67-68 Total Credit Hours to Graduate with the ADN Degree			

*Students with demonstrable ability and knowledge in a particular subject area may earn credit in selected courses through Credit-By-Examination (CBE). Students who wish to pursue CBE must complete the CBE application to gain appropriate college and departmental permission. The appropriate academic department administers the exam which may include the completion of additional assignments. The minimum passing standard for CBE is the equivalent of a “C” grade. However, no letter grade, only credit hours, are posted to the academic transcript for CBE. To see the courses eligible for CBE, [please visit the Credit-By-Exam website](#).

** All undergraduate students are required to satisfactorily complete the Destination Kent State: First Year Experience course at any one of Kent State’s eight campuses with the following exceptions:

1. Incoming students who are designated by Kent State admissions as adult students (21 years or older). These students are encouraged to contact the Center for Adults and Veteran Services or a Regional Campus advising office for information regarding the availability of special orientation programs for adult students.
2. Students who transfer 25 or more credit hours from another higher education institution, excluding post-secondary and dual-enrollment credit (College Credit Plus).

Full-time students are expected to complete the First Year Experience course during their first semester of enrollment. Part-time students are expected to complete the course before they attain sophomore standing (30 credit hours).

Progression Requirements: To be able to register for Nursing Technology (NRST) courses, students must be accepted to technical study. Acceptance is a selective process. Criteria for acceptance are the following:

- Minimum 2.700 overall GPA
- Minimum C grade in high school or college-level courses in algebra, biology and chemistry
- Completion of developmental coursework prescribed by placement testing

A NSRT course may be repeated one time for a total of two attempts, but the student may only apply for reentry one time to the A.A.S. degree in Nursing.
