About the Annual Security Report

Ensuring the safety and security of students, employees and visitors to campus remains a high priority at Kent State University. Please read the important information in this bulletin to learn more about the university's policies, procedures, programs and statistics regarding safety and security, including valuable information about how to report and get help in the event safety is compromised.

The "Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act" (Clery Act) is a federal law originally enacted in 1990 amending the Higher Education Act of 1965. This law and its amendments require universities that receive federal funds to annually disseminate certain information regarding crimes that occur: on campus; on public property contiguous to campus; or on non-campus property owned or controlled by a student organization or by the university when used in support of the university's educational purposes and frequented by students. The data in this report was compiled by Kent State's Department of Public Safety, in collaboration with the Office of General Counsel, Compliance & Risk Management and several other university departments. The city of Kent, Ohio, police department also was consulted regarding crime statistics, as well as other police departments representing jurisdictions that encompass Kent State remote locations.

Kent State continues to be one of the nation's safest college campuses when compared to others with similar populations and geographic areas. Kent State Police Services was the first university police department in Ohio accredited by the Commission on Accreditation for Law Enforcement Agencies Inc. (CALEA), and it is the only university police department in the country to receive Flagship status by CALEA a record three times. The university is proud to be a model for innovative safety education programs, including a residential security program with a student security escort service.

This report, as well as reports specific to all of Kent State's campuses, is available online on the [Public Safety website](#). Printed copies of this report also can be obtained from the Kent State University Police Department, Stockdale Safety Building, 530 E. Summit. St., Kent, Ohio, 44242.

Students, faculty, staff, and the campus community are encouraged to report all crimes and public safety related incidents to Kent State University Police Services in a timely manner. In some cases, one may be *required* to make such a report, even if the victim of the crime is unwilling or unable to make a report themselves (see the following section regarding confidential or anonymous reporting). Criminal activity or any other emergency may be reported 24 hours a day, seven days a week via the university's 911 emergency phone system, which provides a direct connection to the university police. Dialing 9-1-1 is also the quickest way to access emergency fire and medical services provided by the Kent City Fire Department and Rescue Squad. The police department employs a text telephone (TTY) to communicate with individuals with hearing or

speech impairments. In addition to the all-purpose 911 emergency number, students and employees may contact university police about non-emergency matters requiring police assistance at 330-672-2212. Kent State University Police Services has also established a violence prevention Threatline phone number and website. The Threatline does not replace 911 in the case of an immediate emergency, and is not meant to be a replacement for filing an official report with Kent State University Police Services. The Threatline provides additional means to communicate information about threats of violence. The phone line and website are anonymous, toll free and available at any time of day. Individuals with information about violence or threats of violence on campus are encouraged to contact Kent State Police Services at 330-672-SAFE (7233) or

<https://apps.kent.edu/KSUPD/Threatline/>.

Reportable activities include: threats of physical harm, harassment, information regarding weapons or drugs on campus, or suspicious or disruptive behavior on campus. General information, lost and found and/or records inquiries can be made by calling 330-672-3070. Outdoor campus phones, recognizable by their blue lights, can be used for emergency and non-emergency situations. Courtesy phones are located at the entrances to residence halls. Frequently used campus phone numbers are posted at each phone, including numbers for emergencies, campus security, and escort and motorist assistance.

Campus and Local Law Enforcement

Police Services employs 26 peace officers with full police authority in the state of Ohio (Ohio Revised Code Section 3345.04). They are available 24 hours a day, seven days a week. Additionally, Kent State University Police Services maintains a daily crime log and a fire log summarizing crimes and residence hall fires reported for the last 60 days, available to the public at <http://www.kent.edu/publicsafety/daily-log>. Requests for printed copies of crime or fire logs or custom logs exceeding 60 days can be made in person at Kent State University Police Services, 530 E. Summit St., Kent, Ohio, 44242, or by contacting the records division at 330-672-3070.

Through a mutual aid agreement with the city of Kent, the Kent State Police Services and Kent City Police assist each other in handling criminal and noncriminal incidents. Kent City Police have jurisdiction over fraternity and sorority houses formally recognized by the university. Other state, county and city agencies have concurrent jurisdiction on properties within their geographic areas that are owned or leased by the university. In September 2012, Kent State University entered into a mutual aid agreement with the city of Kent, Ohio for emergency police services and joint police patrol authority. As a result of that

agreement, University police officers have authority to enforce the laws of Ohio, as well as municipal ordinances, while patrolling certain areas near the campus in the city of Kent. In March 2016, the University entered into a Memorandum of Understanding (MOU) with the City of Kent Police Department and Townhall II, a community rape crisis center in the city of Kent. The MOU formalizes the commitment of the parties to work together to provide prevention and awareness education around sexual violence and trauma-informed support to victims of sexual assault, intimate partner violence and stalking, and to improve the overall response to sexual violence at Kent State University and within the greater Kent community. The parties share the goal of preventing sexual violence on the Kent Campus and in the community, and responding appropriately to those who have been victimized.

Office of Student Conduct

The goal of the Office of Student Conduct is to provide an atmosphere of safety and security for the university. Outlined in the Code of Student Conduct are policies and procedural guidelines that allow students, faculty, staff and visitors to feel safe and secure in their person and property while on campus. Such policies afford individuals a living and learning environment that is free from persecution and the threat of physical harm. Violations of the Code of Student Conduct may be reported directly to the Office of Student Conduct. The office provides due process hearings of alleged violations of such policies before independent adjudicators. The Office of Student Conduct will, upon written request, disclose to the alleged victim of a crime of violence, the results of any disciplinary hearing conducted by the university against a student who is the alleged perpetrator of the crime or offense. If the alleged victim is deceased as a result of the crime or offense, the results of the disciplinary hearing may be provided to the victim's next of kin, if so requested. If the crime is sexual assault, dating

violence, domestic violence, or stalking, as discussed below, the results will be shared with the alleged victim without the need to make a request.

Confidential or

Anonymous Reporting

The Threatline, described above, is a mechanism for reporting incidents anonymously. For confidential reporting, reports made to a university employee whose official responsibilities include providing psychological counseling may be kept confidential when the employee is functioning within the scope of their license or certification as a counselor (Counselors are, however, encouraged to provide information regarding reporting options and support resources). The university cannot promise that any other reports of crimes will remain confidential. The University's Administrative policy 5-16.1 requires all employees to notify police and the Title IX Coordinator of any gender/sexual harassment, sexual assault, dating violence, domestic violence, or stalking they are made aware of. Additionally, many employees are considered Campus Security Authorities under the Clery Act. A Campus Security Authority is any employee with significant responsibility for student and campus activities. These employees are expected to disclose to Kent State Police any Clery-reportable offenses brought to their attention. Furthermore, the Ohio Revised Code Section 2921.22 requires the reporting of all felonies to law enforcement.

Emergency Response, Notification, and Evacuation Procedures, and Timely Warnings

The goal of Kent State's emergency plans and procedures is to maximize human safety, minimize danger, preserve and protect property and critical infrastructure, and provide for responsible communications with the university community and the public during and after an emergency with the intent to restore normal activities. An emergency is any event or condition that presents: an imminent risk of death, serious injury or illness to the university community; suspension or significant disruption of university operations; significant physical or environmental damage; or significant threat to the university's financial well-being. Rather than establishing rigid parameters for qualifying an event as an emergency, this definition is intended to emphasize the actual and potential catastrophic effect, and the imminent threat and seriousness inherent to emergencies. Other events may produce crises or harmful effects, but an emergency is distinguished by the severity of the threat and its effects, as well as the ongoing threat posed to the university community. The university notifies students, faculty, staff and the public concerning all emergencies, as well as other conditions, that present a potential threat to the public. This notification is communicated through various media and is made as soon as sufficient reliable information becomes available. The university strives to ensure that emergency notification is made responsibly and accurately, however, notification will not be delayed on this account unless notification would compromise efforts to assist victims or otherwise mitigate the emergency.

Emergency assistance should always be sought first by immediately dialing 9-1-1 from any campus phone to permit proper and immediate notification to be initiated.

Once an initial and credible report has been received, notification will be made by available methods such as word-of-mouth, public address systems or other electronic means. Those notified shall include students, faculty, staff, and visitors located on campus at the time of the emergency, and those who may be en route to the campus, if possible. The University Communications & Marketing will be responsible for the dissemination of emergency information, when warranted, to the larger community using its existing methods for announcing and disseminating information to the general public. If evacuation procedures need to be initiated, protocols found in the Evacuation Annex of the Emergency Management Plan will be followed. The Emergency Management Plan is available at: <https://www.kent.edu/publicsafety/kent-state-emergency-management-plan-2020>.

Emergency Response Team

The Kent Campus Emergency Response Team (ERT) consists of both administration and staff members with responsibilities involving the four phases of emergency management (Mitigation, Preparedness, Response and Recovery). The ERT is a key factor in formulating and leading the campus response to an emergency. In the event of an emergency, ERT members assess the situation and follow the procedures outlined in the Emergency Response Plan. Procedures are reviewed annually and a test that includes campus evacuation is conducted at least once a year by the ERT.

On November 2, 2022, an announced tabletop exercise was conducted from 9-11 a.m., by Kent State Public Safety for the Executive Policy Group (EPG). The exercise scenario was a campus wide response to an active shooter incident, and discussed areas such as public warning, relocation, and recovery aspects following a large-scale incident. Following the exercise, Kent State Public

Safety conducted an after action, and published a report highlighting strengths and areas of opportunity related to the exercise response.

Timely Warnings

The university is also required to issue “timely warnings” when a crime is reported and considered a serious or continuing threat to the campus community. Police Services is responsible for determining when a timely warning should be issued and disseminates information regarding any crimes considered to represent a serious or continuing threat to anyone in the university community.

In order to expedite the decision-making process and ensure timely notification, Police Services initiates emergency notifications and timely warnings. Police Services can receive, assess, develop content, and initiate notification from its 24-hour professionally staffed communication center. University Communications and Marketing, in collaboration with Police Services, facilitates other forms of notification and may assist in developing the content of the notifications. The emergency response and evacuation procedures are tested annually in conjunction with a campus wide test of the University Mass Notification System. Also, bi-monthly tests of the tornado sirens are conducted. The Emergency Response Team periodically reviews, evaluates and revises the response and evacuation procedures. Emergency Response procedures will be publicized annually during tornado and fire safety education events using e-mail and mass media coordinated by University Communications and Marketing.

Public notification of emergencies, timely warnings and other conditions that present an ongoing threat to the university community is made through one or more of the following media:

- Facility public address systems.
- Flash ALERTS is Kent State's official emergency text notification system to alert students, faculty and staff of critical information no matter what time it is or where they are in the world. Sign up for this service at www.kent.edu/flashalerts
- Monitors and/or Bulletin Boards.
- Mass emails.
- Press releases, advisories and/or official statements to media.
- Interviews with newspapers, TV and radio stations that send reporters to campus.
- Updates on the Info 3000 message line (330-672-3000).
- Website posts to the university's home page (www.kent.edu) and advisory page (www.kent.edu/advisory).
- Multiple social media platforms, including Facebook and Twitter

Security of Campus Facilities

Access to Campus Buildings

Residence Halls: All student living areas are locked 24 hours a day. Only residents of a particular hall and authorized personnel have building entrance keys. Nonresident guests must be escorted at all times, and each residence hall room door is equipped with a security viewer (peep hole).

The residence hall system has four area desks. All desks are open 8 a.m. to 10 p.m., seven days a week. Students and staff living in any of Kent State's 24 residence halls may report criminal activity, emergencies or safety concerns to the safety and security staff, desk attendant (DA) staff, Resident Assistant (RA) staff or police. Kent State's Safety Assistant program is nationally recognized for excellence and for its status as the only program of its kind that is staffed by student leaders, and recently won NASPA's Gold Excellence Award for the 2021-2022 academic year. Safety Assistants receive more than 100 hours of training, learning fire prevention, emergency procedures, conflict resolution, de-escalation, strategies to promote mental wellness, and more. Safety Assistants and Senior Safety

Assistants are in contact with University Police Services via cell phones. Safety Assistants complete escorts and complete rounds in the residence halls in the evenings. While on rounds, Safety Assistants inspect fire safety equipment, secure exterior entrances, enforce residence hall policies, and assist residents with any questions they may have. The presence of Safety Assistants provides safety and security on a proactive basis as well as assistance in emergency situations. The most widely used service offered by the Office of Safety & Security is the escort service. Students can call 330-672-7004 to request an escort to/from any location on campus between 12 p.m.-4 a.m., seven nights a week during fall and spring semesters. To request an escort, students just need to call 330-672-7004. Other services provided by the Office of Safety & Security include bike registration, lost and found, and safety-related residence hall programming. Security, Maintenance, and Access to Other Campus Buildings: Academic buildings are closed from 11 p.m.-7 a.m. Monday through Friday and on the weekends unless requested otherwise by a building curator. All grounds are inspected regularly. Monthly inspections by the university

Fire Safety Services ensure that all fire equipment and exit lights are functional. Each student and employee has a university photo identification FLASHcard that may be requested to identify authorization for access.

Crime Prevention and Awareness Programs

Kent State University Police Services is committed to offering a wide range of comprehensive, proactive programs and procedures that anticipate, recognize and appraise crime risks and initiate actions to remove or reduce crime risks. Students, faculty and staff are encouraged to take an active role in becoming educated about crime prevention and safety. If a crime pattern or other situation develops that presents a serious threat to the campus, the Director of Public Safety promptly informs the university community so that it may exercise appropriate measures to prevent a similar occurrence(s). Timely reports are released to local news media as well as through internal publications. Additionally, the university offers a number of security and crime prevention and awareness programs to the university community, including:

- A full-time Community Resource Officer who coordinates presentations on general campus crime prevention, distracted driving, general personal safety and other timely topics.

Risk Reduction Strategies

- Lock your car when parking in a campus lot. Do not leave valuables in plain view in your console or on the seat, i.e. cell phones, loose change, purses, books or anything of value.
- If you live on campus, lock your room, even if you are just going down the hall.
- Don't leave books, purses, laptop computers or book bags unattended in public places including the library, bookstore, the gym, study lounges and computer labs.
- Mark your books so you are able to identify them if they are stolen.
- Be alert to your environment at all times. Always know where you are and where you could go for help if you were to need it. Stay in areas that are well lit and populated. Consider varying your routine, particularly when walking to your car, and avoid putting both headphones in your ears. This will allow you to be more aware of your surroundings, especially if you are walking alone.
- After evening classes, walk in pairs to your cars; if you cannot find a friend, contact campus security for an escort.
- Don't hesitate to report unusual behavior to Campus Security and notify the appropriate personnel if there is any breach of security around campus.
- Don't rely on rumors. Check legitimate news sources for correct information.
- When you go to a social gathering, go with a group of friends, check in with each other throughout the night, and leave together. Don't be afraid to let your friend know you're worried about their safety.
- Know what and how much you are drinking. If you choose to drink, be sure you watch it being poured and keep it with you. Avoid taking drinks from large punch bowls or other open containers where you don't know what was mixed in or how much.
- Carry your cell and some cash. Before you leave your housing, make sure you have your phone and that it is charged. Also, it is important to carry some cash in case you need cab/bus fare or gas for your car.
- Trust your gut. If you feel unsafe or uneasy in a situation, trust your instincts.

Policies and Programming Regarding Sexual Assault, Dating Violence, Domestic Violence, and Stalking

Kent State University Policies, Title IX, and VAWA

Title IX of the Education Amendments of 1972 (Title IX) prohibits discrimination on the basis of gender in education programs or activities operated by recipients of federal financial assistance, such as Kent State University. Sexual harassment, which includes sexual assault, is a form of gender discrimination and can limit a student's ability to participate in, or benefit from, the university's programs. Administrative policy 5-16.2 reflects Title IX, and strictly prohibits unlawful discrimination and harassment on the basis of gender.

The Violence Against Women Reauthorization Act of 2013 (VAWA) amended the Clery Act to require campus programs regarding prevention, awareness, and response to reports of dating violence, domestic violence, sexual assault, and

stalking. VAWA also requires reporting of crime statistics for those offenses, which are also prohibited by university policy.

The university's policies regarding prohibition of sexual harassment including sexual assault, domestic violence, dating violence, and stalking, as well as procedures for filing and investigating complaints of such offenses, can be found in Chapter 5, at 5-16, 5-16.1 and 5-16.2 of the [KSU Policy Register](#).

The Code of Student Conduct is also a useful resource, as it contains information regarding prohibited student conduct, the student conduct adjudication process and the rights of students (including the rights of victims of sexual assault, domestic violence, dating violence, and stalking). It can be found on the [Office of Student Conduct website](#).

University Reporting, Investigation, and Disciplinary Resources:

Title IX Coordinator: The Title IX Coordinator is responsible for coordinating the university's response to allegations of sexual harassment, sexual assault, domestic violence, dating violence, and stalking from students, staff, and visitors to campus. This includes taking prompt, impartial

and effective action to stop any harassment or violence, prevent its occurrence, and remedy its effects. The Title IX Coordinator has appointed Deputy Title IX Coordinators, who are responsible for investigating reports. As part of an investigation, remedial measures may be available to help stop any alleged harassment and ameliorate its effects. Possible remedial measures can include, but are not limited to, changes in: academic schedule, room assignment, transportation, working situations, and issuing “No Contact Orders,” if requested and appropriate. These measures are available regardless of whether the victim reports the crime to law enforcement. All allegations of sexual harassment, sexual assault, domestic violence, dating violence, and stalking will be investigated to the extent consented to by the complainant. If the accused party is a student, a student conduct hearing may be held to determine whether policy 5-16.2 was violated and set appropriate sanctions (see next paragraph). If the accused is an employee, the decision-maker overseeing the Title IX hearing will use a preponderance of the evidence standard to determine whether the policy was violated and recommend appropriate sanctions. If the accused is a visitor to campus, a hearing may be held in accordance with the Persona Non Grata policy, 5-12.7. The full procedure for reporting and investigating sexual harassment, sexual assault, domestic violence, dating violence, and stalking is in the University Policy Register at 5-16.2.

To report these offenses, contact:
 Richantae Johnson, Interim Director, Gender Equity & Title IX Coordinator
 250 Kent Student Center, Phone: 330-672-7535,
 Email: titleix@kent.edu, Website:
<https://www.kent.edu/studentaffairs/genderequity-titleix>

Office of Student Conduct: Alleged violations involving Kent State University students, employees, and visitors to campus must be

reported to the Title IX Coordinator for investigation and may result in a conduct hearing before the university’s Office of Student Conduct if the accused person is a student. The accuser and accused are entitled to have an advisor of their choice present during a disciplinary proceeding, as well as accommodations such as the option to participate via electronic means. A representative from the Office of Gender Equity & Title IX will be present at the hearing to share any pertinent information from the investigation with the hearing panel. The hearing panel will use a preponderance of the evidence standard in making its determination (i.e. it is more likely than not that the offense occurred, based on the evidence presented). Hearing panel members, the Title IX Coordinator and Deputies, and officials involved in investigating and administering these procedures are trained annually on these issues, as well as how to conduct an investigation or hearing process that protects the safety of victims and promotes accountability. Both parties will be informed, in writing, of the outcome of the proceeding and appeal options, and will be notified if the other party appeals and if there is a change in results or final outcome. Possible sanctions following the hearing include, but are not limited to, disciplinary probation, suspension and dismissal.

Student Conduct Office - 119 Twin Towers
 (Beall/McDowell); Phone: 330-672-4054,
 Email: studentconduct@kent.edu,

Confidentiality: The university will keep all information pertaining to an investigation as confidential as possible. If the complainant requests that their information not be shared with the accused, the university will honor such a request in so far as is compliant with the law. However, such a request may limit the extent to which the university is able to investigate and respond to the complaint. If the complainant

wishes to file a formal complaint with the university, the complainant's name and any written statements submitted will be disclosed to the accused. If the university determines that the safety of the community is at risk, certain confidential information may need to be shared in order to protect the university community. All university employees, with the exception of licensed counselors and medical personnel, are required to report to the Title IX Coordinator any sexual assault, domestic violence, dating violence, and stalking they are aware of involving the university community. Ohio law also requires that all felonies be reported to the police.

FERPA and Ohio Public Records Law: Ohio Revised Code Section 149.011 defines a public record as "any document, device, or item, regardless of physical form or characteristic... created or received by or coming under the jurisdiction of any public office of the state... which serves to document the organization, functions, policies, decisions, procedures, operations, or other activities of the office." ORC 149.43 further requires that "upon request, a public office or person responsible for public records shall make copies of the requested public record available at cost and within a reasonable period of time." Many of the records kept by the university meet this definition, including many student conduct records. However, the Family Educational Rights and Privacy Act (FERPA, 20 USC §1232g) prohibits the release of educational records without the permission of the student, subject to several statutory exceptions. An exception exists for releasing the results of a student conduct hearing regarding a violation that could be considered a crime of violence or non-forcible sex offense. The university may release the final results of the conduct process to the victim of the alleged action without permission from the accused student, and regardless of the outcome of the process. If the accused student is found responsible for a policy violation that may also be considered a crime of violence or non-

forcible sex offense, the university can release the final results of the conduct process to anyone who requests it. The information released may only include the name of the student found in violation, the policy violated, and the sanction imposed.

Bystander Intervention:

The Green Dot Strategy is a bystander approach for the prevention of power-based personal violence that relies on the power of cultural and peer influence. The strategy engages everyone in the community as agents of change to visibly reduce the number of incidents of violence. There are two main components to the approach: a skills-based workshop, and a social marketing campaign. The one-day workshop engages participants through awareness, education and skill practice that seek to establish intolerance of violence as a norm and intervene in high risk situations, resulting in an ultimate reduction of violence. The goal is to equip participants with lots of options for bystander action from directly intervening, to distracting those involved as well as delegating to get help from someone else or the police all in an effort to increase action in the community. By doing so, new norms are introduced that move individuals from passive agreement that violence is wrong, to active intervention. Visit www.kent.edu/greendot for more information, and to register for Green Dot training.

Fire Drills and Evacuation Procedures

Kent State University plans and supervises one fire drill per semester in each on-campus student housing building. On occasion, more will be conducted in the event of a problem or at the request of the Residence Hall Director. Additionally, the Child Development Center has one fire drill per month, and DeWeese Health Center has two drills per year. The regional campus buildings conduct one per semester as well.

Fire Alarms provide an audible voice command to evacuate or shelter-in-place, depending on the nature of the emergency. Fire evacuation procedures include:

- Remain calm
- Walk to the nearest safe exit
- Close doors to contain the fire
- Activate the building fire alarm if necessary
- Do not use the elevator
- Call 9-1-1 emergency and provide the location of the fire
- Do not re-enter a burning building
- Distance yourself from the building for personal safety and to allow first responders access
- Report to the designated meeting place for Residence Hall evacuations

Policies for Fire Safety Education and Training Programs for Students, Faculty and Staff

Kent State University's Fire Safety Services Unit conducted 18 fire safety/extinguisher use classes for faculty, staff and students throughout the year. That number includes four train-the-trainer programs for hallway staff. Residential Safety Assistants receive fire safety training, which includes use of fire extinguishers, evacuation measures and fire response procedures. The department of Dining Services receives fire watch training. Faculty and staff receive fire safety education every September. For more information about training offered, or to schedule a training session, visit the [Fire Safety Services website](#).

Smoking, Open Flames and Portable Electric Appliances

Smoking is prohibited in all the buildings of Kent State. The possession of or use of candles, incense, lanterns or other open flame devices is prohibited in the residence halls. Appliances are defined as any electric device with primary purpose of cooking, preparing food, preserving food or generating heat. A comprehensive list is available in the [Hallways Handbook](#).

Appliances that are not permitted in the Residence Halls include:

- Devices with open heating elements
- Toaster ovens
- Freezers
- Lava lamps
- Indoor grills similar to the George Foreman brand

Residence Hall Fire Alarm Systems

When activated, the fire alarm system in the building causes horns to sound continuously throughout the building. Signals are also transmitted to Kent State University Police Services, who will then notify the City of Kent Fire Department. Fire alarm pull stations are activated by completely pulling down the lever located at the lower half of the fire alarm station cover. Fire alarm pull stations are located near the exits. Depending upon the fire protection system installed in a specific building, fire alarms could also be automatically tripped by actuation of smoke or heat detectors or by the release of sprinkler systems.
