a. What specific preparation should future students do prior to participating in this program?
- Know classification systems
- Just to know Pre and Post of surgical note templates no real pimping
- Get your scrubbing in on surgery cases technique down.
- Look at Pocket Podiatrics
- trauma
- Just relax and be yourself
- Knowing how to write pre and post-op notes orders
- school
- Must be at program all day even if there are no cases.
- review anatomy charting
- Nothing. No real pimping but knowing classification systems and what topics the director has written on Like OCD would be helpful
- trauma
- prepare for surgery
- prepare for surgery
- OR technique
- review surgery techniques scrub-in procedure pre and post op notes
- Read up on HAV surgery know surgical classifications and trauma
- suturing bunion and arthrodesis procedures
-

- practice standing around and doing nothing and making use of free time
- General sx

b. What instruments or materials were you required to bring?
- none
- none
- A bandage scissor
- None
- none
- Bandage Scissors
- Scissors
- none
- Bandage scissors.
- scissors
- Not required to bring anything but monofilament and bandage scissor would be useful.
- scissors
- bandage sissors
- bandage sissors
- white coat scissors
- na
- None
- none
- None
- labcoat
- Scissors lab coat

c. What were your chief responsibilities on this program?
- paper work pre-op post-op
- To assist the residents in surgery and clinic
- Just assist the residents with rounds and pre-op paperwork
- Help resident
- observing paperwork
- Assist residents w preoppost op work
- Assissting residents Pre-op and Post-op notes
- show up presentation
- Have in-house patient info ready fill out paperwork.
- assist residents charting prepping OR
- Writing prepostop notes. getting OR set up for cases shadowing residents.
- op notes
- shadowingassisting residents pre-op and post op notes
- shadowingassisting residents pre-op and post op notes
- assist the residents in seeing patients
- help residents
- Assist the residents
- pre op and post op notes
- Help with paper work.
- draw up injections watch things
- Clinic and observing surgeries

d. What were the most valuable learning experiences of this program?
- hands on
- Good overall clinic and surger
- 30-40 different times I was able to scrub in. Experience is the best way to learn
- Pre and post op care
- Dr. Fallats cases
- Pre op and post op notes scrubbing in and OR protocol
- Scrubbing in to almost 40 cases
- good learning condtions
- New procedures.
- good learning environment
- Learning how to open up everything in the OR sterile and setting up
- a lot of trauma good teaching environment
- everything
- everything
- responsibilites in surgery
- surgery clinic
- Seeing all the trauma cases
- surgery

- There were
- talking with residents
- clinic

e. What aspects of this program need improvement and/or attention? Please make suggestions.
- tighter schedule
- It is already understood that students just assist in surgery and patients in clinic. Students dont do a lot as far as involvement more observation
- Only thing I didnt like was that sometimes it felt to us the students that we didnt know what we had to do. Like noone guides you instead you have to ask them what they need us to do.
- none
- not enough surgical cases more academics needed too much free time
- none
- None
- none
- Need residents to be more independent.
- There was ALOT of down town. Possibly because it was July so I would suggest visiting another month.
- none
- more learning for the student extern
- More incorporation of medicine
- none
- Not too much student involvement. mainly observing
- let students get more involved in everything from surgery to treating patients attendings should ask questions and interact with students not just residents
- More involvement in surgery

03. Which best describes the location of this practice or hospital site:

- Rural Area - 4.8%
- Small Town - 4.8%
- Small City - 4.8%
- Suburb - 81%
- Large City - 0%
- No Answer - 4.8%

Additional Costs & Activities
