

SALEM

RADIOLOGIC TECHNOLOGY

Associate of Applied Science Degree

Program Information Packet

For Class Beginning JUNE 10, 2019

Kent State University Salem Campus

Jan Gibson, M.Ed., R.T. (R), Program Director
2491 State Route 45 South
Salem Ohio 44460
Phone: 330-337-4223
E-mail: jjgibso1@kent.edu

Sherry DeWitt, Secretary 330-337-4227
KSU Salem Phone: 330-332-0361
Web site: www.kent.edu/columbiana/radiology
KSU Radiology Fax 330-337-4255

The Radiologic Technology online application must be received by **February 1, 2019**

A. Introduction to Radiologic Technology at the Salem Campus

Thank you for your interest in the Radiologic Technology program at the Salem Campus of Kent State University. Graduates earn an Associate in Applied Science degree in Radiologic Technology (66 semester hours). The program begins every June at the start of summer I semester.

The program educates students to perform radiologic procedures. Radiologic Technology is a branch of health care delivery that utilizes x-rays to aid in the diagnosis and treatment of medical conditions. Through a blend of classroom education at the Salem Campus (during daytime hours only) and clinical education at a hospital (clinical site), students learn to apply theoretic principles to clinical practice in patient care, radiographic imaging and equipment operation, patient procedures and radiation safety. Employment upon graduation is not guaranteed and depends on current economic and professional trends.

Admission to the program is on a selective basis due to the limited number of students approved for each clinical education setting affiliated with the program. Approximately 45 applications were received in 2018 and a percentage of the student positions available receive an interview, followed by the acceptance of approximately 18 students. The class size is determined by the JRCERT limits of clinical supervising technologists to student ratios.

Carefully read the following application packet for important information, especially the program admission requirements and the application process. Take note of deadlines for the application submission, KSU ACCUPLACER and ALEKS testing and transcripts submission.

The Bachelor of Radiologic and Imaging Sciences degree is also offered at the Salem Campus and may be pursued after completion of the radiologic technology program. The degree requires 120 credit hours for graduation. See page 3 for more information.

B. National and State Program Accreditation:

1. The program is nationally accredited by the Joint Review Committee on Education in Radiologic Technology and follow *The Standards for an Accredited Educational Program in Radiologic Technology*. Contact: www.jrcert.org or by phone: 312-704-5300 or at 20 N. Wacker Drive, Suite 2850 Chicago IL 60606
2. The program is also accredited by the Ohio Department of Health. Contact the ODH at 614-995-4727
<http://www.odh.ohio.gov/-/media/ODH/ASSETS/Files/rp/x-ray-equipment/registrants-by-cat/09-Educational-Institution-167--Feb-2018.pdf?la=en> (page 29)

C. Careers in Medical Imaging

Radiologic Technologist: Performs exams using x-ray equipment to obtain an image of the body. KSU offers the Associate of Applied Science degree in Radiologic Technology at both the Ashtabula and Salem campuses. Graduates may pursue advance career mobility into education, management, sales, application specialist, mammography or cardiovascular interventional technology as well as other options listed below.

Computed Tomography (CT) Technologist: Performs CT scans that image sectional views of internal structures. Applicant must be a radiologic technologist prior to program start. CT is offered as a concentration in the Bachelor of Technology degree in Radiologic and Imaging Sciences at KSU Salem. Contact Jan Gibson at jjgibso1@kent.edu at 330-337-4223.

Magnetic Resonance Imaging Technologist: Performs MRI exams using computers and a combination of strong magnetic currents and radio waves to obtain images of human anatomy. Applicant must be a radiologic technologist or nuclear medicine technologist prior to program start. MRI is offered as a concentration in the Bachelor of Technology degree in Radiologic and Imaging Sciences at KSU Salem. Contact Jan Gibson at jjgibso1@kent.edu at 330-337-4223.

Diagnostic Medical Sonographer (DMS): Perform exams by using sound waves to produce internal images of the human body. DMS is offered as a concentration in the Bachelor of Technology degree in Radiologic and Imaging Sciences at KSU Salem. Student must be at least a senior in college to apply. Deadline is April 1st.
Option I at KSU: Completion of a Radiologic Technology program and Kent Core courses followed by completion of the Diagnostic Medical Sonography program.
Option II at KSU: Completion of three years of college in specific coursework that includes Kent Core courses & electives followed by the DMS program. Contact Cyndi Peterson for information on the program at clpeters@kent.edu or at 330-337-4277.

Nuclear Medicine Technologist: Administers radioactive pharmaceuticals to patients and views the image on gamma cameras in order to evaluate organ function. This program is no longer offered at Kent State University.

Radiation Therapist: Administers radiation to benign (non-cancerous) or malignant (cancerous) lesions by using a strong radiation beam. Radiation Therapy is offered as a concentration in the Bachelor of Technology degree in Radiologic and Imaging Sciences at KSU Salem. Student must be at least a senior in college to apply. Deadline is April 1st.
Option I at KSU: Completion of a Radiologic Technology program and Kent Core courses followed by completion of the Radiation Therapy program.
Option II at KSU: Completion of three years of college in specific coursework that includes Kent Core courses and electives followed by the Radiation Therapy program. Please contact Victoria Migge for information on the Radiation Therapy program at vmigge@kent.edu or at 330-337-4133

View the website at www.kent.edu/columbiana/radiology

D. The Mission of the Radiologic Technology Program

The mission of Kent State University Salem Campus is to educate radiologic technology students in the knowledge, skills and attitudes to become qualified, professional practitioners who provide quality service and care to the community and to prepare students for the changing needs of the profession. Kent State University transforms lives and communities through the power of discovery, learning and creative expression in an inclusive environment.

E. The Goals and Student Learning Outcomes

Goal One: Students will be able to utilize critical thinking and problem-solving skills effectively in the practice of radiologic technology.

Learning Outcome: Students will identify errors and perform corrective actions in positioning and image quality during image analysis.

Learning Outcome: Students will adapt procedures for non-routine patients.

Goal Two: Students will be able to communicate effectively in oral and written form with patients and members of the health care team.

Learning Outcome: Students will demonstrate effective oral communication skills. Students will demonstrate effective written communication skills.

Goal Three: Students will be able to perform radiographic procedures successfully and consistent with entry-level requirements of a registered radiologic technologist.

Learning Outcome: Students will accurately perform procedures in the clinical setting.

Learning Outcome: Graduates will satisfactorily perform procedures.

Goal Four: Students will be able to determine the value of professional growth and development and to conduct themselves in a professional manner.

Learning Outcome: Students will interpret and critique professional conduct as demonstrated in the clinical setting.

Learning Outcome: Students will perform procedures in a professional manner.

F. Program Effectiveness Measures and Data

1. Students will complete the program in 24 months.
2. Graduates will pass the ARRT certification exam on the first attempt when taken within six months of graduation.
3. Graduates will be employed within twelve months of graduation.
4. Graduates will be satisfied with their education in radiologic technology.
5. Employers will be satisfied with the education of program graduates.

Year	Program Completion Rate: (# graduates in each class) (# students initially enrolled)	ARRT Exam Pass Rate when taken within 6 months of graduation for first time examinees	Job Placement Rate within 12 months of graduation for graduates seeking employment
2017	95.0% 19/20	100% 19/19	100% 19/19
2016	95.2% 20/21	100% 20/20	100% 19/19
2015	90.0% 18/20	100% 18/18	100% 17/17
2014	91.3% 21/23	100% 21/21	100% 18/18
2013	91.3% 21/23	100% 21/21	82% 14/17
	KSU Program Completion Rate: 2013-2017: 92.5%	ARRT Pass Rate: 2013-2017: 100%	Job Placement Rate: 2013-2017: 96.4%

G. Admission Requirements for 2019

Review the following minimum requirements. It is the applicant's responsibility to review transcripts from high school and/or from college/university to determine eligibility in meeting program requirements. The completion of the minimum requirements does not guarantee an interview or acceptance into the program. Please submit a Radiologic Technology application only if you meet all of the following requirements:

1. **Graduation from High School** or completion of a successful GED exam prior to program start.
2. **Algebra** with a grade of "C" or better
High School Students: complete algebra course with a grade of C or better.
College Students: If high school algebra grade is not a "C" or better, then a developmental or college level algebra course must be completed at a university by the end of fall semester 2018.
At Kent State University, students who test into MATH 00020 or 00021 (Pre-Algebra or Basic Algebra I) must complete them with a grade of C or better to meet the math pre-requisite prior to the radiologic technology program start date. Note that MATH 11009, Modeling Algebra or MATH 10772 Modeling Algebra Plus or MATH 11010, Algebra for Calculus or MATH 10775 Algebra for Calculus Plus (if pursuing radiation therapy), must be completed before graduation from the radiologic technology program to meet degree requirements.
3. **Biology** or Anatomy & Physiology with a grade of "C" or better
High School Students: complete biology by graduation with a "C" or better.
College Students: If applicant did not have high school or college biology with a grade of "C" or better, then a biology course must be taken at college and completed by the end of fall semester 2018. Recommended course is BSCI 10001, Human Biology or BSCI 11010 and 11020 Foundational Anatomy/Physiology I&II or BSCI 21010 and 21020, Anatomy & Physiology I&II.
4. **Chemistry** with a grade of "C" or better
High School Students: complete chemistry by graduation with a "C" or better.
College Students: If an applicant did not have high school chemistry with a grade of "C" or better, then a chemistry course must be taken at a university and completed by the end of fall semester 2018.
KSU students who did not complete high school chemistry or did not receive a grade of C or better are encouraged to take CHEM 10030, Chemistry in Our World, to be better prepared for CHEM 10050, Fundamentals of Chemistry or CHEM 10055, Molecules of Life. Prerequisite for Fundamentals of Chemistry is MATH 00023, Basic Algebra III or MATH 10772 Modeling Algebra Plus.
5. **Cumulative Grade Point Average of at least 2.75** (on a 4.00 scale) from your most recent education record.
High School Students: Cumulative GPA reviewed on transcript.
College cumulative GPA will be considered for applicants who have previously or are currently attending a college or university and these applicants must have at least a cumulative GPA of 2.75 by the end of fall semester 2018.
6. **Four hours of job shadowing** are required, 8 hours recommended. See pages 16-18.
7. Completion of one **Information Session is mandatory.** See page 8.

H. Application Process

Applicants who are applying to the radiologic technology program should follow the process below if applying for the program that begins **June 10, 2019**.

The following steps must be completed for your application to be processed:

Step 1 **Apply to Kent State University:**

Complete and submit the Kent State University Application for admission and include the \$40.00 application fee. This step is NOT necessary if you are currently attending or have previously attended KSU and have not attended any other college or university since attending Kent. If you attended KSU and then attended another college or university, you must reapply to Kent State.

Step 2 **Send Official High School and College Transcripts:**

Arrange for official transcripts (sent directly from a school) to be sent from high school and all colleges or universities previously or currently attended. If mailing transcripts have them sent to: Kent State Salem Campus, 2491 State Route 45 South, Salem, Ohio 44460. If transcripts are being sent electronically, have them sent directly to Kent State University.

- a. Applicants who have previously attended or are currently attending any campus of Kent State University need not submit any transcripts.
- b. For high school or transfer students, ensure that high school and/or college transcripts are submitted to Kent State by **February 1, 2019**.
- c. If taking a math or science course in spring 2018, high school or transfer students should submit a spring class schedule or a transcript that lists spring semester courses to receive points for math and science courses.

Step 3 **Complete Basic Skills Assessment Testing (Accuplacer & ALEKS Testing)**

Prior to program acceptance, applicants must demonstrate competence for college level coursework in reading, writing and math by doing the following:

- a. Complete ACCUPLACER testing in reading and writing to determine College Writing course placement. Students may place into reading and/or writing courses prior to College Writing I. Students with a specified level of ACT scores are exempt from testing. Students who have successfully completed College Writing I at another college or university are exempt from testing.
- b. Complete ALEKS testing to determine placement in math courses. Students testing into developmental math courses (MATH 00020, 00021, 00022, or 00023) must complete them the first year at any KSU campus. Students who have successfully completed college algebra (equivalent to KSU MATH 11009 or 11010) at another college or university are exempt from testing.

Arrangements to take the Accuplacer and/or ALEKS test is done by contacting any KSU regional campus. At the Salem Campus, call 330-337-4190. There is no fee for the test. This testing must be done by **Feb. 1, 2019**.

Step 4 Complete the Radiologic Technology Application ONLINE:

Application Instructions for the Radiologic Technology Program:

The ONLINE application form for the radiologic technology program at Salem is available for submission from November 1 to February 1st at this website: <https://www.kent.edu/columbiana/associate-applied-science-radiologic-technology> and select 2019 Application Now Available. There is no fee required to apply.

Before completing the online application, be sure you meet all program admission requirements by reading the provided online information.

Application Status: Radiology secretary Sherry DeWitt will confirm receiving your application through your Kent State e-mail.

I. **Application Review**

1. The admissions committee of the Radiologic Technology program will review applications and transcripts in early February.
2. Approximately 45 applications were received in 2018. A percentage of applicants with the highest points are interviewed. **Approximately 18 students are selected into the program.** Clinical education sites have limited availability, restricting the number of students chosen.
3. Pursuant to Federal Regulations & State Law, KSU is committed to providing all persons equal access to its programs and investigation of alleged complaints of discrimination without regard to race, color, religion, age, gender, sexual orientation, national origin, disability, or identification as a disabled veteran or veteran of the Vietnam era.

Change of Program to Change Major

Applicants may complete a Change of Program to change their major to Radiologic Technology. This provides information to Financial Aid that courses are being pursued toward a specific major. This change does NOT signify that you are accepted into the radiologic technology program since the program has a selective admission process. Go to Flashline, select the Student tab, then Resources tab, then Advising and GPS tab. Choose link to: Change Undergraduate Program. Select change program. In the drop down box type SA-AAS-RADT. Follow remaining instructions.

J. Point System for Selection of Students

Applicants receive points based on information stated below:

1. **Cumulative Grade Point Average (GPA):** Points are assigned to a cumulative GPA of 2.75 and above based on the cumulative GPA and the number of credit hours completed. More points are assigned for higher GPA's and more credit hours.
2. **Math and Science Courses:** Points are assigned to math and sciences courses based on the grades received from high school and/or college.
Point assignment: A = 4 points, B = 3 points, C = 1 point, D or F = 0 points
 - Grades from the 3 most recent completed courses in math.
 - Grades from the 2 most recent completed courses in biology.
 - Grades from the 2 most recent completed courses in chemistry.
 - If there are not 2 completed biology or chemistry courses and the student registers for one or both in spring semester 2019, two points will be awarded for each course.
 - If a student has only 1 biology or 1 chemistry course or no physics course, students are advised to take PHY11030 Seven Ideas That Shook the Universe or PHY 21430, Frontiers in Astronomy for additional points.
3. **Information Session Attendance:**
 - Students are **REQUIRED** to complete 1 Information Session prior to the application deadline. This one hour session provides information on the Associate of Applied Science Degree in Radiologic Technology and the Bachelor Degree in Radiologic and Imaging Sciences.
 - Only one session, within 24 months of the Feb. 1, 2019 deadline, is required.
 - Applicant's signature of attendance is required.
 - Tentative presentation dates are: **Wednesday, October 17, 2018; Thursday, November 15, 2018, Wednesday, December 5, 2018 and Thursday, January 17, 2019** at the Salem Campus. Another session will be scheduled at the Trumbull Campus in October. An **online version** with a required quiz will also be available in the fall. Refer to the following website: <https://www.kent.edu/columbiana/radiology> and select Information Session to confirm date, time and room locations.
 - Please call radiology secretary, Sherry DeWitt, at 330-337-4227 for reservations.
4. **Employment Status:** Points are assigned for work experience:
 - One point for part-time non-medical employment or a full time summer job
 - Two points for full time non-medical employment (minimum of 32 hours/week)
 - Three points for part-time medical employment (caring for patients)
 - Four points for full time medical employment (minimum of 32 hours/week)
5. **Job shadowing/observing:** See page 16 for full description.
 - Four hours of job shadowing in a radiology (x-ray) department within the last two years are **required** to apply. These first four hours result in 0 points.
 - It is highly recommended that an applicant complete an additional four hours of job shadowing which will award 2 points.
 - It is the applicant's responsibility to set up the job shadowing. The list of affiliated clinical sites are on the form. Applicants may choose hospitals not affiliated with the program but must have KSU evaluation forms completed.
 - For those who are reapplying, it is **required** to complete four additional hours within 12 months of the application date to demonstrate continued interest in the program. These are in addition to the previous hours already completed.
 - A radiologic technologist must evaluate the applicant during the job shadowing using the forms on pages 17-18. Both evaluation forms and the job shadowing documentation form must be submitted by **February 1, 2019**. To ensure availability, applicants should schedule job shadowing before mid-January 2019

K. Interviews, Clinical Placement, Acceptance, Alternates

1. **Interviews:** After program officials review points, a percentage of applicants with the highest points who meet program admission requirements will be sent information via KSU email concerning a clinical and campus interview. Points are based on cumulative grade point average, math and science grades, job shadowing, information session attendance, and work experience if applicable.
Applicants will be required to complete the clinical interview at one of the program's clinical sites prior to the KSU Salem campus interview. The campus interviews are scheduled on 4 Fridays in February and March. Final selection is based on points from those items previously listed as well as points from the campus and clinical interviews. The number of students chosen is based on student capacity at each clinical site.
2. **Clinical Placement:** Attempts are made to place students close to home. Sites include: Alliance Community Hospital, East Liverpool City Hospital, UH Portage Medical Center, Salem Regional Medical Center, St. Elizabeth Boardman Hospital, St. Elizabeth Youngstown Hospital, St. Joseph Warren Hospital, and Trumbull Memorial Hospital.
3. **Acceptance:** Notification of acceptance or non-acceptance via KSU email in early April.
4. **Alternates:** Some alternates are selected during the process to replace an applicant who does not accept placement in the program. Alternates are only able to replace an applicant up to the program start date. Those who are not accepted may reapply and should seek advisement from the Radiologic Technology Program Director.

L. Program Requirements for Accepted Students

1. **Orientation Meeting in May:** Accepted students must attend an **orientation meeting** in mid-May to schedule summer semester courses and to discuss program admission requirements, clinical dress codes and program policies.
2. **Electronic federal and state criminal background checks** must be completed by Fast Fingers at KSU Salem in early May. Cost is approximately \$88.00. Students will be notified of the scheduled date with more information upon acceptance.
Applicants must **fully disclose any misdemeanor or felony records** and seek advisement from the radiology program director prior to applying. Those with records will be advised to contact the American Registry of Radiologic Technologists Ethics Committee prior to the program start at www.arrt.org
3. **Scrubs:** students must purchase KSU royal blue scrubs for the program. The cost is approximately \$150 for 2 sets of scrubs and a lab jacket. Students will be provided the opportunity to try on scrubs when completing the electronic background check in early May. Ordering instructions will be provided at that time.
4. **Drug screening** will be completed by Quest Labs. Approximate cost is \$37.00. Information on scheduling appointments at their locations will be given in the acceptance letter. Students must receive a negative drug screen for final program acceptance. Contact the program director for questions or concerns.
5. **A physical exam and evidence of standard immunizations.** Students must have a physical exam, records of immunizations (tetanus booster, MMR, Varicella (chicken pox) or titers completed and have a 2 step TB (PPD) test within 12 months of the program start. Hepatitis B vaccine is optional but encouraged. Annual flu shot (fall) is required.
6. **CPR Certification:** students accepted into the program must be certified by the program start and maintained throughout the program. Certification is offered by the American Heart Association. Level of certification required: BLS Provider. The program schedules a CPR certification class in May for accepted students. Cost is approximately \$40.00.
7. **Record Keeping:** Accepted students will upload all records and reports to **CastleBranch** for verification and completion. All results must be submitted by program start. This company will maintain the records for a service cost of approximately \$35.00. More information will be provided upon acceptance.

M. TECHNICAL STANDARDS

The Radiologic Technology program at Kent State University has established essential functional requirements necessary for enrolled students to acquire the knowledge, skills, competencies and values of an entry level radiologic technologist. The technical standards of admission are not intended as a complete listing of behaviors required but are a sampling of the types of abilities needed to meet program objectives and requirements. The Radiologic Technology program or their affiliated clinical education settings may identify additional critical behaviors or abilities to meet program or clinical site requirements and reserves the right to amend this listing based on the identification of additional standards for students.

The following essential functions must be met by all students after acceptance into the major in order to complete the program. In the event that a student is unable, or becomes unable to fulfill these technical standards with or without reasonable accommodations, the student cannot enroll or remain enrolled in the program. Following acceptance into the program, students are required to verify that they understand and meet these standards or that they believe that, with certain accommodations, they can meet the standards. For students who believe they can meet these standards with accommodation, the KSU Salem Student Disabilities Coordinator will validate their need for accommodation and will work with the program to determine if reasonable accommodation can be made. This accommodation will take into account whether accommodation would jeopardize technologist/patient safety or undercut an essential element of a course or clinical experience.

Radiologic Technology students must demonstrate:

1. Sufficient **communication skills** to communicate effectively and sensitively with patients, health care professionals and the public, including individuals from different cultural and social backgrounds and in stressful and emergency situations. Students must be able to understand and speak the English language at a level consistent with competent professional practice. Must be able to document patient information legibly & accurately.
2. Sufficient **sight** to read requisitions & charts, observe conditions of the patient in low levels of light; to evaluate medical images on view boxes and on computer screens and to record information clearly and accurately.
3. Sufficient **hearing** to interact with and respond to patients as well as to the audible sounds of equipment.
4. Ability to **stand and walk** while assigned to a clinical education setting so as to perform medical imaging procedures in an appropriate and effective manner.
5. Ability to **lift, assist and maneuver** patients in wheelchairs, carts and imaging tables without injury to patient, self or other healthcare workers and to respond to medical emergencies in an effective manner. Have sufficient motor skills to manipulate and reach equipment and to operate small controls. Must be able to lift a minimum of 20 pounds to shoulder height. Perform CPR, first aid & general patient care.
6. Ability to **assimilate, analyze, synthesize, integrate concepts** and solve problems found in medical imaging and to be able to distinguish deviations from the norm.
7. Have the intellectual and emotional skills to **exercise discretion** in handling confidential medical information.
8. Have the **cognitive ability** to perceive and deal appropriately with environmental threats and stresses and continue to function safely and effectively during high stress periods.
9. Able to **protect** oneself and others from hazards in the health care environment, such as infectious disease, contaminated equipment, sharp instruments, chemical fumes, magnetic fields and radiation.

N. Pregnancy Policy

For Applicants and Students Enrolled in the Radiologic Technology Program

If a student chooses to declare her pregnancy she is allowed to make an informed decision based on her individual needs and preferences. The University offers the following options:

Written notice of voluntary declaration: the female student would provide written notification of the pregnancy to the program director. It would indicate the expected due date. If the student chooses to disclose her pregnancy, she must immediately notify the Clinical Coordinator and the Program Director. The student will be provided with Regulatory Guide 8.13 Instruction Concerning Prenatal Radiation Exposure with its appendix of the United States Nuclear Regulatory Commission. The student must then sign a witnessed "Attest" form that was read and discussed. In the absence of this voluntary, written disclosure, a student cannot be considered pregnant.

The student will also be required to follow the National Council on Radiation Protection and measurement (NCRP) dose limits for the embryo and fetus in occupational exposed women, which is no more than 0.5 rem during the entire gestational period and no more than .05 rem in any month, both with respect to the fetus. It is the policy of the program to instruct all students on radiation protection procedures with respect to the embryo/fetus.

Voluntary declaration has the following options:

- a. **Continuing the educational program with modification** in clinical assignments. The program would offer clinical component options such as clinical reassignments from areas such as fluoroscopy, mobile procedures and nuclear medicine.
 - 1) The student who chooses to disclose her pregnancy and continue at the clinical site will be required to purchase and wear an additional dosimeter for fetal dose measurement if the clinical site does not provide a dosimeter for her.
 - 2) Any time missed from clinical education must be made up per the attendance policy. Graduation requires successful completion of all didactic and clinical requirements.
- b. **Continuing the educational program without modification** in clinical assignment or interruption. The clinical coordinator would maintain the standard clinical rotations through all areas.
- c. **Leave of Absence from the program:** If the student takes a leave of absence from the program, the place of re-entry would depend on many factors. Students may be placed at the beginning of the program or somewhere within the program based on their academic and clinical status and standing when leaving.

Option for written withdrawal of declaration: A student may withdraw declaration of pregnancy at any time during the pregnancy. The revocation of pregnancy declaration notifies the program of the student's choice to revoke her previous election to apply federal and/or state radiation dose limits to an embryo/fetus as a condition of her radiation related clinical experiences in the program.

Neither Kent State University Salem Campus nor the student's assigned Clinical Education Setting will be responsible for radiation injury to the student or the embryo/fetus if the student chooses to continue in the program during pregnancy.

Policy: 1992. Last revision: 2011.

O. Curriculum: Developmental and General Studies Courses

The radiologic technology curriculum is provided by the American Society of Radiologic Technologists (www.asrt.org) and is two years in length once accepted into the program. Applicants are encouraged to take the following courses **prior to program admission**. This allows accepted students to focus on radiologic technology courses during the program with greater success. Completion of these courses does not guarantee admission into the program.

1. Developmental Courses

The following is a list of developmental courses that may be required for the applicant to take based on ACT scores or scores achieved on the Basic Skill Assessment Test (Accuplacer and ALEKS computerized testing). This test may be done for placement in English and math courses. All developmental courses must be completed within the first 29 hours of coursework at Kent State University and all attempts to complete these courses should be made prior to program start. Applicants requiring developmental coursework who have not completed any of the general courses may not be accepted into the program because of the course overload required. Instead, the applicant should complete required courses and reapply the following year.

- RC 00003 Core Reading Strategies
- RC 00006 Critical Reading Strategies
- ENG 01001 Introduction to College Writing-S (Stretch)
- MATH 00020 and 00021, 00022, 00023 Pre-Algebra and Basic Algebra I-III
Each module is 7½ weeks in fall or spring with student working at own pace.

2. Required General Courses

The following courses may be taken **prior to** admission into the program OR **during** the course sequence for the degree in Radiologic Technology as long as the applicant meets program admission requirements in algebra and chemistry.

- UC 10097 Destination Kent: First Year Experience
- BSCI 11010, 11020 Foundational Anatomy and Physiology I and II (3 hrs each) or BSCI 21010, 21020 Anatomy and Physiology I and II (4 hrs each)
- CHEM 10050 Fundamentals of Chemistry or CHEM 10055 Molecule of Life
- ENG 11011 College Writing I or ENG 11002 College Writing I Stretch
- AHS 24010 (1 credit hour) or HED 14020 (3 credit hours) Medical Terminology
- MATH 10772, Modeling Algebra Plus or MATH 11009, Modeling Algebra
Those pursuing the bachelor degree in radiation therapy would take either MATH 10775, Algebra for Calculus Plus or MATH 11010, Algebra for Calculus
- PSYC 11762 General Psychology
- One Kent Core Humanities or Fine Art course (see page 14)

3. Recommended courses prior to program start:

- BSCI 10001, Human Biology (if only one biology course or a biology grade of C or below in high school or college)
- CHEM 10030, Chemistry in Our World (if no high school chemistry or a grade of C or below in chemistry in high school or college)
- PHY 11030, Seven Ideas that Shook the Universe or PHY 21430, Frontiers in Astronomy if only 1 biology or chemistry course with a C or below.

4. **Transfer Courses:** go to www.kent.edu/transfercenter to check information about course transfers from other colleges or universities in Ohio or other states. Student transcripts are evaluated by the Transfer Center at the Kent Campus. Approximately 70% of the transfer course content must match the equivalent course at Kent.

P. Radiologic Technology Two Year Sequence of Courses for 2019-2021

Rev 5-5-17

Semester	Course Number	Course Name	Sem. Hrs.	Days of the Week for Campus or Clinical** R = Thursdays
First Year Summer Semesters	* AHS 24010 or * HED 14020 *UC 10097	Medical Terminology or Medical Terminology *Destination Kent State: 1 st Year Experience	1 or 3 1	See schedules See schedules See schedules

* Courses marked with an * may be taken prior to entry or during the Radiologic Technology program. Students should seek advisement from the Radiologic Technology Program Director for these courses. All RADT courses require admittance to the program and must follow the stated sequence.

+ Rad. Tech Orientation is held during the program's first two weeks with students on campus Monday-Friday.

Anatomy and Physiology Courses: students who have previously completed BSCI 21010, 21020 Anatomy and Physiology I/II or ATTR/EXSC 25057/25058 Human Anatomy and Physiology I/II are exempt from BSCI 11010 & 11020. Courses must have been taken within the past five years prior to program admission.

**Students pursuing Radiation Therapy must take MATH 10775 Algebra for Calculus Plus or MATH 11010, Algebra for Calculus.

Note: Students will be assigned clinical rotations for some weekend, afternoon and midnight shifts throughout the program. Each clinical education day is 8.5 hours long that includes lunch.

Q. KENT STATE UNIVERSITY 2018-2019 KENT CORE REQUIREMENTS

Kent Core Requirements for the A.A.S. degree in Radiologic Technology or the BRIT degree

As part of the requirements for an Associate of Applied Business, Associate of Applied Science or Associate of Technical Study degree, students complete minimum 15 credit hours from the Kent Core. Visit the University Catalog (Undergraduate University Requirements) for information on transfer, proficiency and other options to meet the Kent Core. Legend: **G** =Global Diversity, **D** = Domestic Diversity

COMPOSITION (6 hours)

ENG	11011 College Writing I	3 OR
or ENG	11022 College Writing I-Stretch	3
ENG	21011 College Writing II	3
HONR	10197[297] Freshman Honors Colloquium I, II(each)	4

MATHEMATICS (3-4 hours)

Choose from one of the following (contact advisor)

MATH	11009 Modeling Algebra	4
or MATH	10772 Modeling Algebra Plus	5
MATH	11010 Algebra for Calculus	3
or MATH	10774 Algebra for Calculus Stretch II	3
or MATH	10775 Algebra for Calculus Plus	4

HUMANITIES AND FINE ARTS (9 hours)

Minimum one course from "Humanities" and one course from "Fine Arts" category required.

HUMANITIES IN ARTS AND SCIENCES

CLAS	G 21404 The Greek Achievement	3
CLAS	G 21405 The Roman Achievement	3
ENG	21054 Introduction to Shakespeare	3
ENG	22071 Great Books to 1700	3
ENG	22072 Great Books since 1700	3
ENG	22073 Major Modern Writers: British and US	3
HIST	G 11050 World History: Ancient and Medieval	3
HIST	G 11051 World History: Modern	3
HIST	D 12070 Early America	3
HIST	D 12071 Modern America	3
PAS	G 23001, Black Experience I: Beginnings to 1865	3
PAS	D 23002 Black Experience II: 1865 to Present	3
PHIL	G 11001 Introduction to Philosophy	3
PHIL	G 21001 Introduction to Ethics	3
REL	G 11020 Introduction to World Religions	3
REL	G 21021 Moses, Jesus and Mohammed	3

HUMANITIES IN COMMUNICATION AND INFORMATION

COMM	26000 Criticism of Public Discourse	3
------	-------------------------------------	---

FINE ARTS IN FINE AND PROFESSIONAL ARTS

ARCH	10001 Understanding Architecture	3
ARCH	10011[2] Global Architectural History I,II.....(each)	3
ARTH	12001 Art as a World Phenomenon	3
ARTH	22006 Art History I: Ancient and Medieval Art	3
ARTH	22007 Art History II: Renaissance to Modern Art	3
ARTH	G 22020 Art of Africa, Oceania, and the Americas	3
DAN	G 27076 Dance as an Art Form	3
MUS	22111 The Understanding of Music	3
MUS	G 22121 Music as a World Phenomenon	3
THEA	G 11000 The Art of the Theatre	3

NOTE: Students must take one global and one domestic diversity course to fulfill the diversity requirement.

PSYC 11762 fulfills the Domestic diversity course requirement

ADDITIONAL COURSES 6 HOURS

CHEM	10050 Fundamentals of Chemistry	3
Or CHEM	1055 Molecules of Life	3

Select one additional course from categories II-VI above or select one of the following: COMM 15000, HONR 13597, or PHIL 11009.

SOCIAL SCIENCES (6 hours)

PSYC	D 11762 General Psychology	3
Select 3 hour course from the Kent Core Requirements that is in a different discipline area other than Psychology		
ANTH	G 18210 Global Cultural Diversity: Anthropol. Perspective	3
ANTH	G 18420 Archaeology: Ancient Lives and Cultures	3
CACM	D 11001 Introduction to Conflict Management	3

R. Program Schedule

1. Summer I of the first year (5 weeks): Radiologic Technology campus courses are scheduled during daytime hours on Monday-Friday for the first two weeks for orientation. During the last 3 weeks, students attend on Monday-Wednesday.
2. Summer- Clinical Education I: 8 weeks from June 28-August 3, 2018. Students attend their assigned clinical site (hospital) on Thursdays and Fridays.
3. Summer III of the first year (5 weeks): Radiologic Technology campus course and labs are scheduled on Mondays & Wednesdays.
4. Fall and spring semesters of the first year (15 weeks each): Radiologic Technology and Anatomy/Physiology campus courses and labs are scheduled during daytime hours on Mondays & Wednesdays with clinicals on Tuesdays, Thursdays, and Fridays.
5. Summer II of the second year (8 weeks): Students attend the Salem campus on Thursdays with clinicals on Mondays, Tuesdays, Wednesdays and Fridays.
6. Fall semesters of the second year (15 weeks): Radiologic Technology campus courses are scheduled on Tuesdays & Thursdays with clinicals scheduled on Mondays and Wednesdays.
7. Spring semesters of the second year (15 weeks): Radiologic Technology campus courses are scheduled on Tuesdays & Thursdays with clinicals scheduled on Mondays, Wednesdays and Fridays.

Clinical assignments consist of 8.5 hour days that include lunch. The majority of assignments are during daytime shifts however students are assigned to a limited amount of afternoon and midnight shifts during the program. If a student is employed outside of the program (i.e., McDonalds, Subway, etc.), the work hours must be scheduled around the program's clinical schedule.

Smoking: Many of the program's clinical sites require students to be **non-smokers**. KSU Salem is a smoke-free campus.

S. National Certification and State License Requirements

1. National Certification Requirements
After successful completion of all degree requirements, graduates of the program will be permitted to take the American Registry of Radiologic Technologists (www.arrt.org) certification examination upon authorization of the program director. Application fee: \$200.
Students who have been **convicted of a misdemeanor or felony crime** may or may not be able to take this examination based on a review by the ARRT ethics review board that determines eligibility. An application to this review board would be completed at the start of the program for those students accepted into the program who have a conviction. The ARRT web site (www.arrt.org) has more information under their Ethics tab.
2. State Licensing Requirements:
Graduates of the program who wish to be employed in the state of Ohio must obtain a state license as a radiographer from the Ohio Department of Health. Application fee: \$65.

T. Other Program Fees:

1. **Tuition** for the associate degree if completed in 2 years is approximately \$16,000.
2. **Textbooks & Note packets** for Radiologic Technology is approximately \$1,500.
3. **Course Fees:** for the following radiologic technology courses: Patient Care Management: \$28; Clinical Education I-VI \$40 for each course. The fees pay for patient assessment/vital sign supplies for the lab and radiation monitoring badges.

KSU Salem Campus Radiologic Technology 2019 Job Shadowing Documentation Form
SUBMIT THIS FORM before Feb. 1st to Sherry DeWitt, Radiology Secretary

Applicant's Name _____ Date _____

Directions for Job Shadowing:

- Contact one of the clinical sites listed below and schedule 4 hours of mandatory shadowing in the radiology (x-ray) department. The shadowing is generally completed between 8:00 am to 12:00 pm
- At the clinical site, have this documentation form signed by the technologist you are assigned to **and submit this form** to the KSU Salem Radiologic Technology program by February 1st.
- Take an evaluation form found on the next page with you to the clinical site and submit to the radiologic technologist you are assigned to. Upon completion, the technologist will fax the form to the program.
- If completing a second 4 hours of job shadowing for 2 points, repeat the above process

Name of Healthcare Facility Location: City/State Sample Below	Date Hours Completed	Hours Completed	Name & Number of Rad Technologist at Healthcare Facility	Signature of Technologist at Healthcare Facility
Salem Regional Medical Ctr. Salem, Ohio	1/7/19	4	Jane Smith 330-555-5555	<i>Jane Smith, R.T.</i>

Job Shadowing Requirement: 4 hours of job shadowing/observing are **required** for those applying to the Radiologic Technology program at Kent State Salem Campus.

Additional Job Shadowing Hours: Applicants will receive **2 points** for an additional 4 hours. These hours must be completed on a different day. It is highly recommended an applicant observe at two different clinical sites. Extra hours beyond 8 will not provide more points and is not recommended due to the limited availability at clinical sites.

If **REAPPLYING** to the program, it is **required** to complete 4 additional hours within 12 months of the application date to demonstrate continued interest which is in addition to the previous hours completed.

Time Frame: The shadowing must be within 24 months of the February 1, 2019 application deadline.

Dress Code: Applicants must dress in a professional manner which includes dress/khaki pants with a short or long sleeve shirt and appropriate shoes (athletic shoes are acceptable). Applicants must not wear T-shirts, sleeveless, or halter or low cut tops for women; jeans or shorts; sandals or open toed shoes. No facial piercings. Two earrings per ear are acceptable but no hoop or dangling styles No large jewelry is permitted. All tattoos must be covered. No extreme hair colors. No perfume, cologne, or scented lotions. Nail color must be neutral. Failure to follow this code will result in the applicant not completing the shadowing.

Code of Conduct: As a visitor it is expected that the applicant will respect the employees' efforts to conduct themselves as courteous professionals. Although the student experience is observation only, the job shadowing program is intended to be an interactive learning process with the opportunity for student-professional-patient interactions. Students must keep all information confidential to ensure patient privacy in order to follow HIPAA policies.

Infection Control: Infection control is always important to an applicant's well-being and the patients. Hand washing is an important method to prevent infection for the applicant and the patient so wash hands frequently.

Flu shot from the current flu season is required. Some sites will allow a mask to be worn. Some require TB shot.

Breakfast: It is recommended that applicants **eat breakfast** prior to shadowing to prevent light-headedness.

Cell Phones must be silenced and stowed away when completing your job shadowing experience.

Signature of applicant _____

2019 Job Shadowing Evaluation Form: Four Hours

Name of Healthcare Facility _____

Part I—Applicant: Print your name and phone number, sign the waiver statement and submit this form to the Radiologic Technologist observing you.

Applicant's Name _____ Cell Phone Number _____
 (Last Name, First Name)

Waiver: I waive the right to review this completed form in order to afford an unbiased evaluation.

Signature of Applicant _____ Date _____

Part II: Technologist: Please complete the information below. The form will be reviewed and kept confidential by the admissions committee. Fax to number below by February 1st deadline.

Please circle the characteristic that best evaluates the applicant during this shadowing:

Arrival Time	Applicant arrived on time	Applicant was 5 minutes late	Applicant was late 10 Or more minutes
Professional Appearance	Appearance was appropriate	Appearance was somewhat appropriate	Appearance was inappropriate
Interest in radiology procedures	Applicant showed a great deal of interest in the procedures performed	Applicant was somewhat interested in the procedures performed	Applicant showed little interest in the procedures performed
Concern for the Patient	Applicant showed concern for the patient	Applicant showed some concern for the patient	Applicant showed little concern for the patient
Communication Skills	Communication skills were very good	Communication skills were average/fair	Communication skills were poor
Professional Conduct	Professional conduct was appropriate	Professional conduct was somewhat acceptable	Professional conduct was inappropriate
Overall Impression	Applicant made a very good impression	Applicant made a good impression	Applicant made a poor impression
