

Professional and Research Opportunities for Graduate Students

Faculty Member(s): V. Seeberg

Project Title: see below

Project Description: see below

Project Timeline: ongoing

Days/Time Commitment

Research Method: qualitative and descriptive quantitative

Benefits to Student: "apprenticeship" as a team member to conduct empirical research; possibility of funding for summer time participation through KSU.

- "African American Students' Academic Engagement and Success: Family Stories"; focus on Shaker Heights, Ohio; ethnography; in process of analysis, using Nvivo. Shaker Heights Research Team meets once in 2 months in Shaker Heights.
- "Chinese Girls Study group" is a cross-cultural, comparative education of girls in the context of globalization; socio-anthropological approach, particularly the human development/capabilities approach. We meet irregularly during the semester.
