Instructor(s) expected to teach: Peer, Hale, Jonas, Huston, or Reed

Instructor(s) contributing to content: Peer

Proposal Summary

Explain the purpose for this proposal:

Create a new course as a "second internship" experience for students in the ATTR major. Students currently repeat the internship course. We are splitting the internship into two separate courses - Internship in ATTR I and Internship in ATTR II so that students can have a year-long internship experience as part of the senior culminating experience.

Explain how this proposal affects program requirements and students in your unit:

This course will be added as a major requirement increasing credit hours for courses counted in major GPA. However, general elective hours will be reduced so there will not be an increase in total credit hours for the degree.

Explain how this proposal affects courses, program requirements and student in other units:

It is an ATTR program change only. No other programs will be impacted.

Explain how this proposal affects enrollment and staffing:

Internship was already taught each semester so there are no staffing or enrollment issues. Students will take Internship II in the spring semester of the senior year.

Units consulted (other departments, programs or campuses affected by the proposal):

ATTR faculty
