

AS & A LEVELS INTERNATIONAL EDUCATION PROGRAMME

Listed below is a summary of current credit awarded by Kent State University for satisfactory performance on AS and A Level exams taken by students in high school through the Cambridge International AS & A Level Programme*.

Kent State University must have an official copy of your score report before credit can be awarded. (Notation on the high school transcript will not suffice.) After reviewing this chart, if you believe that you have earned college credit through an AS or A Level exam, send an official score report to the Admitting office for your campus. AS/A Level credit is evaluated by the Office of Global Education and then processed for all Kent State University campuses by the Credit Transfer Office in the Schwartz Center Building, room 204 (330-672-8950). For more information on sending score results, refer to the Cambridge website <https://www.cambridgeinternational.org/usa/score-results-for-students/> or the exam source where your AS/A Level scores were recorded.

More exams to be listed soon. Other exams that are still under review will be added to this crosswalk as credits are approved. Elective credits may be issued for AS and A level exams upon receipt of score reports on an individual basis.

In accordance with the Alternative Credit policy in our catalog (<http://catalog.kent.edu/academic-policies/alternative-credit>): “Kent State accepts for credit the successful completion of A-Level qualification (General Certificate of Education Advanced Level) that was administered by AQA, Edexcel or the University of Cambridge International Examinations. Students should contact the Office of Global Education for determination of grading, level of study and credit application. Official score reports must be submitted to Kent State before A-level credit can be applied to a student’s academic record.”

*AS and A Level exams will be accepted for credit from the approved sources in our Kent State University Catalog Academic Policy. This chart reflects Cambridge exam numbers and syllabi, but exams from other sources will be cross-referenced by the Office of Global Education upon evaluation of scores.

^K This indicates that the course will count towards a Kent Core area on the student’s graduation audit.
