

## **Professional and Research Opportunities for Graduate Students**

**Faculty Member(s):**

Christopher Was

**Project Title:**

Knowledge monitoring, metacognition and working memory

**Project Description:**

I have several studies currently underway that are investigating the relationships between academic success, the ability to accurately assess one's own knowledge, metacognition, working memory capacity and various personality variables.

**Project Timeline:**

Ongoing

**Days/Time:**

Commitment varies

**Research Method:**

Various multivariate and individual differences studies

**Benefits to Student:**

Acquire in depth understanding of metacognition, experience with SPSS, AMOS and M-plus. Experience in data collection, organization and analysis.
