International
Activities
Newsletter** will be
delivered to you to
keep you updated
with our international
activities, whenever.

International Presentations

CONIAG worked collaboratively with the Stark Carroll District Nurses Program on a forum held in Canton in September as facilitated by Prof. Smith. KSU presenters were Dr. Drew and three international students: Aaron Banda (Zambia), Jehad Rababah (Jordan), & Wanchana Saichai (Thailand), each of whom spoke about health care in his/her respective country. The program was well received.

Pizza Party

GREAT to meet everyone and see the enthusiasm in the room!

Our Fall Pizza Party took place in September. We had a great turnout. Thanks to all families, staff, and faculty who could come to support our international students. Special thanks to Dean Dzurec--our big sponsor for the event. Also, a big thank you to Debby, our lady behind the scene. The comments in each bubble (above and below) were made by the individual after the party.

A great time to visit, have fun
and meet new folks.

I appreciate everyone at the pizza party. It was a great experience for me and everyone.

There is nothing warmer than feeling so welcomed in a place away from home to an extent that you are made to feel like you are actually in your home.

It was a nice to meet the others and know about them as friends, as the proverb "To have a good friend is one of the highest delights of life."

Prize Drawing Time!!!

Thank you for holding such a great event for us. It's good to see many students from other countries. It's good to be there and share our great experiences at Kent. I made friends and we will help each other study.

It was very fun at the pizza party. I had an opportunity to meet my classmates, faculty, and staff face to face, make new friends, and understand the American culture. Moreover, at the event, new international students learned about valuable nursing web sites. Thank you for inviting and see you in the spring party.

The party was very nice and helpful. Feeling the warmth and affection, like with your family.

It was great to meet everyone. It is really nice to socialize face to face with other students...especially in these days of on-line learning. I love the way everyone is so willing to help each other.

It certainly was a great pleasure to meet other international students as well as domestic students, staff and faculty and share about own self and home. As an international student, I am grateful to you for the welcoming and care I sense. I am in deed proud to be part of you.

Everyone please make sure that you come to the Spring Pizza Party on Monday, January 23. There will be more prizes and fun!!!
