Proposal Summary		
Explain the purpose for this proposal:		

The current course of HM 41095-Special Topics in Hospitality Management is only offered as an upper-division course. In order to offer courses of related subjects in the Hospitality discipline that are NOT at an upper-division level, this lower division Special Topics course becomes necessary for further curriculum options for students. This also allows our equitable transfer of courses not offered by our curriculum from institutions offering related courses at the lower-division level.

Explain how this proposal affects program requirements and students in your unit:

This course will add another 'Professional elective' to this required component of the Bachelor Degree. It allows for ease of transfers to the program from accredited institutions.

Explain how this proposal affects courses, program requirements and student in other units:

Not affected

Explain how this proposal affects enrollment and staffing:

There is a possible increase in student enrollment, as transfer process is slightly simplified. Staffing is not affected.
