

Transmittal Memo

Date: September 19, 2014

To: Joanne Arhar, Associate Dean for Student Services, Undergraduate Education

From: William Kist, ADED Program Coordinator

Re: Revision of ADED Dual Degree/Double Major policy; course revisions

This action is to establish a double major/dual degree policy for ADED programs.

Courses in the Workflow:

ADED 42357: revise

ADED 49525: revise

Curricular/consultative bodies that have approved this action:

ADED faculty: May 12, 2014

TLC SCC: March 21, 2014

KENT STATE UNIVERSITY

CERTIFICATION OF CURRICULUM PROPOSAL

Preparation Date **12-Mar-14**

Curriculum Bulletin _____

Effective Date **Fall 2015**

Approved by EPC _____

Department **Teaching, Learning and Curriculum Studies**
College **EH - Education, Health and Human Services**
Proposal **Establish Policy**
Proposal Name **ADED Double Major/Dual Degree Policy**

Description of proposal:

The purpose of this proposal is to establish a policy for double majors/dual degrees in the Adolescence and Young Adult Education (ADED) program. The undergraduate ADED program provides teacher licensure in eight major academic areas: Earth Science [ESCI], Integrated Language Arts [INLA], Integrated Mathematics [IMTH], Integrated Science [ISCI], Integrated Social Studies [INSS], Life Sciences [LFSC], Life Science/Chemistry [LSCM], and Physical Sciences [PHSC].

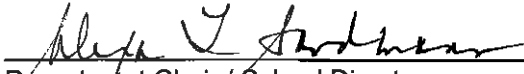

Describe impact on other programs, policies or procedures (e.g., duplication issues; enrollment and staffing considerations; need, audience)

None

Proposal Summary ADED Double Major/Dual Degree Policy

Description of Action, Including Intended Effect

The purpose of this proposal is to establish a policy for double majors/dual degrees in the Adolescence and Young Adult Education (ADED) program. The undergraduate ADED program provides teacher licensure in eight major academic areas: Earth Science [ESCI], Integrated Language Arts [INLA], Integrated Mathematics [IMTH], Integrated Science [ISCI], Integrated Social Studies [INSS], Life Sciences [LFSC], Life Science/Chemistry [LSCM], and Physical Sciences [PHSC].

***According to University Policy, in certain cases students may be able to complete the requirements for more than one academic major through either a double major or a dual-degree program of study. A double-major combines two major fields of study within the same degree program. A dual degree combines two majors from distinct degree programs or two majors from the same degree but from different colleges. The ADED program will generally approve double majors within ADED academic areas or dual degrees/double majors outside of ADED (such as Art Education, Music Education, etc.) as long as the following requirements are met:**

1. All required content courses are taken for each major
2. All required methods courses are taken for each major.
3. Separate practicum and inquiry courses must be taken for each major as listed below:
 - ADED 42292 *Field Work Practicum* or the equivalent required by an outside program
 - ADED 49525 *Inquiry into Professional Practice* or the equivalent required by an outside program
4. Students double majoring in two ADED programs need only take one ADED 42357 *Secondary Student Teaching* course, consisting of a 16 week classroom experience involving both subject areas. The student teaching requirements for non-ADED students will be determined by faculty from both program areas at the time the program of study is developed, with a minimum 16 weeks spent in the classroom.
5. A program of study for those interested in pursuing a double major must be approved in writing by faculty from each major area prior to admission to advanced study.

The need for students to take content, methods and clinical coursework in both subject areas is due not only to assessment requirements of our professional associations (National Council of Teachers of English, National Council for the Social Studies, National Science Teachers Association, and the National Council of Teachers of Mathematics), but also to our own philosophical beliefs that there are different skillsets and experiences needed for our graduates to be effective in their future classrooms, depending on what subject(s) they eventually teach.

The *paragraph above (in bold) will be included as a note on the bottom of each ADED major's program requirements in the University Catalog.

Impact on Other Programs, Course Offerings, Students, Faculty, Staff (e.g., duplication issues)

ADED courses 42292 and 49525 will be repeatable, allowing students to receive credit for both courses. The GPS Audit will have to be coded to look for and accept courses for both majors. The student teaching course(s) for non-ADED students may require a course substitution to be completed, depending on individual circumstances.

Fiscal, Enrollment, Facilities and Staffing Considerations

None

Evidence of Need and Sustainability if Establishing

There are occasional students with an interest in having licensure in more than one subject area. Having a policy about double majors clearly stated will ensure that faculty, students and advisors are able to be clear with students who are interested in this option but, currently, might not be able to understand how it might be pursued.

Provisions for Phase-Out if Inactivating

NA

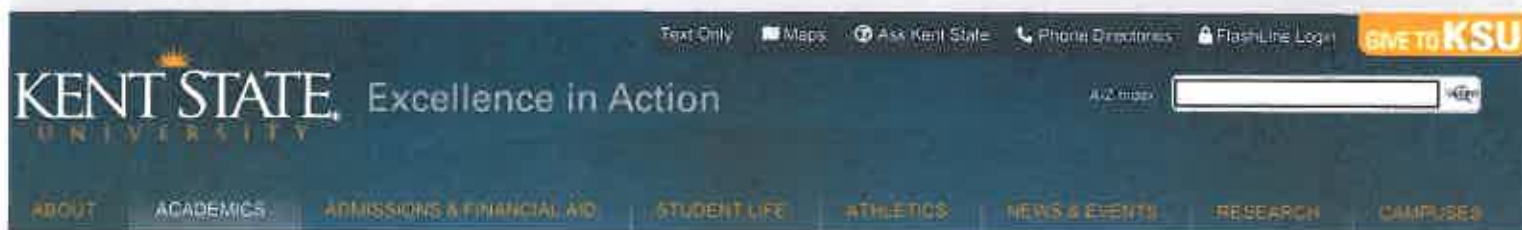

Timetable and Actions Required: The proposal will go through the required curriculum approval process with changes to take effect fall 2015. The following is the anticipated schedule:

 ADED approval: February 21 & May 12, 2014

 TLC approval: March 21, 2014

 presented to EHHS: September 26, 2014

 presented to EPC: October 20, 2014

MINIMUM TOTAL				134

1. A minimum C (2.000) grade must be earned. A minimum C (2.000) grade must be earned in ADED 32142 to fulfill the writing-intensive requirement.

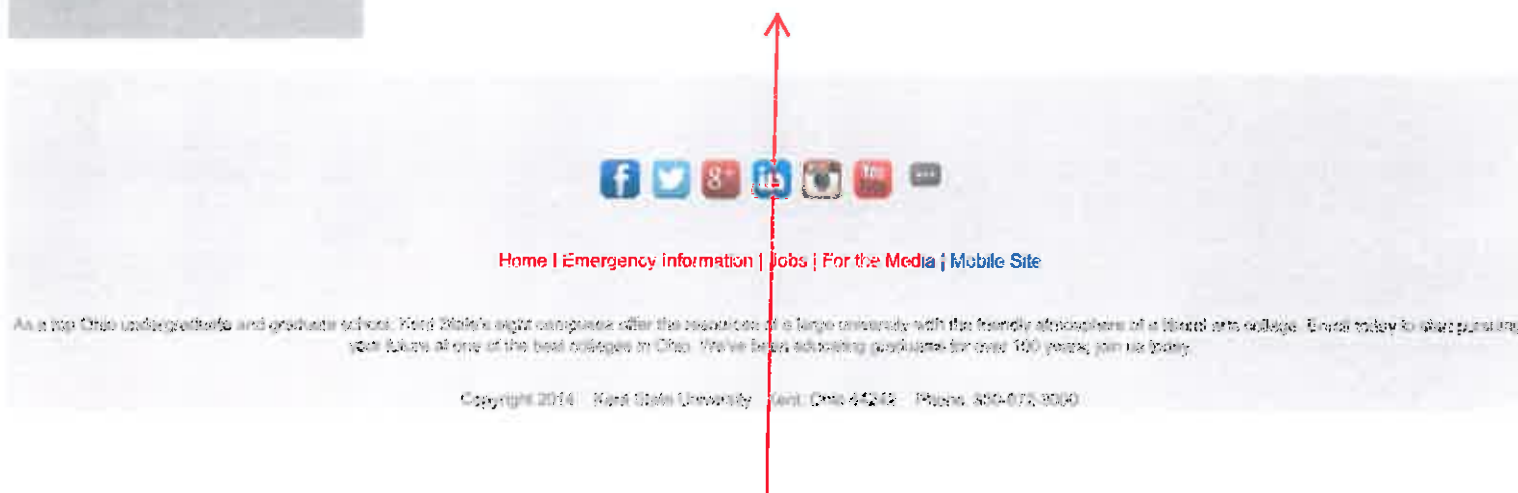

Special Major Note:

Students who pass 15 credits of non-remedial academic coursework each fall and spring semester and the 1-credit First Year Experience course will accumulate 120 credits in four years. This major requires 134 credits for graduation. Students can stay on track for graduation by:

- Declaring their major as freshmen and completing all courses in sequence (bear in mind that switching majors may cause a delay in graduation);
- Prioritizing required courses above electives;
- Meeting regularly with their academic advisors to stay on track;
- Passing each required course the first time attempted and maintaining the minimal GPA for the major;
- Successfully completing more than 15 credit hours of relevant coursework (field-based work, internship) during academic semesters; and/or
- Completing relevant coursework (field-based work, internship) during summer sessions.

Licensure Requirement (not required for graduation):

Candidates seeking Ohio licensure are required to pass specific assessments in order to apply for licensure. See [Ohio Department of Education-Educator Preparation](#) website for more information on assessments specific to licensure type. Taking and passing the licensure tests prior to graduation is encouraged but not required.

NOTE: According to University Policy, in certain cases students may be able to complete the requirements for more than one academic major through either a double major or a dual-degree program of study. A double-major combines two major fields of study within the same degree program. A dual degree combines two majors from distinct degree programs or two majors from the same degree but from different colleges. The ADED program will generally approve double majors within ADED academic areas or dual degrees/double majors outside of ADED (such as Art Education, Music Education, etc.) as long as the following requirements are met:

1. All required content courses are taken for each major
2. All required methods courses are taken for each major.
3. Separate practicum and inquiry courses must be taken for each major as listed below:
 - ADED 42292 *Field Work Practicum* or the equivalent required by an outside program
 - ADED 49525 *Inquiry into Professional Practice* or the equivalent required by an outside program
4. Students double majoring in two ADED programs need only take one ADED 42357 *Secondary Student Teaching* course, consisting of a 16 week classroom experience involving both subject areas. The student teaching requirements for non-ADED students will be determined by faculty from both program areas at the time the program of study is developed, with a minimum 16 weeks spent in the classroom.
5. A program of study for those interested in pursuing a double major must be approved in writing by faculty from each major area prior to admission to advanced study.

	Kent Core Composition	6-8
	Kent Core Fine Arts	3
	Kent Core Mathematics and Critical Reasoning	3-5
IV.	CONCENTRATION REQUIREMENTS * (33 credits)	
	Economics (33)	
	Geography (33)	
	History (33)	
	Political Science (33)	
	Sociology (33)	
	MINIMUM TOTAL	124

1. All courses within the Major Program Requirements and Concentration Requirements must be earned with a minimum C (2.000) grade.
2. A minimum C (2.000) grade must be earned to fulfill the writing-intensive requirement.
3. A minimum C (2.000) grade must be earned.

Special Major Note:

Students who pass 15 credits of non-remedial academic coursework each fall and spring semester and the 1-credit First Year Experience course will accumulate 121 credits in four years. This major requires 124 credits for graduation. Students can stay on track for graduation by:

- Declaring their major as freshmen and completing all courses in sequence (bear in mind that switching majors may cause a delay in graduation);
- Prioritizing required courses above electives;
- Meeting regularly with their academic advisors to stay on track;
- Passing each required course the first time attempted and maintaining the minimal GPA for the major;
- Successfully completing more than 15 credit hours of relevant coursework (field-based work, internship) during academic semesters; and/or
- Completing relevant coursework (field-based work, internship) during summer sessions.

Licensure Requirement (not required for graduation):

Candidates seeking Ohio licensure are required to pass specific assessments in order to apply for licensure. See [Ohio Department of Education-Educator Preparation](#) website for more information on assessments specific to licensure type. Taking and passing the licensure tests prior to graduation is encouraged but not required.

Economics Concentration

For semester by semester course sequencing for this program view [2014-2015 Roadmap](#)

I. CONCENTRATION REQUIREMENTS (27 credits) Courses count in major GPA ¹			
Type	Course	Title	Credits
		Choose from the following:	12
	ECON 32025	Money, Credit and Banking (3)	
	32040	Intermediate Microeconomic Theory and Applications (3)	
	32041	Intermediate Macroeconomic Theory and Applications (3)	
	32070	Labor Problems (3)	
	32083	Economics of Poverty (3)	

NOTE: According to University Policy, in certain cases students may be able to complete the requirements for more than one academic major through either a double major or a dual-degree program of study. A double-major combines two major fields of study within the same degree program. A dual degree combines two majors from distinct degree programs or two majors from the same degree but from different colleges. The ADED program will generally approve double majors within ADED academic areas or dual degrees/double majors outside of ADED (such as Art Education, Music Education, etc.) as long as the following requirements are met:

1. All required content courses are taken for each major
2. All required methods courses are taken for each major.
3. Separate practicum and inquiry courses must be taken for each major as listed below:
 - ADED 42292 *Field Work Practicum* or the equivalent required by an outside program
 - ADED 49525 *Inquiry into Professional Practice* or the equivalent required by an outside program
4. Students double majoring in two ADED programs need only take one ADED 42357 *Secondary Student Teaching* course, consisting of a 16 week classroom experience involving both subject areas. The student teaching requirements for non-ADED students will be determined by faculty from both program areas at the time the program of study is developed, with a minimum 16 weeks spent in the classroom.
5. A program of study for those interested in pursuing a double major must be approved in writing by faculty from each major area prior to admission to advanced study.

DG	37078	Geography of East and Southeast Asia (3)	
DG	37079	Geography of South Asia (3)	
DG	37084	Geography of South America (3)	
	37085	Geography of Central America and Mexico (3)	
	41073	Conservation of Natural Resources (3)	
	42064	Historical Geography of the United States and Canada (3)

1. A minimum C (2.000) grade must be earned. A minimum C (2.000) grade must be earned in ADED 32142 to fulfill the writing-intensive requirement.

Special Major Note:

Students who pass 15 credits of non-remedial academic coursework each fall and spring semester and the 1-credit First Year Experience course will accumulate 120 credits in four years. This major requires 132 credits for graduation. Students can stay on track for graduation by:

- Declaring their major as freshmen and completing all courses in sequence (bear in mind that switching majors may cause a delay in graduation);
- Prioritizing required courses above electives;
- Meeting regularly with their academic advisors to stay on track;
- Passing each required course the first time attempted and maintaining the minimal GPA for the major;
- Successfully completing more than 15 credit hours of relevant coursework (field-based work, internship) during academic semesters; and/or
- Completing relevant coursework (field-based work, internship) during summer sessions.

Licensure Requirement (not required for graduation):

Candidates seeking Ohio licensure are required to pass specific assessments in order to apply for licensure. See [Ohio Department of Education-Educator Preparation website](#) for more information on assessments specific to licensure type. Taking and passing the licensure tests prior to graduation is encouraged but not required.

NOTE: According to University Policy, in certain cases students may be able to complete the requirements for more than one academic major through either a double major or a dual-degree program of study. A double-major combines two major fields of study within the same degree program. A dual degree combines two majors from distinct degree programs or two majors from the same degree but from different colleges. The ADED program will generally approve double majors within ADED academic areas or dual degrees/double majors outside of ADED (such as Art Education, Music Education, etc.) as long as the following requirements are met:

1. All required content courses are taken for each major
2. All required methods courses are taken for each major.
3. Separate practicum and inquiry courses must be taken for each major as listed below:
 - ADED 42292 *Field Work Practicum* or the equivalent required by an outside program
 - ADED 49525 *Inquiry into Professional Practice* or the equivalent required by an outside program
4. Students double majoring in two ADED programs need only take one ADED 42357 *Secondary Student Teaching* course, consisting of a 16 week classroom experience involving both subject areas. The student teaching requirements for non-ADED students will be determined by faculty from both program areas at the time the program of study is developed, with a minimum 16 weeks spent in the classroom.
5. A program of study for those interested in pursuing a double major must be approved in writing by faculty from each major area prior to admission to advanced study.

Subject: Re: GPS question

It would definitely be tricky but if we have cleared the other hurdles, we think we can do it. Let me know what they are thinking of doing curricularly. This shouldn't be your stumbling block.

Joanna-

Yes, you are right about the catalog. I was at a meeting with ADED and Susan Augustine where they were talking about how they wanted to put something in the catalog that specifies that students in double majors need to do all of the courses- including 2 sets of student teaching, inquiry, etc. I brought up the fact that the courses would need to be repeatable as well, but I was not sure if GPS could recognize the difference and put the course only in one spot. If so- that would be part of a bigger curriculum change. At this point- we were wondering if that is even possible from a GPS standpoint.

I know there were always challenges with what those students were required to do- clear as mud, right?

I have two questions for you before we go to what GPS can do for these students and they relate back to the catalog.

1. Are these courses "repeatable"? Are they in the course catalog that they can be taken more than once and be given credit for them each time? If they aren't, they need to be because having them in multiple places in the audit won't allow them to be taken and given credit more than once.
2. Do you have a policy in the catalog that talks about students in dual majors and multiple concentrations and which courses they will need to take? This way you are clear with students that courses like Ed Tech, etc. can be shared but stating specifically what courses CANNOT.

I think those two items need to be in the catalog first. If they are already there, then I can have Marlena look at how she could code it. I talked to her briefly about it and she thinks it is possible.

Let me know what you think!

This question has come up (slightly different, but same idea) twice now for two different program areas!

In the case of a double major or dual concentration- Is there any possible way to code GPS to differentiate between two programs that require the same course so that it holds the student to taking the same course twice???

For example- if a student is doing INSS and INLA and we want to hold them to two separate student teaching requirements, is there any way for the GPS to be coded to NOT let the first student teaching fill into both requirements? Same with Inquiry and Practicum? The same question came up with SPED if they are doing BOTH mild/moderate and moderate/intensive at the undergraduate level.

Thanks!

Subject: FW: Catalog Update Approval Notification: CCU007227: Course-ADED 43315
Term-201510

The original proposal was approved by ADED faculty on February 21, 2014. The TLC SCC approved on March 21, 2014. The proposal was presented to EHHS CCC on April 18, 2014, where it was returned because of concerns about the student teaching requirement. The proposal was amended to clarify student teaching requirements.

Subject: ADED

The ADED faculty discussed the double major issue at our May 12 meeting...the ADED faculty are in favor of double majors doing the complete list of coursework required of both licensure areas, including two separate student teachings...we are compromising with Joanne and allowing for double majors to only do one semester of student teaching.
