

FALL WORKSHOPS 2020

KENT STATE
UNIVERSITY

Sponsored By:

The College of Education, Health and Human Services with
The Office of Continuing and Distance Education

**WELCOME BACK,
STUDENTS!**

to register for workshops visit:

www.kent.edu/creditworkshops

*All workshops for the Fall 2020 semester will be remote and online. All workshops and programs both graduate and undergraduate are subject to tuition changes during the semester. All online workshops also come with an **additional \$12** distance learning fee.*

WORKSHOPS FAQs:

What are workshops?

Workshops are an additional curricular route for students looking to round out their educational experience. These workshops cover a broad range of topics to prepare you for whatever challenges the professional world will present you. The workshops will also cover credits for both graduate and undergraduate.

Who can take these workshops?

Anyone can register for these online workshops. Current students, prospective students, or people looking to expand their education on certain topics and learn specific skills. You do not have to be a currently registered student or be regiered in the fall to take any of the online workshops!

Does this count toward my major or GPA?

For any questions involving your standing we recommend discussing this with your advisor. It is at the discretion of your college and program to decide if any of the online workshops you take can work toward your major. The workshops are graded on a satisfactory or unsatisfactory scale resulting in an S or a U on your final grades.

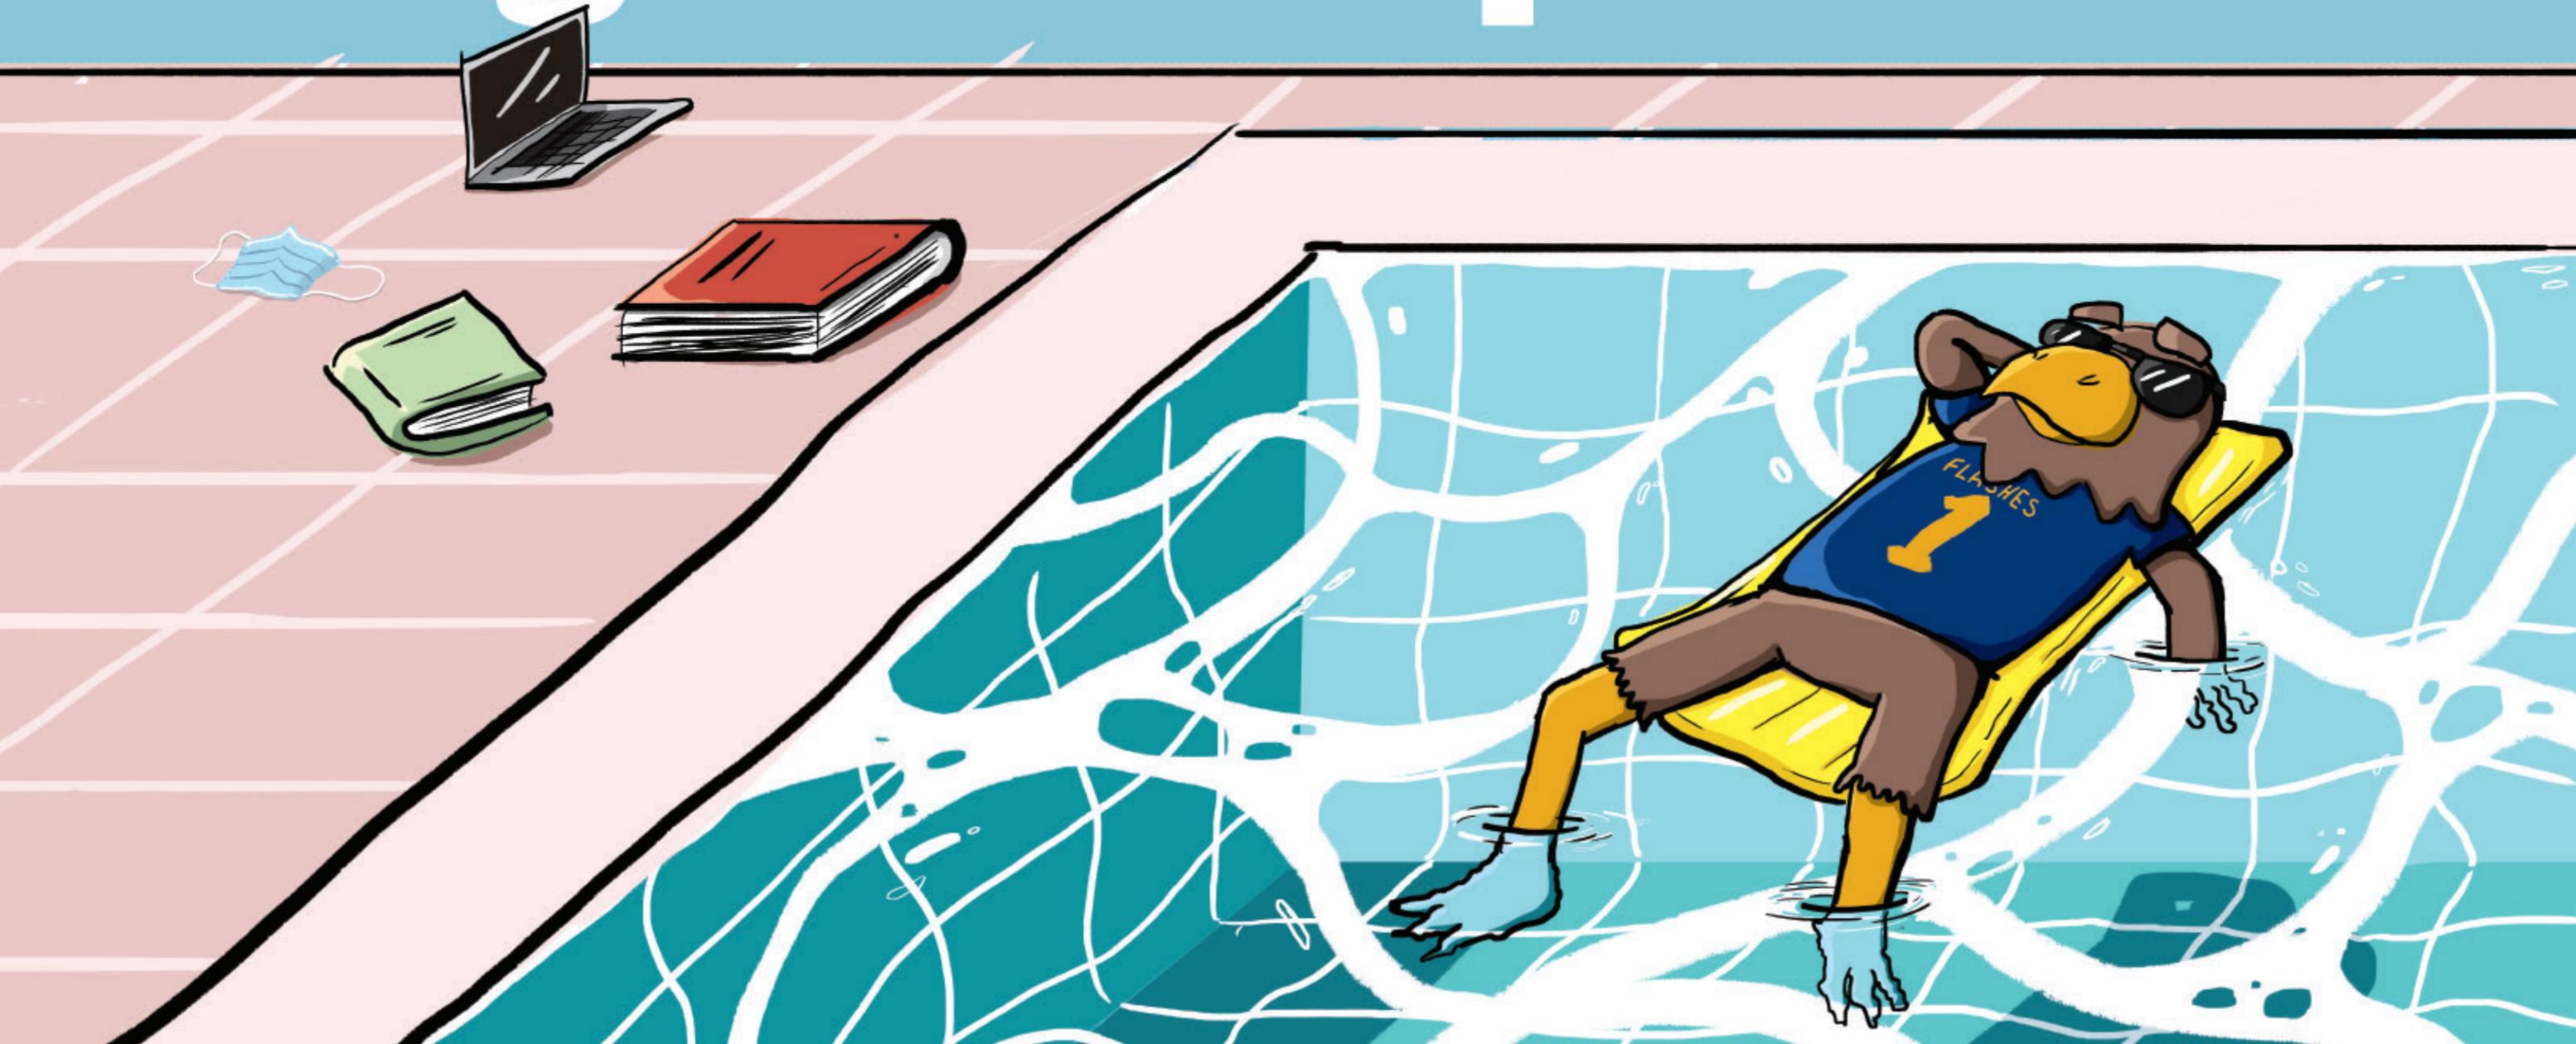

Do I have to pay for these workshops?

Yes, all workshops are cost on the same scale as undergraduate/graduate credit hour price.

For more answers please visit the link above and as always, your advisor can help you make the best decisions for your academic career!

18 Workshops beginning August 27th

August – September

FROM IEPs TO MANIFEST DETERMINATION: EVERYTHING TEACHERS, PARENTS, AND PARAPROFESSIONALS NEED TO KNOW ABOUT SPECIAL EDUCATION LAW

Teachers nowadays are not just educators — they are also social workers, nurses, and lawyers. Designed specifically for teachers, paraprofessionals, and parents, this workshop provides an introduction to the many legal issues involved in educating children with disabilities. Topics covered include (but are not limited to): identifying and assessing children with disabilities, developing and implementing appropriate IEPs, disciplining students with disabilities, maintaining confidentiality, and dispute resolution.

Required Textbook: None

ONLINE; August 27 - December 13

3 undergraduate credit hours, \$1,395 | SPED 40093, CRN # 31942

3 graduate credit hours, \$1,608 | SPED 50093, CRN # 31943

Dr. Robert Cimera, instructor, LDES

GRANT WRITING

Interested in increasing your skills to locate and write a successful grant proposal? The skills learned in this basic grant writing workshop can be transferred to any occupation and look great when presented on a vitae or resume. You will learn basic writing skills, including proposal development, acquisition, and management. Review strategies for developing successful grants.

Required Textbook:

Winning Grants Step by Step: The Complete Workbook for Planning, Developing & Writing Successful Proposals, 5th ed., (2019). O’Neal-McElrath, T., San Francisco, CA: Jossey-Boss. ISBN: 9781119547341

ONLINE; August 27 - October 15

2 undergraduate credit hours, \$930 | EDLE 40093, CRN # 31336

2 graduate credit hours, \$1,072 | EDLE 50093, CRN # 31337

2 graduate credit hours, \$1,072 | EDLE 70093, CRN #31338

Dr. Wendy Samford, instructor, FLA

MAKING ADHD A GIFT

Taught by an individual with ADHD, who happens to have a Ph.D. in special education, this fully online workshop will not only discuss ADHS is and isn't, but it will also explore ways of making ADHD a gift! Parents and individuals with ADHD are welcome, as are teachers, counselors and other professionals. This workshop will examine the history, etiology, and characteristics of attention deficit hyperactivity disorders (ADHD), as well as strategies, accommodations, and technologies that may make having an ADHD be a positive outcome.

Required Textbook: None

ONLINE; August 27 - December 13

3 undergraduate credit hours, \$1,395 | SPED 40093, CRN # 31419

3 graduate credit hours, \$1,608 | SPED 50093, CRN # 31420

Dr. Robert Cimera, Instructor, LDES

PHOTOSHOP® I

Focus on the fundamental operations and controls of Photoshop. The workshop will feature lectures, demonstrations, and tutorial lessons from the text.

Optional Textbook:

Adobe Photoshop CC Classroom in a Book, (2017). Andrew Faulkner & Conrad Chavez, San Francisco, CA: Pearson Adobe Press, ISBN-13: 978-0134663456 (e-book available)

ONLINE; August 31 - September 27

2 undergraduate credit hours, \$930 | ETEC 40093, CRN # 31342

2 graduate credit hours, \$1,072 | ETEC 50093, CRN # 31343

ONLINE; October 26 - November 22

2 undergraduate credit hours, \$930 | ETEC 40093, CRN # 31410

2 graduate credit hours, \$1,072 | ETEC 50093, CRN # 31411

Dr. Richard (Ben) Hollis, Instructor, LDES

INTRAPERSONAL CONFLICT AND STRESS MANAGEMENT

This fully online course addresses the question: “What is intrapersonal conflict and stress (conflict within one’s own self), and how can it be addressed more effectively—for myself, and for the clients/students that I serve?” Upon successful completion of this course, participants will be able to do the following: distinguish between different types of stress; describe the impact of traumatic stress on children and adults; identify aspects and types of dissociation; identify and evaluate preferred techniques through practice, application, and reflection; and describe the benefits and intentions of your preferred techniques to others. Developed for teachers, counselors, social workers and psychologists, this course is helpful to anyone working with people experiencing inner conflict and stressful life situations, and includes the opportunity to try out and develop ways of sharing stress reduction techniques with your clients or students.

Required Textbook: None

ONLINE; August 31 - September 27

2 graduate credit hours, \$1,072 | CES 50093, CRN # 31341

Dr. Jennifer Maxwell, Instructor, LDES

DIFFERENT BY DESIGN: DESIGNING ONLINE AND HYBRID COURSES FOR STUDENT LEARNING

This fully online, asynchronous course will help make clear why the online environment is different from the face-to-face classroom, as you learn how to design courses that are especially effective for online learning. In this workshop, you will learn the essentials of instructional design, and how to design/re-design your course to promote student learning online. Participants will create pedagogical framework and structure of an online course, so students are asked to come with a course in mind that they want to work on. Instructional design principles and practices learned in this course can also be applied to face-to-face courses.

Required Textbook: None

ONLINE; August 31 - October 11

2 graduate credit hours, \$1,072

ETEC 50093, CRN # 31345

Dr. Bethany Simunich, Instructor, TLC

THRIVE WITH GOOGLE DRIVE

Did you know that you could actually teach and learn through the use of Google Drive? The goal of this workshop is to introduce you to the many tools available through Google Drive. Through this hands-on workshop, you'll learn how Google Drive can increase collaboration and communication, creativity and innovation, critical thinking, and problem-solving skills. Don't get left behind, thrive using Google Drive!

Required Textbook: None

ONLINE; August 31 - September 20

2 undergraduate credit hours, \$930 | ETEC 40093, CRN # 31339

2 graduate credit hours, \$1,072 | ETEC 50093, CRN # 31340

Dr. Julee Henry, instructor, TLC

DESIGNING WEB SITES: AN OVERVIEW

The World Wide Web is used extensively in educational and business settings as a means of presenting original information. The variety and availability of programs for web designs have increased; however, it is important to first learn basic Web designing principles and skills. This workshop provides skills in organizing and writing information for the Web, structuring a site, enhancing site usability, and evaluating one's efforts. Participants will create a blueprint of a website in this workshop that will assist in the future creation of the website. This workshop is independent of and does not teach specific software and other technologies used in building the site.

ONLINE; September 2 - September 23

1 undergraduate credit hour, \$465

ETEC 40093, CRN # 31346

1 graduate credit hour, \$536

ETEC 50093, CRN # 31347

Dr. Marian Maxfield, Instructor, TLC

INSPIRING EXCELLENCE: TEACHING & COACHING MENTAL EXCELLENCE

This workshop is designed to assist instructional and teacher coaches to utilize the latest brain science for better performance in and out of the classroom. Great teachers and great coaches must take advantage of the practical applications of these exciting new discoveries to get peak performance during classroom testing or state championships. Great teachers coach and coaches teach.

Optional Textbook:

In Pursuit of Excellence, (2007), 5th Edition, Terry Orlick: Human Kinetics Publishers, ISBN: 978-0-736-06757-7

ONLINE September 4 - September 19

1 graduate credit hour, \$536

CI 50093, CRN # 31354

Timothy Berger, Instructor, TLC

MENTAL MOTIVATION

This workshop focuses on maximizing motivation in the classroom, in the workplace or on the playing field by teaching students and athletes to develop their thinking process in a systematic fashion used by successful athletes, administrators and students. The materials presented will challenge you to “think” in new ways as you teach, manage or coach. This course is not a “pep” talk” or a “collection” of encouraging sayings, but a road map of “how” to increase motivational thinking. Participants will benefit from the newest applications of brain science and practical approaches to improve success and motivation. Ready for more? Take the Inspiring Excellence series offered each semester!

Textbook (Optional for Undergraduates, Required for Graduates):

Rotella, B. (2014). *Golf is not a game of perfect*. Downtown Press. ISBN: 9780743492478

ONLINE; September 4 - September 19

1 undergraduate credit hour, \$465 | CI 40093, CRN # 31551

1 graduate credit hour, \$536 | CI 50093, CRN # 31553

Timothy Berger, instructor, TLC

UNDERSTANDING AND REDUCING STRESS

What “stresses you out?” Would you like to reduce the stress in your life? Come join us as we explore various aspects of stress in our modern society, the effects of stress, and various ways to reduce stress and improve health, learning, and the ability to function effectively.

Required Textbook:

Putting Out the Fire of Fear: Extinguish the Burning Issues in Your Life, (2002). Sharon Promislow, West Vancouver, BC: Enhanced Learning & Integration Inc., ISBN-10: 0968106641 or ISBN-13: 978-0968106648

REMOTE; Thursdays; September 3 - October 8 | 4:15 p.m. - 6:45 p.m.

1 undergraduate credit hour, \$465 | CES 40093, CRN # 31389

1 graduate credit hour, \$536 | CES 50093, CRN # 31390

Dr. Lisbeth Justice, instructor, LDES

TEEN DATING IN THE 21ST CENTURY: THE IMPACT OF ALCOHOL, DRUGS AND SEX

This workshop is designed to provide parents, students, and professionals the skills and tools to work with teenagers who are involved in dating. Teenage dating has evolved during the 21st century to a point that teens as young as twelve and thirteen are now dating and engaging in sexual activities, as well as the use of drugs and alcohol. It is conceivable that today's youth are engaging in these adult-like activities without the maturity or knowledge of how to protect themselves from harm. It is paramount that parents and professionals learn what is needed to assist teens in making good decisions and being safe in today's society. Those who understand and provide appropriate guidance can make a difference in teenagers being safe or being harmed by others, or by situations in which they are vulnerable.

Required Textbook:

Reality Gap: Alcohol, Drugs and Sex - What Parents Don't Know and Teens Aren't Telling, (2008). Wallace, Stephen, Union Square Press, ISBN: 978-1-4027-5304-6

ONLINE; September 7 - September 28

1 undergraduate credit hour, \$465 | CES 40093, CRN # 31357

1 graduate credit hour, \$536 | CES 50093, CRN # 31358

Dr. Sandra Miller-Jones, instructor, LDES

SUPPLEMENTAL & INTENSIVE MATH INSTRUCTION FOR STRUGGLING LEARNERS

This workshop introduces the knowledge and skills needed to plan, deliver, and evaluate supplemental and intensive math instruction using research-based programs and practices. Participants learn how data-based individualization is used to determine what and how to teach to promote acquisition and mastery of critical math skills and concepts. Participants learn effective strategies and instructional approaches for improving outcomes for students experiencing persistent difficulties learning math including students with disabilities.

Required Textbook:

Direct Instruction: Mathematics (5th ed.), (2017), Stein, M., Kinder, D., Rolf, K., Silbert, J., & Carnine, D.W., Pearson, ISBN13: 978-0134711225

ONLINE; September 13 - November 7

3 undergraduate credit hours, \$1,395 | SPED 40093, CRN # 31361

3 graduate credit hours, \$1,608 | SPED 50093, CRN # 31362

Dr. Andrew Wiley, instructor, LDES

CLASSROOM MANAGEMENT: ADDRESSING ALL STUDENTS' BEHAVIORAL NEEDS

Difficulty managing student behavior is among the most frequently cited reasons why teachers leave the profession. Don't be scared, be prepared! This workshop provides in-depth coverage of research-based principles and practices for effective classroom and behavior management. Workshop materials include step-by-step guides for implementing behavioral interventions at group and individual levels. Multimedia podcasts reinforce key knowledge and include video demonstrations of real teachers modeling effective practices. Valuable information and guidance for all school-based professionals and anyone interested in supporting student success at school.

Required Textbook: None

ONLINE; September 20 - October 24 | 3 undergraduate credit hours, \$1,395

SPED 50093, CRN 31536 | 3 graduate credit hours, \$1,608

SPED 50093, CRN #31365

Dr. Andrew Wiley, instructor, LDES

FLIPPING YOUR CLASSROOM

How do you reach every student, in every class, every day? Create a flipped classroom. This type of classroom inverts traditional teaching methods, delivering instruction online outside of the classroom, and moving homework into the classroom. Students will learn how to create an engaging, interactive environment that is student-centered. Workshop participants will create an instructional video that can be used for flipped learning in their classroom.

Required Textbook:

Flip Your Classroom: Reach Every Student in Every Class & Every Day, (2012). Jonathan Bergman and Aaron Sams, International Society for Technology in Education. ISBN: 10 1564843157 or 9781568483159

ONLINE; September 21 - October 11

2 undergraduate credit hours, \$930 | ETEC 40093, CRN # 31366

2 graduate credit hours, \$1,702 | ETEC 50093, CRN # 31369

Dr. Julee Henry, Instructor, TLC

MICROSOFT EXCEL-I®

This course is an introduction to the functional design of Microsoft Excel focusing on the management of Excel spreadsheets, applying formulas, and graphing and charting data. Skills covered will include but are not limited to the following:

- SUM - 4 basic operations + - * /
- AVERAGE
- COUNT, COUNTA, COUNTIF
- Wrap Text/Shrink Text
- Table formatting
- Format painter
- Sorting
- Linking
- Absolute referencing
- Conditional formatting
- Text to columns
- Concatenate
- Freezing rows, columns
- Printing gridlines, repeated rows/columns
- Protection
- Renaming sheets
- Move/Copy sheet
- Chart formatting
- Headers and Footers
- Charting data from multiple worksheets
- Templates

Students will need Microsoft Excel 2013 or later for Windows or Microsoft Excel 2016 for this workshop.

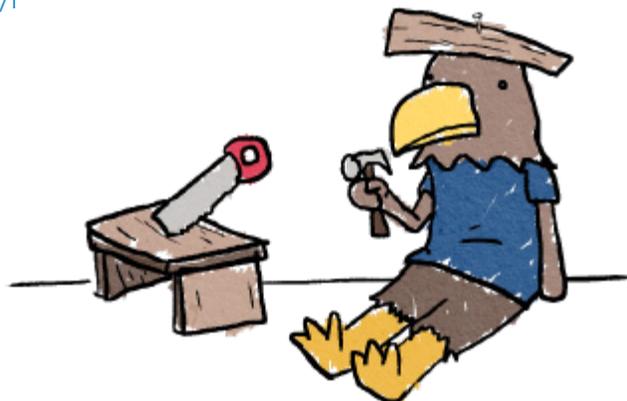

Required Textbook: None

ONLINE; September 21 - October 21

MANAGING AND NEGOTIATING CONFLICT IN YOUR PERSONAL AND PROFESSIONAL LIFE: A WORKSHOP FOR EDUCATORS, COUNSELORS AND SOCIAL WORKERS

Conflict is a part of life – it can lead to positive change and growth, or it can be waged in intensely destructive ways. This fully online course is designed to help participants develop an enhanced ability to use communication and listening skills and negotiation strategies to manage conflict in a more productive manner. Participants will develop a deeper understanding of how conflict styles, temperament, power, and cultural differences impact how conflict is waged. They will experiment with and practice techniques to deal with conflict with “difficult people,” anger, and aggression. Finally, they will be able to use their enhanced skills and knowledge to develop programs to teach this information to their students or clients.

October – November

EXPERIENCING EXCELLENCE: TEACHING & COACHING MENTAL EXCELLENCE

Combining the exciting new discoveries of neuroplasticity (brain science) for improved learning, confidence and information retention is now being used by the best in the profession. Attaining success in the quickest way possible is the inevitable outcome as a teacher or coach. Aspiring great teachers and coaches can take advantage of the aspects of brain science that great athletes and achievers utilize effectively. This workshop will provide the participant with the proven successes of top professionals by using the cutting-edge science of educating the brain.

Optional Textbook:

In Pursuit of Excellence (5th ed.), (2007). Orlick, T., IL: Human Kinetics Publishers. ISBN: 978-0-736-06757-7

ONLINE; October 2 - October 17

1 graduate credit hour, \$536 | CI 50093, CRN # 31388

Timothy Berger, Instructor, TLC

MENTALLY AWESOME FOR MAXIMUM MENTAL PERFORMANCE

This workshop is designed to assist instructional/teacher coaches & administrators to build a mental toolbox by utilizing the latest brain science for maximum mental performance. The cognitive tools presented in this class will serve the practical daily demands of improved thinking in all types of situations! By the end of the workshop, you will have built a mental toolbox that will allow you to apply knowledge of practical brain science used in some of the most successful organizations in the world. These tools will assist your students, workers or athletes in better critical thinking, concentration, stress reduction, and confidence building.

Textbook (Optional for Undergraduates, Required for Graduates):

Donnelly, D. (2016). *Think like a warrior: The five inner beliefs that make you unstoppable*. Shamrock New Media, Inc. ISBN: 0692705465

ONLINE; October 2 - October 16

1 graduate credit hour, \$536 | CI 50093, CRN # 31558

Timothy Berger, instructor, TLC

RESPONSE TO INTERVENTION: A PROMISING PRACTICE FOR IDENTIFYING AND HELPING STRUGGLING LEARNERS

Participants will obtain a solid understanding of the logic behind RTI, how RTI is implemented in schools, and how RTI can be used to identify students who have learning disabilities.

Required Textbook: None

ONLINE; October 4 - October 31

2 undergraduate credit hours, \$930 | SPED 40093, CRN # 31394

2 graduate credit hours, \$1,072 | SPED 50093, CRN # 31392

Dr. Andrew Wiley, instructor, LDES

UNDERSTANDING AND WORKING WITH DIFFICULT CHILDREN

This workshop is designed to provide individuals who are working with children, or plan on working with children, pertinent information regarding recognizing and understanding behavior problems in children. Not all children with behavior problems will display identical difficulties. Eclectic approaches are needed to address specific behavior issues. Workshop participants will be educated on the diversity of problems and children. Referrals and assessment needs will be discussed.

Required Textbook:

Transforming the difficult child: The nurtured heart approach, (2016 revision). Glasser, H. & Easley, J., AZ: Nurtured Heart Publications, ISBN: 9780967050707

ONLINE; October 5 - October 26

1 undergraduate credit hour, \$465 | CES 40093, CRN # 31396

1 graduate credit hour, \$536 | CES 50093, CRN # 31397

EFFECTIVE ONLINE TEACHING

Are you currently teaching an online course, or would like to know more about effective online teaching? If you're unsure on how you can successfully transition your teaching online, or how you can have a positive experience as an online instructor, then this course is for you! This intensive, four-week workshop will help you understand why the online environment is different from the face-to-face classroom, and how to make good pedagogical choices for online teaching. In this workshop, you will learn effective online teaching strategies and methods, based on best practices and research, and also explore other topics such as instructor role, teaching presence, active learning and creating an online learning community. Please note that this course is not about designing an online course, using a specific LMS, or using particular educational technology tools. While we will talk about technology and tools available for online courses, the focus is on the pedagogy of online teaching.

Required Textbook: None

ONLINE; October 19 - November 29

2 graduate credit hours, \$1,072 | ETEC 50093, CRN # 31400

Dr. Bethany Simunich, Instructor, TLC

DEVELOPING AN E-PORTFOLIO WITH WORDPRESS

WordPress is one of the most highly used platforms on the web. It provides users with the tools needed to create blogs or websites with ease. Within minutes, beginners can create a dynamic website or blog with a sharp design and zero coding required...for free! In the two-week workshop, students will complete an ePortfolio that showcases their KSU coursework all with the WordPress.com environment.

MOBILE TECHNOLOGIES FOR EDUCATORS

Technology but more specifically mobile devices and applications have become integrated into the daily lives of people on a personal, educational, and professional level. The use of mobile devices and the methodological and best practice in K-12 classrooms are essential in the 21st century classroom. It is important for participants to be able to understand the basics and integration of mobile technologies to engage, motivate, and assist students in the learning process and achievement. Mobile technologies are increasing in society and within the learning and teaching environments because mobile technologies are readily available and are easy and effective tools to aid in effective and efficient teaching and learning. Participants will review the current mobile technologies and how they can be implemented into a unit lesson for student learning and achievement.

REALIZING EXCELLENCE

Whether you are a new teacher, coach or seasoned veteran, the applications of the newest brain science discoveries can aid you in developing a “culture of success” in the classroom or on the playing field. Learn how to apply the old themes of success (confidence, concentration, attitude, and positive performance) in light of the newest discoveries of brain research will shorten your quest to be the finest you can be. Join the adventure of learning how those 100 billion neurons called your brain can be molded into a successful machine of incredible power and performance.
