FSSE-NSSE Combined Report

August 2009

Interpreting the FSSE-NSSE Combined Report

Course-Based Survey Option

The course-based option asks faculty members to respond to questions about student engagement based on a course taught during the current academic year. This option is valuable for institutions that want to know more about faculty practices and student engagement tied to individual courses taught on campus.

Sample

The *FSSE-NSSE Combined Report* shows responses from both students and faculty at your institution who completed NSSE and FSSE. This report only contains responses from faculty who responded to the survey based on their experiences teaching either a lower or upper division course. Data from faculty who responded based on another type of course or who did not report a course level are not included in this report. All student responses are the same as those included in the *NSSE 2009 Frequency Distrubutions*.

Survey Items & Variable Names

Results from the FSSE survey appear in the shaded box on the left, and items from the NSSE survey appear in the box on the right. In each box, the leftmost column contains survey items in the same wording that appears on the FSSE and NSSE instruments. The second column in each box contains the name of each variable for easy reference to your FSSE and NSSE data files and your 2009 *Frequency Distributions* reports.

Student Responses

Response categories are listed just as they appear on the NSSE instrument. The distribution of student responses match those in your NSSE 2009 Frequency Distributions.

Class Level

Frequency distributions are reported separately for faculty who reported teaching a course of mostly first-year and sophomore students (LD) or of mostly juniors and seniors (UD). Student responses are reported separately for first-year students (FY) and seniors (SR). Institution-reported class ranks are used for the student data.

Faculty Responses

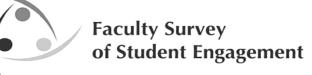

Percentage of faculty who reported that more than half of students from their courses do the following

FSSE Item	Variable	Class	50% or Higher
Frequently ask questions in class or	FOLOUEST	LD	26%
contribute to class discussions	FCLQUEST	UD	46%
Frequently come to class without		LD	27%
completing readings or assignments	FCLUNPRE	UD	23%
