KSU Instructor AI Survey: Perception & Use

When: Fall 2023

Who: All KSU instructors

How: Qualtrics link email

What: modified validated measures +
Wang's (2019) AI anxiety scale
Suh & Ahn's (2022) Attitudes toward AI

141 participants from all campuses

KSU Instructor AI Survey: Participant Basics

Participant Colleges

AI for Professional Use

no yes

KSU Instructor AI Perception: General

I think AI makes people's lives more convenient.

~50% agree

AI produces more good than bad.

~55% don't agree/disagree

KSU Instructor AI Perception: College

I think every student should learn about AI in college.

I think that there should be more class time devoted to AI in college.

Instructors think students should learn about AI in college but less are certain that more class time should be devoted to AI

KSU Instructor AI Fear

I am afraid that if I begin to use AI techniques/products, I will become dependent upon them and lose some of my reasoning skills.

I am afraid that if students begin to use AI techniques/products, they will become dependent upon them and lose some of my reasoning skills.

Instructors are less afraid of their use of AI than their students use...

KSU Instructor AI Anxiety

Learning to interact with an AI technique/product makes me anxious.

Being unable to keep up with the advances associated with AI techniques/products makes me anxious.

Instructors aren't very anxious about interacting/using AI but more are anxious about keeping up with the advances

KSU Instructor Current AI Use

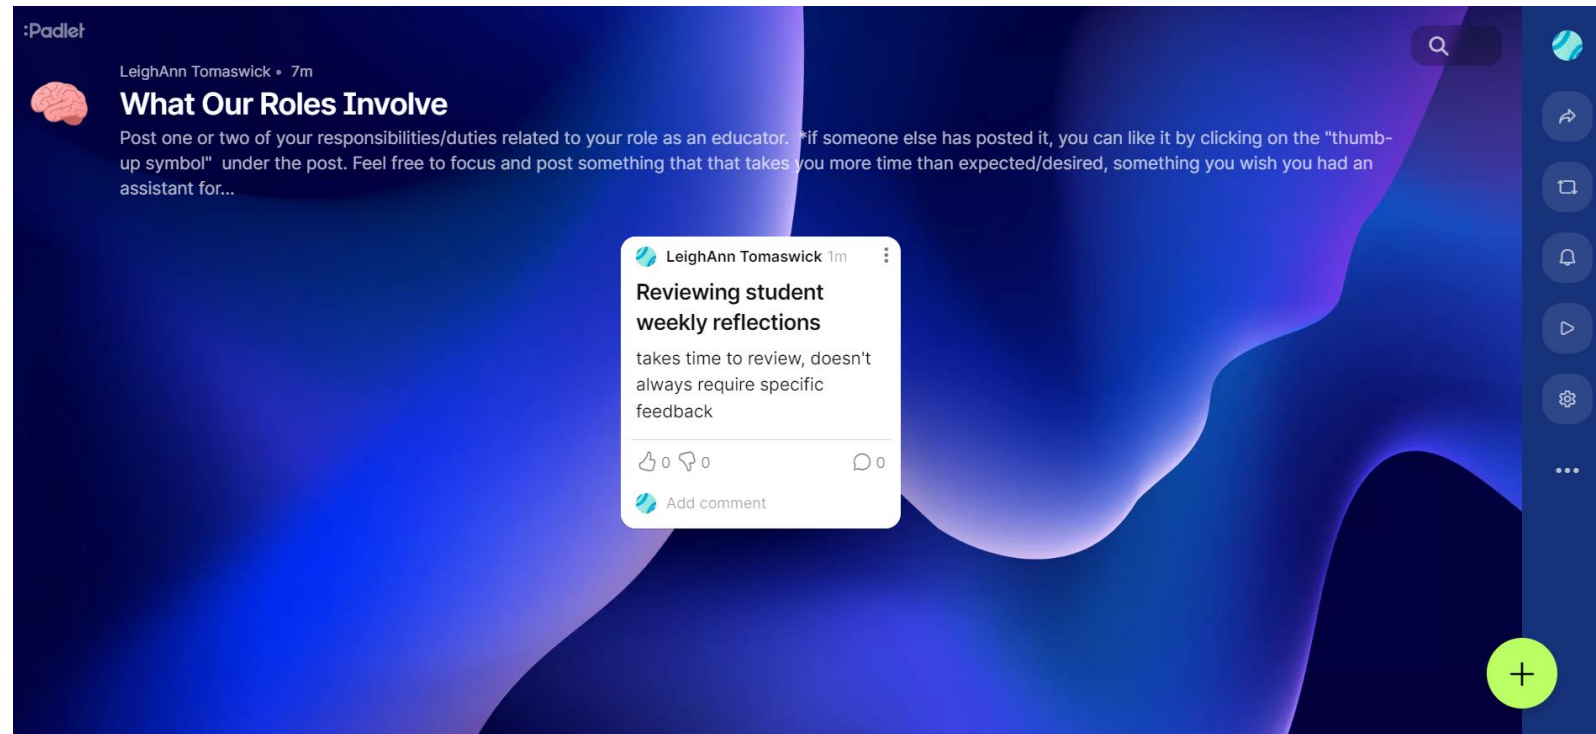

- Ethical use
- Its biased/flawed
- Creativity / learning
- Effects on society

- Not comfortable
- Not enough awareness
- Not enough time

- Create metacognitive exercises
- Simplify language
- Paraphrase data
- Write a personal bio

“I wish I had an assistant for...” Padlet Brainstorm Activity

Click  to post one or two responses to “I wish I had an assistant for _____” [insert responsibilities/duties related to your role as an educator]

How can YOU use AI in your role as an educator?

- Class planning tool
- Engagement enhancer
- Assessment assistant
- Grading buddy
- Communication companion
- Writing & research helper
- Other duties as assigned

 Case Studies

A dense collage of colorful sticky notes with various handwritten messages, drawings, and reminders. The notes are in various colors including yellow, pink, blue, green, purple, and orange. Some notes have drawings like a heart, a cloud, a lightbulb, a smiley face, and a calendar. The text on the notes includes reminders like "Meeting 9am", "Don't forget to pay tax", "Daily report", and motivational phrases like "Be happy!", "Life is short choose happiness", and "Don't be late!". There are also notes about "Work smart!", "Passion never fails!", and "Focus on concepts!". The notes are overlapping and scattered across the page, creating a busy and creative visual.

- Design active learning activities
- Creating unique scenarios / case studies / examples / arguments / mistakes to edit
- Images
- Designing presentation slides, concept maps, graphs

AI Quiz Generation- Demo

ChatGPT Prompt: You are an expert in educational assessment. I am teaching a {**course name**} course and would like you to assist me in the creation of a # question exam on {**content/ chapter titles**}. I would like # of the questions to be multiple-choice, # questions multiple response, and # questions true-false. Each question is to be worth # points. Create the questions, the possible responses, and include the correct answers for me. Take your time to create good questions and answers and remember that the goal is to test students' knowledge on these subjects, not trick them. Remember, YOU are to create all # quiz questions for me, so keep working until you have created all of them.

Assessment Assistant

- Create questions
 - Turn your PPT into text outline, then feed to AI for quiz generation
- Create problems for students to correct
- Increase or decrease difficulty of questions

AI-Assisted Rubric Creation - Demo

Basic rubric design: context, criteria & points

“You are an expert teacher and curriculum writer, skills in assessing student work. Create student facing directions and a rubric for [insert class description and level] class studying [topic]. The students are doing [assignment title], in which they [assignment description]. Format the rubric as a chart and include a 3-point scale aligning with emerging, developing, proficient.”

AI as a Grading Buddy

Rubric Modification

- Universal for Design / Flexibility

Grading using a rubric:

*“grade this assignment using this rubric and provide an overall summary of its strengths and specific steps for improvement”**

***Generate a feedback library**

Friendly reminder: FERPA

AI as a Feedback & Grading Buddy

“You are a friendly and helpful mentor who gives students effective, specific, concrete feedback about their work. In this scenario, you play the role of mentor only. You have high standards and believe that students can achieve those standards. Your role is to give feedback in a straightforward and clear way, to ask students questions that prompt them to explain the feedback and how they might act on it, & to urge students to act on the feedback as it can lead to improvement. Respond as bulleted questions”

Elements to define for the AI

- Context / tone
- Type of feedback (SWOT, positive reinforcement, points/grade)
- Length & type of feedback (short, paragraph, bulleted)

Review, edit, and send!

AI as a Communication Companion

Q: What reminders or messages to do you send to students?

- Input course schedule & design announcements for students
- Generate encouraging emails for groups of students
 - Struggling with assignments
 - Not showing up
 - Doing well

AI for YOUR Writing and Research

- Be a peer reviewer: Rephrase/rewrite/proofread
 - “Imagine yourself as a copywriter that I just hired to proofread documents”
 - “These are my ideas and things I enjoy and wonder about, develop a few research questions for me to further investigate...”
 - “What’s unclear about this? Please provide suggestions for editing to make it more clear for students.”
- Text-to-speech (website, pdfs, etc) or speech-to-text
- Preliminary scan of research (find, aggregate & summarize)
- Travel planning for conferences

Other Duties as Assigned...
