

Attachment A

to the
Articulation Agreement Dated 1st day of January 2016
By and Between
Cleveland Clinic Health System – East Region d/b/a Euclid Hospital on behalf of
its Cleveland Clinic School of Diagnostic Imaging
and
Kent State University
Associate of Applied Science in Radiologic Technology

Articulation Criteria and Articulation Benefits

1. *The standard articulation criteria (“Articulation Criteria”) are:*

a. Fulfilling admission criteria for the Associate of Applied Science in Radiologic Technology

1) Applicants must complete and submit the Kent State University Application for admission and include the applicable application fee. This step is not necessary for applicants who are currently attending or have previously attended Kent State and who have not attended any other college or university since attending Kent State. Applicants who attended Kent State and then attended another school must reapply to Kent State.

2) Applicants must have graduated from high school or completed a GED course with a score above 450 (previous system: above 45) prior to program start. To pass the GED, test takers must earn a minimum standard score of 410 on each content area test and an average score of 450 or greater across the test.

3) Applicants must have a grade of “C” or better in Algebra.

Applicants who have not completed high school or university-level algebra or who did not have a grade of “C” or better in the course must complete equivalent coursework at the university level as a prerequisite.

Kent State students may complete MATH 00021: Basic Algebra I and MATH 00022: Basic Algebra II to meet the math prerequisite, but will be required to complete MATH 11009: Modeling Algebra or MATH 11010: Algebra for Calculus, before graduation.

4) Applicants must have a grade of “C” or better in Biology or Anatomy/Physiology.

Applicants who have not completed high school or university-level biology or anatomy/physiology or who did not have a grade of “C” or better in the course must complete equivalent coursework at the university level as a prerequisite.

Kent State students may complete BSCI 10001: Human Biology, to meet the biology prerequisite, but will be required to complete BSCI 11010: Foundational Anatomy and Physiology I, and BSCI 11020: Foundational Anatomy and Physiology II or BSCI 20020: Biological Structure and Function (last offered at Kent State, Summer 2016), before graduation.

5) Applicants must have a grade of “C” or better in Chemistry.

Applicants who have not completed high school or university-level chemistry or who did not have a grade of “C” or better in the course must complete equivalent coursework at the university level as a prerequisite.

Kent State students may complete CHEM 10030: Chemistry in Our World, to meet the chemistry prerequisite, but will be required to complete CHEM 10050: Fundamentals of Chemistry or CHEM 10055: Molecules of Life, before graduation.

- b. Achieving a minimum overall high school or college cumulative grade point average of 2.75.
- c. Submission of an official high school transcript, any previous college transcript, and a Cleveland Clinic School of Diagnostic Imaging transcript.
- d. Completion of the Cleveland Clinic School of Diagnostic Imaging's Radiologic Technology Core Courses. Refer to transfer courses in Appendix 1.
- e. Fulfillment of residence requirement for the associate degree at Kent State University. The requirement for the degree is completion of a minimum fifteen (15) credit hours of coursework at Kent State. Credit earned by means of transfer courses does not count toward residence.
- f. Courses for which the student is eligible to receive transfer credit will be based upon the articulation agreement in place at the time the student applies to Kent State.

2. *The articulation benefits ("Articulation Benefits") are:*

- a. Facilitate transfer of courses between the Cleveland Clinic School of Diagnostic Imaging Radiologic Technology Program, and Kent State Ashtabula, Associate of Applied Science in Radiologic Technology. Transferred courses will be posted to student's transcript after completion of each semester (See Appendix 1).
- b. Students may apply to Kent State Ashtabula prior to their acceptance at Cleveland Clinic School of Diagnostic Imaging to complete the program prerequisites and course requirements for graduation at Kent State. Students may also enroll in courses at Kent State University concurrently with the Cleveland Clinic School of Diagnostic Imaging Radiology Core Courses.
- c. Benefitting Northeast Ohio by infusing the job market with qualified graduates.
- d. A student who completes all of the associate degree requirements in the Associate of Applied Science Degree in Radiologic Technology at Kent State (Radiology Core Courses to be completed at Cleveland Clinic School of Diagnostic Imaging--See Appendix 1) will meet the requirements of the American Registry of Radiologic Technologists (ARRT). Eligibility requirements for the ARRT certification in Radiography, effective January 1, 2015, will call for candidates to have earned an associate (or more advanced) degree from an accredited agency recognized by the ARRT.
