If you have **student insurance**, your best coverage is at University Health Services (UHS). Most outside services require a referral from UHS. Even with a referral, you will have out-of-pocket expenses outside of the DeWeese Health Center. If you have an emergency visit elsewhere, always make follow-up appointments with UHS.

If you need treatment for a **work-related injury**, and you work at Kent State University, UHS is a great option. You can also receive treatment from any BWC service provider. Kent State's Managed Care Organization (MCO) is Spooner Medical Administrators, Inc. If you work somewhere other than Kent State, please consult your employer's HR department for information on where you should go for treatment and where to send bills.
