Mission of the Diversity Committee

The mission of the Diversity Committee is to assist in implementing the stated goals of the plan:

1. To initiate and/or support transformation that reflects a global and inclusive curriculum through new and existing programs and courses;

2. To assist in increasing recruitment efforts to bring more diverse faculty to our ranks, while developing conditions that support their retention and success;

3. To assist in increasing efforts to recruit and retain underrepresented students into all the education and human service professions represented in the College;

4. To undertake efforts to encourage among the Faculty the inclusion of diversity issues into all areas of their scholarship, while lobbying for the implementation of appropriate accountability and rewards into the tenure and promotion process;

5. To help to implement professional development programs for faculty, student, and staff that focus on the full scope of diversity issues; and

6. To initiate and monitor baseline and on-going data in order to systematically and effectively assess progress toward our goals.
