

# TAKE THE NEXT STEP

## BUILD ON YOUR CREDITS & LPN EXPERIENCE

## COMPLETE YOUR ASSOCIATE DEGREE

The Associate of Applied Science Degree in Nursing (ADN) is designed to meet the health care needs of the 21st century. The program features a specifically designed curriculum with emphasis on direct care, focusing on the registered nurse's role in the communities, hospitals, clinics, long term and specialty setting.

The College of Applied and Technical Studies conveniently offers the LPN to Nursing-ADN program at the **Ashtabula, East Liverpool, Tuscarawas and Twinsburg Academic Center** campuses, enabling you to take classes close to home.

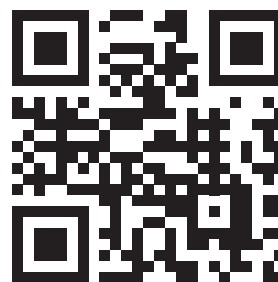

Benefits of the program include:

- ▶ No wait list for admission!
- ▶ Learn from expert nurses in classroom, laboratory and clinical settings.
- ▶ Nursing courses over three semesters
- ▶ Low regional campus tuition rates and campuses close to you.

## THE LPN TO NURSING-ADN PROGRAM IS RIGHT FOR YOU

Learn the skills needed to advance in your career. You will prepare to become a registered nurse who thinks critically and provides superior care to patients. You will learn the critical thinking skills, clinical competence, accountability and adaptability essential to being a nurse.

## LAUNCH YOUR CAREER AS A REGISTERED NURSE AND BEYOND

Students in the Associate of Applied Science Degree in Nursing (ADN) program are able to take advantage of the Kent State Regional Campus system first by taking prerequisite courses in either in-person or online formats to fit your schedule and then on to a seamless pathway to advanced degrees. Students can complete the associate degree in nursing before transitioning into the bachelor's, master's or ultimately doctoral programs – ALL THROUGH KENT STATE! The flexibility of the program allows you to continue working as an LPN while you learn. The availability of course offerings, low regional campus tuition rates and four campuses to choose from gets you to becoming a registered nurse and onto your next career path quicker!
