THE 11th ANNUAL SOUTHEAST NATIONAL CONFERENCE

PROGRAM

November 21-24, 2019
Walt Disney World - Swan Hotel
Orlando, FL

Thank you to our Presenting Sponsor!

Thank you to our Summa Cum Laude Sponsor!

A Florida CME License Renewal Compliant Continuing Podiatric Medical Education Conference
Kent State University College of Podiatric Medicine is approved by the Council on Podiatric Medical Education as a provider of Continuing Education in Podiatric Medicine. Kent State University College of Podiatric Medicine has approved this activity for a maximum of 25.5 CECH.
WELCOME!

The Kent State University College of Podiatric Medicine (KSUCPM) is happy to welcome all registrants to the Walt Disney World Swan Hotel for the 11th Annual Southeast National Conference!

Registration opens at 6:15am on Thursday, November 21st and is located in the Swan Meeting Room Foyer. Scanning stations are located in the Exhibit Hall *subject to change

The scanning schedule is as follows:

**Thursday:** One Morning Scan, One Afternoon Scan
**Friday:** One Morning Scan, One Afternoon Scan
*Separate Friday afternoon PICA sign-in located in the lecture hall
**Saturday:** One Morning Scan, One Afternoon Scan, One Florida DPM ONLY Afternoon Scan

Thank you for your support of the Kent State University College of Podiatric Medicine 11th Annual Southeast National Conference!

Kristin Farris
Manager, Continuing Education Programs
Kent State University College of Podiatric Medicine

KSUCPM Education Mission Statement: The mission of the Kent State University College of Podiatric Medicine Continuing Education program is to excel in and contribute to medical and health care education by providing comprehensive, innovative, educational, and cost-effective Continuing Education programs that serve the podiatric community. We aspire to be a leader in Continuing Education for the podiatric profession and offer various educational formats with large lectures and small classroom workshops that create "hands-on" training and demonstration. We educate podiatrists with the latest technology, surgical and pragmatic methods, and insight where knowledge is applied into everyday podiatric practices.

Disclosure: Each speaker is requested to disclose any financial or other relationships they might have with a manufacturer of any commercial product to be discussed during their presentation as well as any commercial contribution of the activity. All speakers and continuing education providers are required to provide disclosure and written agreement within CPME 720 guidelines. KSUCPM is approved by the Council of Podiatric Medical Education as a provider of continuing education. Sponsors of the Continuing Education Conference did not support any CME related activities unless otherwise stated. Any commercial supporter of a CME related activity has completed a commercial support agreement and agrees to abide by all requirements of the CPME Standards for Commercial Support of Continuing Podiatric Medical Education. • Intended Audience: Podiatric physicians, residents

Discrimination Policy: Kent State University College of Podiatric Medicine does not discriminate on the basis of race, color, handicap, creed, religion, ethnic origin, or sex, in its employment and its admissions and educations programs, in accordance with Titles VI and VII of the Civil Rights Act of 1964, as amended, and the Title IX of the Educational Amendments Act of 1972; nor does it discriminate against qualified handicapped persons in its employment, admissions and education programs and activities in compliance with the Rehabilitation Act of 1973, as amended; nor does it discriminate on the basis of age in compliance with the Age Discrimination Act of 1967, as amended. Relative to CE, the College supports CE activities that also comply with federal and state statutes for access. Site inspection confirming such access is assured by visual inspection of the premises in which learning activities are conducted. Please notify our staff if you require special accommodation for training or attendance.

Please Note Start Time! Registration Starts at 6:15 a.m.
Tentative Schedule, Subject to Change
Saturday, November 23, 2019

ALL LICENSED DPMs
AM Scan: 3.0 Category 1 CECH
PM Scan: 2.0 Category 1 CECH
Total Day CME Credits: 5.0 Category I CECH

*FLORIDA LICENSED DPMs
AM Scan: 3.0 Category 1 CECH
  - HIV Update: (1) Medical Errors: (2)
PM Scan: 2.0 Category 1 CECH
PM (2) Scan: 1.0 Category 1 CECH
  - Florida State Rules and Regulations (1)
Total Day CME Credits:
  6.0 Category 1 CECH
*Total Day: (6) CECH includes the following Florida License Requirements:
*HIV Update: (1) Medical Errors (2)
Florida State Rules and Regulations (1)

Sunday, November 24, 2019

Total Day CME Credits: 4.0 Category 1 CECH
(*Includes the Following Florida License Requirement)

*Florida Licensed DPM - Risk Management Requirement: (1)

Sunday Morning - Update Risk / Risk Management Smorgasboard
• SPECT/CT in Postoperative Foot and Ankle Pain - Larry Osher, DPM
• Elective Surgery in the Diabetic Patient - Mark Hardy, DPM
• Imaging of Fracture Union - Larry Osher, DPM
• Challenging Case Presentations/Panel/Question and Answer - Faculty
• Mini Symposium - Radiographic Imaging of Bone Tumors - Larry Osher, DPM
  - The Basics
  - The Cartilaginous Lesions
  - Miscellaneous Lesions
  - Nuances of the Pedal Bone Tumors
SPEAKERS

David Aronoff, MD
- MD, Tufts University, Boston, MA
- Director, Division of Infectious Diseases, Department of Medicine, Vanderbilt University
- Faculty Member, Department of Pathology, Microbiology & Immunology, Vanderbilt University
- Faculty Member, Center for Medicine, Health and Society, Meharry Medical College

Financial interest or affiliation with the following organization(s)
- Grant Research Support - Pfizer, NIH, March of Dimes
- Consultant - NAEJ A-RGM, BLC, Biocidium, Sanofi-Pasteur, Synthetic Biologics

Jacalyn Brace, PhD, CWOCN, CNP
- MD, Loyola University Chicago Stritch School of Medicine
- Interventional Cardiologist and Peripheral Vascular Specialist, Department of Interventional Cardiology & Vascular Medicine, Cleveland Clinic
- Registered Physician in Vascular Interpretation
- Financial interest or affiliation with the following organization(s)
  - No actual or potential conflict of interest in relation to my presentation(s)

Joseph Campbell, MD
- Doctorate, Podiatric Medicine, Kent State University College of Podiatric Medicine, Independence, OH
- Doctorate of Medicine, International University of Health Sciences School of Medicine, Basseterre Saint Kitts and Nevis
- Director of Clinical Education and Clinic Operations, Cleveland Foot & Ankle Clinic
- Assistant Dean and Professor in the Division of Podiatric Medicine, Kent State University College of Podiatric Medicine
- Diplomate, American Board of Podiatric Medicine
- Financial interest or affiliation with the following organization(s)
  - No actual or potential conflict of interest in relation to my presentation(s)

James Connors, DPM
- Doctorate, Podiatric Medicine, Kent State University College of Podiatric Medicine
- Adjunct Professor, Kent State University College of Podiatric Medicine
- Director, Wound Care Program, Cleveland Foot & Ankle Clinic
- Director, Wound Care Services for Cleveland Regency Hospitals
- Medical Director, University Hospitals Ahuja Wound Care Center
- Financial interest or affiliation with the following organization(s)
  - No actual or potential conflict of interest in relation to my presentation(s)

Norris Cunningham, Esq.
- Indiana University Robert H. McKinney School of Law, J.D. - 1996
- Specialty, healthcare dispute resolution including trial practice, regulatory advocacy, and arbitration
- Co-founding partner of Katz Korin Cunningham, P.C., and leads the firm's healthcare practice, Indianapolis, IN
- Financial interest or affiliation with the following organization(s)
  - No actual or potential conflict of interest in relation to my presentation(s)

Duane Ehredt, DPM, FACFAS
- Doctorate, Podiatric Medicine, Kent State University College of Podiatric Medicine, Independence, OH
- Assistant Professor, Division of Foot & Ankle Surgery and Biomechanics, Kent State University College of Podiatric Medicine
- Fellow, American College of Foot & Ankle Surgeons
- Residency, Podiatric Medicine and Surgery, St. Vincent Charity Medical Center, Cleveland, OH
- Financial interest or affiliation with the following organization(s)
  - No actual or potential conflict of interest in relation to my presentation(s)

Dennis R. Frisch, DPM
- Doctorate, Podiatric Medicine, Dr. William Scholl College of Podiatric Medicine
- Board Certified, American Board of Foot and Ankle Surgery
- Residency, Franklin Boulevard Community Hospital, Chicago, IL
- Board Certified Podiatrist and Foot and Ankle Surgeon, Boca Raton Podiatry, Boca Raton, FL
- Financial interest or affiliation with the following organization(s)
  - No actual or potential conflict of interest in relation to my presentation(s)

Mark Hardy, DPM
- Doctorate, Podiatric Medicine, Kent State University College of Podiatric Medicine, Independence, OH
- Scientific Co-Chair, 2018 Southeast National Conference
- Division Head, Division of Foot & Ankle Surgery and Biomechanics, Kent State University College of Podiatric Medicine
- Fellow, American College of Foot & Ankle Surgeons
- Director, Northern Ohio Foot & Ankle Foundation
- Residency Director, Mercy Health Foot & Ankle Residency
- Financial interest or affiliation with the following organization(s)
  - No actual or potential conflict of interest in relation to my presentation(s)

Michael Joseph, MD
- MD, Creighton University School of Medicine
- Residency, University of California Irvine
- Certified, American Board of Pediatrics
- Financial interest or affiliation with the following organization(s)
  - No actual or potential conflict of interest in relation to my presentation(s)

Lee Kirksey, MD
- MD, The Ohio State University College of Medicine and Public Health
- Vice Chairman, Department of Vascular Surgery, Cleveland Clinic’s Sydell and Arnold Miller Family Heart & Vascular Institute
- Board Certified, Surgery with special qualifications in vascular surgery
- Registered Vascular Technologist
- Director, Philadelphia Peripheral Arterial Disease Coalition
- Financial interest or affiliation with the following organization(s)
  - No actual or potential conflict of interest in relation to my presentation(s)

Brian Mandell, MD
- MD, NYU School of Medicine, New York, NY
- Board Certified, Internal Medicine and Rheumatology
- Director, Scholarly Activities of Internal Medicine Residency Program, Cleveland Clinic, Cleveland, OH
- Editor-in-Chief, Cleveland Clinic Journal of Medicine
- Residency, Hospital of the University of Pennsylvania, Philadelphia, PA
- Financial interest or affiliation with the following organization(s)
  - Grant Research Support - Horizon
  - Consultant - Horizon, Takeda

Larry Osher, DPM
- Doctorate, Podiatric Medicine, Kent State University College of Podiatric Medicine, Independence, OH
- Scientific Co-Chair, 2018 Southeast National Conference
- Professor, Division of Podiatric & General Medicine, Kent State University College of Podiatric Medicine
- Director, Radiology Department, Cleveland Foot & Ankle Clinic, Cleveland, OH
- Member, Governor’s Radiation Advisory Council, OH
- Chairman, Ohio Radiation Generating Equipment Committee, Ohio Department of Health, Columbus, OH
- Section Editor, Journal of Foot & Ankle Surgery
- Financial interest or affiliation with the following organization(s)
  - No actual or potential conflict of interest in relation to my presentation(s)

Mark Schwalitzer, MD
- Chair, Department of Radiology, University Hospital, Stony Brook, NY
- Professor of Radiology, Stony Brook School of Medicine
- Board Certified, Radiology-Diagnostic Radiology
- Internationally renowned speaker and author
- Financial interest or affiliation with the following organization(s)
  - No actual or potential conflict of interest in relation to my presentation(s)

Scheffer C.G. Tseng, MD, PhD
- MD, National Taiwan University
- Postdoctoral Fellowship, Cornea and External Diseases, Harvard Medical School
- Medical Director, Ocular Surface Center, Miami, FL
- Research Director, Ocular Surface Foundation
- Director of Research & Development, TissueTech, Inc.
- Medical Director and Consultant, Bio-Tissue, Inc.
- Director of Research & Development, Bio-Lipid, Inc.
- Financial interest or affiliation with the following organization(s)
  - No actual or potential conflict of interest in relation to my presentation(s)

Samir Shah, MD
- MD, Yale University School of Medicine
- Board Certified, Pediatrics and Pediatric Infectious Diseases
- Director, Division of Hospital Medicine, Cincinnati Children’s Hospital
- Attending Physician, Division of Hospital Medicine, Cincinnati Children’s Hospital
- Chief Medical Officer, James M. Anderson Center for Health Systems Excellence Excellence Professor, UC Department of Pediatrics
- Financial interest or affiliation with the following organization(s)
  - Consultant - TissueTech, Inc.
GOALS & OBJECTIVES

Thursday, November 21, 2019
Keynote Session – Rheumatology
By the completion of this session, the registrant will:
• Identify the role of the podiatric physician in the modern prevention and management of gout
• Discuss current concepts in the management of the hyperuricemia and the patient with gout
• Use a case-based approach, identify pedial manifestations of underlying rheumatic disorders
• Become familiar with subtle radiographic nuances of the more common pedal arthropathies
• Clarify basic principles of surgical imaging of the foot and ankle
• Advance principles of doldt Ligament Repair
• Discuss current surgical therapeutic options for osteochondral talar dome lesions; enumerate pros and cons of a given approach
• Defend the use of advanced vs. conventional osseous fixation methods in osteotomy & arthrodesis surgery

Risk Management Panel - Podiatric Medical and Surgical Complications and Problems
Through a series of interactive case presentations, along with reviews of current practice standards, the participant will be able to discuss ways and means of obviating risk in management of the surgical patient

Friday, November 22, 2019
Keynote Session – Imaging of the Foot and Ankle
By the completion of this session, the registrant will be able to:
• Interpret basic MR images associated with ankle tendon and lateral ligament pathology
• Perform a basic analysis of the foot and ankle MRI for patterns of marrow edema associated with the more common pathologies
• Demonstrate familiarity with basic of MRI sectional imaging components of the normal ankle
• Identify basic MR findings associated with acute vs. chronic ankle injury
• Recognize basic MR findings associated with sinus tarsi syndromes

Limb Salvage: Vascular
By the completion of this session, the registrant will:
• With respect to the high-risk limb and limb salvage, defend the importance of working together as part of a team of physicians for the ultimate benefit of the patient
• Outline the basic steps in the assessment of patients with peripheral arterial disease (PAD)
• Advance current principles for the preservation of the limb in peripheral arterial disease
• From the vascular surgeon’s perspective, offer a basic algorithmic approach to healing severe, chronic wounds
• Recognize the importance of timing in the treatment of peripheral arterial disease and comitant infection
• Appreciate the need for a) revascularization and potential ramifications of substandard revascularization, and b) importance of pedal arch reconstruction and two-vessel infra-epigastric revascularization
• Based upon the current literature, defend the use of lower extremity arterial interventional strategies for the dysvascular limb: Bypass? Balloon/Endo vs Open vascular surgical techniques
• Compare and contrast different anatomic levels of amputation of the foot and ankle in limb salvage
• Elucidate principles of wound management and limb salvage in patients with end-stage renal disease
• In a given clinical scenario, defend the use of amputation as an effective treatment modality and option, outside of failure
• Illustrate the scientific basis for, and defend the use of negative pressure in healing difficult wounds

PICA Lecture- Reasons Podiatrists Are Sued: From the Microscope of a Podiatrist
Health care stakeholders are impacted by the expansive and rapid changes in the health care environment. Roles and responsibilities are shifting and consumer expectations are becoming increasingly demanding. The one thing podiatrists want to avoid is a lawsuit — a professional liability lawsuit. This presentation will focus on the presenters view related to The Reasons Podiatrists Are Sued. This will include a case study claim related to wrong site surgery. Yes, one of those “Never Events” that is still occurring. The presentation will also walk through specific and practical steps to assist you in mitigating risks within your practice.

Objectives:
• Discuss top 6 Podiatrists get sued
• Review common customer services that can impact the patients perception of their care
• Discuss strategies to mitigate the risk
• Describe common breakdowns in processes that can lead to never events

Saturday, November 23, 2019
Risk Management/Reducing Medical Errors: Infectious Disease
By the completion of this session, the registrant will be able to:
• Elucidate current principles of interpretation in the use MRI in the evaluation of diabetic foot infection, with improving the accuracy and minimizing errors in the diagnosis of osteomyelitis
• In light of the most recent medical literature, defend the use of radionuclide imaging in diagnosing osteomyelitis as a tool that can reduce the probability of equivocation and error in the high risk diabetic foot
• Given a clinical scenario, including patient history, offer effective strategies for the empiric treatment of infections thereby avoiding potential risky delays in antibiotic management
• Identify scenarios that justify medical management of osteomyelitis, along with antibiotic choices, and avoid errors that depart from practice standards of care
• Describe the basic objective and subjective tools and advanced techniques in the accurate diagnosis of osteomyelitis
• Based upon the current medical literature and practice standards, present an organized approach to evaluation and management principles of diabetic foot infection
• Enumerate principles of the surgical management of osteomyelitis

Florida License Requirements
Florida Regulations – HIV Update (1 hour)
HIV/AIDS: The physician will be thoroughly familiar with: a) the epidemiology of AIDS and related infections including TB; b) modes of transmission; c) infection control procedures (including universal precautions), d) clinical management, e) prevention, f) current therapies, and associated MSK radiographic features. Typical State and/or Federal regulations regarding AIDS testing and the confidentiality of test results will also be reviewed.

Evaluation and Management of Patients on Controlled Substances (2 hours)
Topically, this section complies with the typical CME requirements for state regulations regarding prescription of controlled substance. In Florida, this is House Bill 21.

Legal Proceedings: - Florida Legislative Update – 1 hour
Florida Regulations: The registrant will know about new state legislation, new rules, and existing legal requirements relating to the practice of podiatric medicine in the State of Florida including the specific continuing education courses required for license renewal

Sunday, November 24, 2019
Morning Session - Improving Patient Outcomes, Reducing Medical Errors. Combining sound fundamentals with employing current practice standards. By the completion of this session, the registrant will be able to:
• Outline current evaluation and management principles involving elective foot and ankle surgery in the diabetic patient
• In order to obviate risk and medical errors in practice, defend the use of hybrid SPECT/CT in the evaluation of post-op foot and ankle pain
• Compare and contrast various imaging methods currently available in the accurate evaluation of fracture healing, thereby avoiding pitfalls in the erroneous conclusion that a fracture is healing

Imaging of Pedal Bone Tumors – Mini Symposium:
• Recount the basic radiographic classifications of a) destructive patterns of bone, b) periosteal reactions, and c) matrix patterns that are commonly encountered in bone tumor imaging
• Compare and contrast the typical radiographic features of the more commonly encountered benign pedal cartilaginous bone tumors
• Compare and contrast the typical radiographic features of the more frequently encountered malignant pedal bone tumors including unicameral bone cyst, giant cell tumor, simple bone cyst, intraosseous lipoma, and osteoid osteoma
• Radiographically chart/map the typical pedal bone tumors as they involve the a) talus and b) calcaneus
• Discuss the MRI characteristics, when distinctive, of the pedal aforementioned bone tumors/soft tissue neoplasia and limb salvage
THE PODIATRY FOUNDATION

We serve and nurture Podiatric Medicine, education and research.

The Podiatry Foundation is committed to providing grant funds for research and educational projects that enhance the future of podiatric medical education. We have assisted many national and state organizations. We are here to serve the profession. Please contact us regarding your specific project. We look forward to serving you.

PROTECTING PODIATRIC PHYSICIANS ISN'T MAGIC!

WE JUST MAKE IT APPEAR THAT WAY.

It doesn’t take fairy dust and moon beams to help protect podiatric physicians. Providing quality medical professional liability insurance for podiatrists requires an experienced team who knows the profession.

We have been doing just that for 38 years. It is just one of the little things that make us unique.

STOP BY THE PICA BOOTH FOR MORE INFORMATION AND DISCOVER WHAT MAKES US ABSOLUTELY AMAZING.
