

Can I sync my Apple Watch with On the Move?

Unfortunately, we don't yet directly support the Apple Watch (sometimes call iWatch). This is a shortcoming on Apple's side that we're trying to fix for the next time we run the On the Move challenge.

In addition, there are many free iPhone app options (no tracker needed) on the list of supported devices including:

Fitbit

https://www.fitbit.com/app

Runkeeper
