APPLICATION FOR ADMISSION
Fall 2020

Please complete and submit this application to the address listed below. Forms are to be submitted by March 15, 2020. The Field Experience Form should also be submitted with this application.

Admission to the Veterinary Technology Program is selective and competitive. The Admissions Committee gives priority consideration (based on a point system) to applicants having completed developmental coursework as prescribed by the ALEKS and/or Acuplacer assessments, to those who have completed related science and general studies courses, amount of field experience, and the applicant’s cumulative grade point average.

Applicants who require developmental coursework in math as prescribed by the ALEKS and/or Acuplacer assessments, will need to complete these courses prior to acceptance into the Program. Students must successfully complete the basic algebra courses through algebra II.

A minimum cumulative grade point average (GPA) of 2.5 is required for all applicants in order to apply to the program. Applications will not be considered for students not meeting the minimum GPA requirement.

Application for admission to Kent State University must be completed before the applicant can be considered for admission to the Veterinary Technology Program. All applicable high school and college transcripts must be submitted and on file.

Field Experience is REQUIRED for acceptance into the Veterinary Technology Program. You must complete 15 hours of field experience at a facility that employs a Veterinary Technician. Applicants who complete more than 40 hours of field experience will gain additional points on their application.
