## IMMERSE YOURSELF IN

CREATIVE CODING

2-DAY WORKSHOP

Make computational art and learn to code this summer at the Kent State Creative Coding Workshop. Junior and senior high school students with little or no background in coding and computer graphics are invited to a two-afternoon, hands-on workshop hosted at the Kent State University campus.

Led by faculty in the School of Emerging Media and Technology, attendees will learn the basics of JavaScript and leave with a distinctive digital artifact and the tools to create generative art. This workshop is perfect for students exploring their expressive side and curious about coding.

Have any questions? Email us: EMAT@kent.edu

Dates: June 12 and 13 from 1 – 5 pm
(for high school students)

Location: Franklin Hall, Kent State University
(550 Hilltop Drive, Kent, OH)
Room 326 (IdeaBase)

Cost: This workshop is free but registration is limited, *so sign up while spots are available!*

Registration: https://www.kent.edu/emat/workshops
