Attending a GPAD Session via Microsoft Teams

Step 1: Click the link below for the session you want to attend live via webinar.

Step 2: After clicking the link, you will be asked if you want to “open the webinar in Microsoft Teams” or “join on the Web.” Unless you already have Microsoft Teams downloaded on your computer, it is recommended you “join on the Web.”

Step 3: After selecting “join on the Web,” select “Continue without audio or video” in order to mute your webcam and laptop microphone, so that other attendees cannot see or hear you.

Step 4: Where it says enter name, please enter your Kent State username (e.g., jsmith) or kent.edu email address (e.g., jsmith@kent.edu), then select “Join now” to join the webinar.

Step 5: Once you have joined and the meeting has started, select “Show conversation” to access the chat feature to answer or ask questions of our presenter during their presentation. A Graduate Studies staff member will be in the chat moderating the discussion between students joining online and those attending in person.

Wednesday, October 2
