Kent State University must have an official copy of your score report before credit can be awarded. (Notation on the high school transcript will not suffice.) To request a copy from College Board, please write to the address below indicating the year you took the AP test(s) and the name(s) of the test(s) you took. Ask that the score report be sent to Kent State University. The code number for all Kent State University campuses is 1367.

AP EXAMINATIONS

EMAIL: apexams@info.collegeboard.org

All students: After reviewing this chart, if you believe that you have earned college credit at Kent State based on your Advanced Placement scores, follow the instructions above and have an official score report sent from the College Board to Kent State University, code number 1367.

Transfer Students: If your AP credit appears on a transcript from an Ohio college or university which has been submitted to Kent State University for your admission, your AP credit can be transferred from your college transcript. You will not need to request a score report from College Board.

Posting of AP credit is processed for all Kent State University campuses by the Credit Transfer-AOTS staff in the Schwartz Center Building, room 204 (330-672-8950). **For State of Ohio policies on awarding of credits, please see page 3 of this chart.*

The State of Ohio, working through the University System of Ohio, has initiated policies to facilitate the ease of transition from high school to college as well as between and among Ohio's Public colleges and universities.

Ohio's Articulation and Transfer Policy for AP credit beginning in the Fall term 2009:

1. Students obtaining an Advanced Placement (AP) exam score of 3 or above will be awarded the aligned course(s) and credits for the AP exam area(s) successfully completed.
2. General Education courses and credits received will be applied towards graduation and will satisfy a general education requirement if the course(s) to which the AP area is equivalent fulfill a requirement.
3. If an equivalent course is not available for the AP exam area completed, elective or area credit will be awarded in the appropriate academic discipline and will be applied towards graduation where such elective credit options exist within the academic major.
4. Additional courses or credits may be available when a score of 4 or 5 is obtained. Award of credit for higher score values varies depending on the institution and academic discipline.
5. In academic disciplines containing highly dependent sequences (Sciences, Technology, Engineering and Mathematics –STEM) students are strongly advised to confer with the college/university advising staff to ensure they have the appropriate foundation to be successful in advanced coursework within the sequence.

Additional Information:

Transfer Module Area Credit- Credit that applies towards one of the five areas of the Ohio Transfer Module, a subset or a complete set of each institution's general education requirements. This credit will count towards the completion of a Transfer Module in one or more of the following five subject areas – English Composition/Oral Communication, Mathematics/Statistics/Logic, Arts/Humanities, Social/ Behavioral Sciences, and Natural Sciences.

General Elective Credit- General Elective Credit counts towards the total number of college credit hour and may apply toward one's degree completion.

AP Score- The American Council on Education (ACE) has interpreted and ranked what each AP score meant and made recommendations on how students can be qualified to earn college credit for AP exams. The rankings, taken from the College Board's AP site, are as follows:

- 5- Extremely well-qualified
- 4- Well-qualified
- 3- Qualified
- 2- Possibly qualified
- 1- No recommendation (not qualified)

Students with exam scores of "3" or higher are guaranteed to receive college credit, mainly in general education areas, upon entrance to any of Ohio's public institutions of higher education.

In some instances, two possible credit awards are listed for a test. In these situations, the credit awarded should benefit the student most for his/her chosen area of study. Students should contact the destination institution to determine which credit they will be awarded.

If a student has taken multiple levels of a test in a single area (e.g. Calculus AB & BC, Computer Science A & AB, or a foreign language & literature), that student should contact the destination institution to find out how this credit will be applied toward his or her major.

For Studio Art tests, all materials should be retained for possible portfolio evaluation by the destination institution. Completion of the AP test does not guarantee admission into the Art major.

In accordance with the advanced placement policy, "When it clearly enhances the opportunity for student success, an institution should strongly advise that an AP score of at least 4 is needed for a student to be successful in a second course in a highly dependent sequence of courses in a STEM area. For example, an advisor should strongly recommend that an AP score of at least a 4 is needed on the AP Chemistry exam in order for the student to be successful in the second course in Chemistry." If a student agrees to follow this recommendation from an academic advisor, he/she should be awarded appropriate area credit in lieu of the recommended AP course credit.
