLAND, PAWTUCKET

The Memorial Hospital of Rhode Island Residency is classified as a PM&S-36. We have a total of 3 residents, one for each year. Our Hospital is affiliated with Brown University School of Medicine. Memorial Hospital is a teaching hospital with numerous residency and fellowship programs in all areas of medicine. The Podiatry Residency is integrated into the teaching program at the Hospital, offering a "hands-on approach" and a unique learning experience.

- **Rotations include:**
  Internal Medicine, Pathology, General/Vascular Surgery, Anesthesiology, Medical/Diagnostic Imaging, Dermatology, Infectious Disease, Emergency Room/Trauma (on-going), Orthopedic Surgery (on-going), Podiatric Medicine and Surgery (on-going), and Podo-Geriatrics.

- **Clinical Experience:**
  Probably the strongest feature of this program. The clinical experience is tremendous with the combination of a Routine Foot Clinic offering palliative care (averaging 20 patients per session), and a Problem Foot Center dealing with reconstructive foot surgery, diabetic foot infections, chronic wounds, and limb salvage (averaging 30-40 patients per session). In addition to these clinics, we have office-based rotations which offer a real look into everyday podiatric practice.

- **Surgical Experience:**
  The surgical cases exceed those numbers required for classification of a PM&S-36 in all categories.

- **Salary/Benefits:**
  Salary for the 1st year is $45,876, 2nd year $47,182 and 3rd year $50,073. *May increase yearly. Benefits include: malpractice and health insurance, CME allowance, 3 week vacation, and Sick Leave benefit.

A well-rounded exposure to podiatry is the keynote of this program. If you are a hardworking and self-motivated individual who comes prepared every day, you will excel here. We also offer an externship to one student per month throughout the year. Participation in the externship is preferred but not necessary. Visitation of our program is highly recommended.

MEMORIAL HOSPITAL OF RI PODIATRIC MED/SURGICAL-36
