Welcome to the first issue of Connecting the Dots, Kent State University at Stark’s newsletter from the Office of Analytics! Last spring, we asked for your suggestions for a name for the newsletter. With more than 40 creative, interesting, and clever responses, we settled on Don Thacker’s, Connecting the Dots. It conjured up networks, communities, connections, as well as lines on a graph, all of which were appealing. Afterward, we gave Don’s title to Brielle Loughney in our Marketing and Communication Department, and she designed the connecting the dots-flash logo. Thank you to Don for the newsletter name, to Brielle for the logo design, and to faculty and staff who participated in the survey to name the newsletter.

Connecting the Dots will present data and analysis on Kent State Stark, higher education generally, and related topics. The newsletter will also include grant announcements, monthly grant news, and quarterly grant activity for the Stark Campus. We welcome your suggestions for the newsletter!

The newsletter is also an opportunity for the Office of Analytics, which was created in December 2018, to introduce itself to the campus. The office responds to requests regarding enrollment data, automated reports on majors, school district data booklets, data associated with grant proposals, assessment, and campus event promotion, and other data and analysis. It produces Connecting the Dots and an Analytics Brief series.
ENROLLMENT

Kent State University recently released its 15th day enrollment figures for all campuses. We present some of those statistics in this issue and will continue to present a variety of 15th day statistics in upcoming issues.

**Figure 1:** Concurrent enrollment (or headcount) at the Stark Campus declined by 7.3% and FTE (full-time equivalent) enrollment declined by 10.7% in Fall 2019 from a year ago.

**Figure 2:** Geographically, the greatest decline in enrollment is made up of students from Stark County - by 11.9% within the last year and by 16.5% within the last five years. Stark County students now comprise less than half of Kent State Stark’s enrollment at 49.0%. Summit County enrollment declined 4.1% in the last year, and Summit County students make up 17.5% of total enrollment. Although enrollment declined by 1.5% for students from outside of Stark and Summit Counties, their share of total enrollment increased from 31.5% to 33.5% in the last year and has grown 10 percentage points in the last five years.

**Figure 3:** Older students’ enrollment has declined more than younger students’ enrollment. Enrollment by the youngest students declined 3.4% and by the oldest students declined 12.8%.

- More Kent State Stark students come from Stark County than any other county. However, Fall 2019 is likely the first time in Kent State Stark’s history that a majority of students come from outside of Stark County based on concurrent enrollment.

- Enrollment by students who are 18 years old and younger has more than tripled from 8.9% of total enrollment in Fall 2014 to 27.2% of total enrollment in Fall 2019. This age group would include CCP students as well as first-year college students. Fall 2014 was the last year of dual enrollment before the state launched its College Credit Plus Program in Fall 2015.

- Definitions: 15th Day refers to the 15th day since the start of the semester. The enrollment count on this day is the official enrollment reported to the state. Concurrent enrollment is defined as a headcount enrollment. Any student within the Kent State University system who is enrolled in a Stark Campus course is counted in concurrent enrollment. Stark Campus preponderant enrollment is defined as the number of students who take the majority of their courses at the Stark Campus. Therefore, concurrent enrollment is greater than preponderant. FTE (full-time equivalent) enrollment is calculated by summing the total credit hours of students taking courses at the Stark Campus and diving that sum by 15, the number of credit hours considered “full-time.” FTE enrollment provides the best indicator for incoming revenue.
Figure 4: 85.7% of students enrolled at Kent State Stark are Caucasian in Fall 2019. African American, Asian, multi-racial, and Hispanic students make up 5.5%, 1.0%, 3.7%, and 3.1% respectively. Based on the US Census Bureau American Fact Finder Report for Stark County, OH, 2017 population estimates are 88.2% white, 7.1% black or African American, 0.8% Asian, 3.3% multi-racial, and 1.9% Hispanic (of any race). Proportionately, African American students are under-represented in Kent State Stark’s enrollment.

Figure 5: Figure 5 displays the racial and ethnic composition of Kent State Stark’s enrollment without Caucasian students. Excluding the Other/Not Reported category, African American students followed by multi-racial students and then Hispanic students comprise the greatest proportion of non-Caucasian students.

Figure 6: College Credit Plus (CCP) enrollment declined for the first time since the inception of the program in 2015. The number of CCP students who enrolled at Kent State Stark declined 10% from 693 in Fall 2018 to 623 in Fall 2019. Last year 12% of CCP seniors enrolled as first-year students at Kent State Stark.

Figure 7: All College Credit Plus students have grown from 6.4% of enrolled students at Kent State Stark in 2015, the first year of CCP, to 17.2% in Fall 2019.
GRANT ACTIVITY

Table 1: Grant submissions by quarter and outcomes and award rates for the corresponding quarterly submissions are displayed in Table 1. In fiscal year (FY) 2019, 65 grant proposals, valued at approximately $1.2 million, were submitted. The number of submitted grants is a record number of submissions compared to previous years, but the dollar value of submitted grants has declined. In the three years prior to FY 2019, 61 to 64 grants were submitted annually, ranging from $1.6 to $5 million. Forty-five grants, a record number of awards, have been awarded to date, valued at $523,525, approximately $61,000 more than FY 2018, with 1 grant still pending, valued at $22,558. To date, in FY 2019, Kent State Stark’s grant award rate is 70% (#) and 45% ($) and the average grant award is $11,634. In the first quarter of FY 2020, 7 grant proposals have been submitted, valued at $952,835 with 4 pending, valued at $951,035.
