Yes 94.2%
No - 5.8%

e. Suture?

Yes 75%
No - 25%

f. Perform Skin-Skin Procedures?

Yes 23.1%
No - 76.9%

Program Requirements & Reccomendations

02. Please type in your answers to the questions below. (Note: 500 character maximum for each question)

a. What specific preparation should future students do prior to participating in this program?
- Know trauma classifications especially Lauge-Hansen
- Classification systems surgical techniques
- know classification systems
- Review trauma and surgery
- Study anything and everything
- prepare to drive a LOT
- Review traumatolgy notes
- Learn hospital medicine and all surgical procedures
- Learn hospital medicine and all surgical procedures
- Trauma Classifications Surgery Antibiotics everything is free game
- no specific prep-know everything
- trauma and infections
- Review old notes esp surgery and trauma. Read articles. Learn the synthes set. Pretty much anything you can do will help
- everything
- surgical
- Read the last couple months of JFAS before you start.
-
- none
-

- none
- classifications instruments literature
- read everything you canclassification systemsrearfoot
- Study surgery and trauma
- Know as much as you can about surgical clinical and educational areas of podiatry and if you happen to not know something just prepare for the next day by going home and studying what you didnt know and always preparing for the next days cases
- study
-
- Read journals and be prepared prior to each surgery
- Go to class and study
- all aspects of podiatry know classifications
- study notes
- Review all the class notes.
- study surgery read Dr. Yu articles
-
- read medical texts
- you will be pimped... alot. read journal articles. Know your most common causes of hammertoes
- na
- Practice not eating all day
- Review everything
- Stay up on current literature as well as any articles by Dr. Yu
- Stay up on current literature as well as any articles by Dr. Yu
- None just know where you need to show up at first
- work hard
- nothing in particular review all material
- read mcglamrys
- Study
- Prepare to work long hours and do nothing
- read
- Nothing laid back
- read articles
- none
- none
- Read Presby

b. What instruments or materials were you required to bring?
- nail nippers measuring device
- none
- na
- None
- Nail nipper
- lab coat
- none
- nail nippers
- nail nippers
- Lab coat tractograph trama scissors
- nail nippers bandage scissors- not required but helpful
- lab coat scissors
- Bandage scissors nail nippers SWMF
- lab coat SWM scissors
- scrubs lab coat
- none
-
- none
-
- none
-
- scissorscamerahandytapestethoscopehandy
- basic
- Depends where what day but in general nothing except white coat
- bandage scissor
-
- Bandage scissors tunning fork stethoscope and pen light
- White coat utility scissors
- bandage scissors nail nippers

- tuning fork semmes weinstein
- NA
- white coat nippers
-
- nail nippers
- stethoscopenail nippers lab coat
- na
- scissors
- bandage scissors
- scissors white coat
- scissors white coat
- Having nail nippers and tape in your pocket is a good tip
- willingness to learn
- white coat nail nipper
- large nail nipper pen light
- None
- scissors and nail nippers
- none
-
- sissors
- none
- none
- Scissor white coat

c. What were your chief responsibilities on this program?
    - Treat patients in clinic and hospital assist the residents in anything theyre working on.
    - act as a resident
    - be on time attend all meetings end of month presentation
    - Round and scrub cases
    - Assist resident
    - presentation at end of month
    - none
    - follow residents and do what they want you to presentation at the end of the month
    - follow residents and do what they want you to presentation at the end of the month
    - Functioning as a first year resident note writting ect.
    - none specifically just assist the 1st year resident with her duties
    - assist residents in daily activities ie surgery in-house pts.
    - Help out the residents
    - work hard come early and stay late
    - rounds
    - all aspects of resident life
    -
    - notes
    -
    - notes rounds clinic
    -
    - follow residentsobserve surgeryanswer questionsseeing pts in clinicresearch project and power point presentation
    - A lot of different things presentation at the end of the program
    - Attend clinc and surgery and round on patients with attending and write prepost op notes in patient rounding notes and pull material for the next day cases
    - see pts in clinic be prepared for surgery round on pts
    -
    - round with the residents assist in surgery and assist residents in clinic
    - Assist residents
    - anything to help the residents
    - shadow residents
    - Learning to write Pre-Op and Post-Op notes.
    - follow residents
    -
    - see patients self learning
    - do whatever the residents say: pull materials for surgery arrive early stay late give a presentation on whatever you are assigned
    - na
    - follow residents around
    - help resident in all aspects of their jobs

- help the residents in whatever way they needed
- help the residents in whatever way they needed
- Assist the first year resident in duties
- assist residentsattendings
- patient care in clinic and on floor assist residents
- dressing changes see patients in clinic prep for cases presentation
- pull for cases see patients in clinic
- Nothing
- show up
-
- HP
- Treat patients in clinic perform in surgical setting
- follow around the residents
- All pre-op preperations and post op notes full patient eval in clinic

d. What were the most valuable learning experiences of this program?

- Caring for in-house patients participating in true hours of a resident
- surgical experience in house experience
- everything!
- Scrubbing and Tuesday conferences
- great surgery variety of non-elective
- my presentation
- Surgical Experience
- surgical skillsindicationscontraindications etc.
- surgical skillsindicationscontraindications etc.
- Vast pathology and major surgical procedures
- hospital charting following in house patients
- surgery and in-house patients
- The residents were absolutely phenomenal. They were extremely helpful in giving pearls of wisdom along the way so I learned a lot from them.
- working with the residents and attendings
- diagnostic
- efficiency and completeness.
-
- surgical experience
-
- surgical experience
- time management
- power point presentationvaluable rearfoot learninggood practice charting
- Time spent in the hospitals
- Clinical knowledge surgical overall knowledge and experience and research and literature review and knowledge
- everything
-
- The academics and the surgeries
- Akron General Hospital with Dr. Grossman although unfortunately students cannot scrub at Akron General.
- all
- general podiatry
- Learning residency lifestyle and responsibilities.
- surgeries
-
- surgical skills
- journal club journal articles grand rounds scrubbing in etc
- na
- Surgery
- medically managing patients
- very good educational experience
- very good educational experience
- Clinic Rounding Surgery Presentation
- one on one time
- following pts from consult to surgery to post-op
- managing patient care
- None
- Working with Dr. Frania
- rounds

-
- surgery
- surgical skills
- surgical skills
- Its very well rounded in all aspects of podiatry

e. What aspects of this program need improvement and/or attention? Please make suggestions.
- Receiving a schedule the first day would be very helpful
- less driving
- More time with Dr. Grossman
- NOne
- need another resident to divide the work too much of a demand on the first year resident on service
- Travel time on a daily basis is difficult
- less downtime travel more to the point work
- Driving between hospitals
- no suggestions
- I enjoyed spending time at Dr. Grossmans office so maybe incorporate that aspect a little more.
- none
- running back and forth to different hospitals is ridiculous. Hours and hours are wasted driving in the car.
- none
- allowing students to do more
- none
- Not to have the residents pull every single for the cases for the followling day instead of the Nurses who are paid to do it.
- Scheduling students for designated tasks on designated days
- none
- More suturing opportunities.
- chaotic due to transition period. also a lot of down time sitting at the hospital
- more scrubbing in surgical cases
- there is one attending in particular that makes the program miserable and as much as I try to respect the attending I cant because heshe treats people as though they are better than everyone else
- two externsmonth are too many
- none
- AC
- higher patient load
- more hands-on opportunities in OR
- numbers are not as high
- there needs to be better professionalism with regard to the treatment of students that rotate through
- The residents attitudes the amount of down-time the late nights
- a lot of wasted time
- Allow students to scub
- None
- too much tension between attendings and residents
- time management
- Efficiancy

03. Which best describes the location of this practice or hospital site:

- Rural Area - 0%
- Small Town - 0%
- Small City - 17.3%
- Suburb - 1.9%
- Large City - 0%
- No Answer - 80.8%

Additional Costs & Activities

04. Please type in your answers to the questions below about activities and necessary items. (Note: 500 character maximum per question)

a. If there was free time on weekends from this program, what did you find to do?
- Very little free time work on presentation for end of month.
- spend time with familyfriends
- Hang out
- Weekend Free or round if choose

- never knew when youd be called on call for entire month
- Read
- I often found myself walking in the park listening to Abba and contemplating why up is up and down is down
- Study
- weekends were off-spent time with my family
- study resturants bars
- Just hung around Cleveland
- sleep and read
- none
- went to dinner
- studyrelax
- Stayed at home
- Study and try to make up for the lack of time during the week to get paper and presentation done
- study
- reading and enjoying the Cleveland area
- Be at home
- hung out
- hang out with residents
- Reviewing Podiatric Medicine.
- all weekends ree
- work
- worked on my presentation
- stuff
- hang out with family
- Study or research
- study
- chill at home
- sports games
- be with family not much free time
- Spent time with family
- go home
- family time
- none
- stay at home
- Go Home

b. If free housing was provided, please list where.

- none
- none
- na
- Dont know
- in town
- my house
-
- none that I used
- none that I used
- At the hospital
- no housing provided
- within hospital
- na

d. Where free meals provided? Yes No If not, where did you eat and at what cost per week.
    - yes all meals at hospital
    - yes
    - yes
    - Yes
    - meal vouchers
    - yes
    - yes
    - yes they were. Food was ok. Several times it upset my stomach but I have a weak stomach so that might not be their fault.
    - yes they were. Food was ok. Several times it upset my stomach but I have a weak stomach so that might not be their fault.
    - Most meals provided at hospitals
    - yes meals are free
    - yes
    - yes....which was convenient
    - yes
    - yes
    - yes. SVCH cafeteria served standard cafeteria food.
    - yes
    - yes
    - yes
    - yes
    - Yes
    - yes
    - yes all meals were free
    -
    - yes
    -
    - yes
    - Yes breakfast and lunch but eat beforehand because there might not be time to eat
    - yes
    - none. Ate out daily. 20 dollars per day
    - Yes.
    - yes breakfast and lunch daily
    -
    - yes
    - yes
    - na
    - one mealday at hospital but usually didnt have time to eat
    - yes
    - Yes
    - Yes
    - Yes
    - some meals were covered
    - a few 25-50 week
    - yes
    - No
    - NO- the residents have 6 meal tickets which they only use for themselves. Every breakfast we would sit and watch them eat huge breakfasts unless you bought your own when they could have split up the students between them so we could have got something
    - no
    - None ate at the cafeteria paid for breakfast and lunch

- No
- no
- at first but then not brought my lunch
- No

e. Did you need a car for the program?
- yes
- yes
- yes
- Yes
- Hell yes
- yes
- yes
- yes unless you are a really fast runner in which case you may make due without one but it isnt in a great area so I would recommend driving.
- yes unless you are a really fast runner in which case you may make due without one but it isnt in a great area so I would recommend driving.

- Yes

f. If you did need a car, how many miles a day did you drive?
- 50
- 25
- 60
- 10
- 50 miles

- a LOT. about 50day
- 100
- 60
- 60
- Alot I dont know.
- 15-20 miles per day
-
- ?
- 30 miles
- 20
- lots
- 5
-
- na
- na
-
- usually travel with residents but otherwise on occasion would drive somewhere else within 10 miles usually
- 5-10
- 40miles or 60 if you had to drive to akron and back.
- na
- na
- 10
- 2 of the weeks you drive to Akron I dont know how many miles.
- depends
- 25
- 15 miles a day.
- to and from St. Vs. Occasionally to other hospitals or car pool
-
- 40
- 5
- na
- a few
- varied 0-20 usually 0
- If at St Vs - 5 miles if at LakeTripoint 30 miles
- If at St Vs - 5 miles if at LakeTripoint 30 miles
- 30
- sometimes around 60
- depends on location 10 - 30 miles
- 5
- 50
- 20-30
- 30day
- When at Dr. Franias office did alot of driving
- 20
- 20
- 20
- 15-25

g. How much did the transportation to the program and back cost?

- none
- 100
- 100 per week
- 100
- You do the math
- 300
-
- cost me the overall health of my car but it survived
- cost me the overall health of my car but it survived
- Gas
- depends on gas prices
- na
- ?
- 35week
- 200

- lots
- none

i. Did you experience any special problems at this program? If so, what were they?
- none
- no
- none
- No
- No problems
- residents did not help one another out. attendings doing procedures they werent trained to do.
-
- nope residents were great attendings were great. Overall a busy but good month
- nope residents were great attendings were great. Overall a busy but good month
- No
- no problems
- na
- No the residents and attendings were great here and I was able to see some rare cases.
- long hours very tired
- na
- a couple of the residents are not quite up to par and we paid the price in time having to re-do much ofthe work we had done. Thankfully they dont have a high patient load at SVCH or youd never get off work.
- no
-
- na
- na
-
- na
- none
-
- na
-
- no
- No
- No
- none
- No.
- no
-
- no problems
- no
- na
- I was told there was no time for voiding during the day
- no

- no
- no
- The hospital does seem to keep Podiatry separate from its other departments
- none
- na
- no
- Not being informed when on call and then getting yelled at
- Exlcuding 1 resident they could care less that the students were there and they made it seem like we were more of a burden then anything. Also during our required presentation Dr. Canales was especially rude to all the students. He was shaking his head
- no
-
- no
- Once again too much attendingresident tension residents seem to walk on their toes
- no
- 0

Hour & Patient Estimates

05. List the average number of hours you spent on the program each day of the week:

i. Monday

6AM

5PM hour(s).

ii. Tuesday

6AM

5PM hour(s).

iii. Wednesday

6AM

5PM hour(s).

iv. Thursday

6AM

5PM hour(s).

v. Friday

6AM

5PM hour(s).

vi. Saturday

4AM

3PM hour(s).

vii. Sunday

2AM

2PM hour(s).

06. Which hours and days of the week were spent participating in the following: (List all office sites and hospitals if applicable) ex. MTWTh 8a-3p, Sa 1-2pm, Su 10-11a
