

Professional and Research Opportunities for Graduate Students

Faculty Member(s):

Cindy Kovalik

Project Title:

No official title yet—still in the planning stages

Project Description:

The goal of this research project is to determine the information literacy skills of high school seniors. A series of measurements are available for analysis. This study is being done in conjunction with a high school in the Columbus area.

Project Timeline:

The school already has data available. This project is still in the planning stages.

Days/Time Commitment:

Open. Still planning. May involve some travel to Columbus.

Research Method:

Not yet determined.

Benefits to Student:

Opportunity to help define the research project. Ability to analyze and interpret data. Possible opportunity to present at a regional or national conference. Opportunity to co-author a paper for publication.
