Who will need to file the tax form?
- International students, who are not green card holders, are required by the Tax Office to fill out the tax form by the Domestic Travel Award application deadline to determine the tax filing status. US tax residency is determined at the time of payment and requires that the Tax Office has documents to support the residency status. Therefore, even for international students who were a resident alien in the past, the Tax Office needs to obtain updated documentation. International students will receive a link for filing the tax form once they submit the Domestic Travel Award application.
- Failure to complete the form by the DTA application deadline will result in tax withholding of 30%. This is a change from prior years. This new process will protect your information, especially your US social security or tax identification number. All tax forms are reviewed after the deadline and if further information is needed on your submitted form, you will be contacted by the tax manager. If tax is required, you will see a tax charge on your student account when the award is paid and you will receive Form 1042-S by March 15, 2020. You will also receive Form 1042-S if you used a tax treaty to reduce the withholding on your award. Read more on Form 1042-S (https://www.kent.edu/tax/non-us-citizen-scholarships-and-fellowships)
- US citizen/green card holder/ permanent resident do NOT need to fill the tax form. For international students who are green card holders need to upload a copy of their green card to the application window.
