

Safety in the Stall

Cleanup, Cleanup! Everybody! Everywhere!

Keep it Clean to Keep it Safe

Guidelines to Good Housekeeping

1. Keep floors free of hazards. Do **NOT** leave backpacks, coats or other objects in the middle of the floor.

2. Keep space clear around safety showers, eyewashes and fire extinguishers.

3. Clean up any spills (liquid or dry) **IMMEDIATELY**.

4. Dispose of broken glassware in the appropriate waste container.

5. After use, brush balances clean.

6. Clean up work areas, including fume hoods and benchtops, after an experiment.
