REQUEST AND RECOMMENDATION

**Kent State University
Multi-Age Health License**

Request:

Kent State University requests approval to offer a baccalaureate level program leading to the Ohio Multi-Age Health License.

Profile:

Kent State University is a public university. The university was founded in 1910 with a specific mission to discover, create, apply and share knowledge, as well as to foster ethical and humanitarian values in the service of Ohio and the global community. Located in Kent, Ohio, the university has an enrollment of more than 22,000 undergraduate students and 5,500 graduate students.

Accreditation/Authorization:

Kent State University is accredited by the Higher Learning Commission (HLC) until its next scheduled review in 2022. Kent State University's educator preparation programs are accredited by National Council for Accreditation of Teacher Education (NCATE) until the next review in 2023.

Background:

Kent State University is submitting its Limited State Review request to ensure program alignment with Ohio standards and requirements. The program currently holds Specialized Professional Association (SPA) national recognition without conditions, which is a pre-requisite to Limited State Review. Programs leading to the Multi-Age Health License are valid for teaching students in prekindergarten through grade 12. Kent State University offers the program leading to the Multi-Age Health License at the baccalaureate level.

Recommendation:

Kent State University's Multi-Age Health License preparation program meets the Chancellor's requirements for program approval and the State Board of Education's minimum standards for baccalaureate level programs leading to the Multi-Age Health License. Approval is recommended for Kent State University's baccalaureate level program leading to the Multi-Age Health License until the spring 2024 review cycle. It should be noted that the program is subject to periodic review by the Chancellor to ensure that the standards for Ohio licensure continue to be met.

Over the past three reporting years, fewer than ten candidates have completed the program. Due to the small number of completers in the program, the Ohio Educator Preparation Program Performance Reports could not be considered in the review process to determine acceptable or unacceptable ranges.
