Timothy Bowser – Lead Application Developer tbowser@kent.edu

Christine Dispina – Business Systems Analyst cdispina@kent.edu

Initium Software

John Shelvey – CEO john.shelvey@initiumsoftware.com

Instant Address

- What is it?
 - Address validation service
 - Verifies that an address is deliverable (US Postal Service)
 - Automatic and highly customizable formatting
 - Simple, enterprise licensing
 - Active REST endpoint
 - Delivered on Microsoft Azure
 - Georedundant data centers, high availability
 - No software to install, postal data updated monthly

Instant Address

- How does it work with Banner 9?
 - **Admin and Self Service Pages**
 - SPAIDEN, FOAIDEN, PPAIDEN, FTMVEND, FTMAGCY, SAAQUIK, SPAEMRG, SHARQTC, GOAMTCH, FTMSHIP, SOASBGI, FTMFMGR, FTMCUST
 - Enablement
 - Add a reference to a single file in Banner
 - Workflow configuration

Instant Address
