LEAN SIX SIGMA
Training and Certification

WWW.KENT.EDU/LEANSIXSIGMA
Kent State’s Lean Six Sigma program expanded my current set of Continuous Improvement tools. Stephen Skillman’s knowledge of these tools allowed us to take our project management ability to another level. His ability to not only speak about the concepts of each of these tools, but to also give us an interactive learning experience increased the understanding of these tools as well as how to apply them.

— James Winning
Director of Continual Improvement
Automated Packaging Systems, Inc.

Improve processes.
Ensure prosperity for the future.

Survey results show that an organization sponsoring a Kent State Black Belt trainee will see an estimated 37-to-1 return on the training investment with the first project alone.

Sharpened processes, greater efficiency and cost savings are just a few of the advantages that will make your organization more competitive when you implement Lean and Six Sigma continual improvement principles.

Lean tools and techniques eliminate wasteful process activities, and Six Sigma is a disciplined method for meeting customers’ expectations and eliminating defects in any process.

Investing in Lean Six Sigma training and certification is the beginning of a new way of doing business. It especially makes sense in today’s economy. A commitment to implementing these methodologies and tools creates a culture of operational excellence. In the end, you will achieve bottom-line results from the projects your Green and Black Belts undertake, and your organization will become more efficient and customer-focused.
**WHY KENT STATE UNIVERSITY?**

**Unique Program**
Kent State offers the unique approach of weaving Lean, Six Sigma, Team-Oriented Problem Solving (TOPS) and Theory of Constraints (TOC) methods into a seamless certification that can help you achieve substantial improvements in your organization.

Kent State’s Lean Six Sigma curriculum uses practical case studies and is structured to provide a high-quality, interactive classroom experience while allowing maximum flexibility in obtaining your certification.

**What’s Involved?**
The Black Belt training and certification is held one week each month for four months (160 contact hours, 16 CEUs), and a project is required for certification. The Green Belt and Master Black Belt training and certifications are held two weeks over two months (80 contact hours). For Green Belt certification, project completion is also required.

**Who Should Attend?**
Key candidates for Kent State’s Lean Six Sigma training and certification programs are:
- Quality technicians, supervisors and managers
- Plant managers
- Directors and managers of engineering
- Vice presidents or managers of customer service
- Operations managers
- Vice presidents of manufacturing
- Directors and managers of patient services
- Patient quality managers
- CFOs
- Presidents
- CEOs

Organizations in the manufacturing, healthcare and service-based industries, as well as in higher education, will reap significant benefits from employees attending these programs.

**Outstanding Facilitators**
Several organizations have expanded their program and sent additional candidates for training and certification based on their participants’ outstanding reviews of the depth and breadth of knowledge of the Kent State University Lean Six Sigma facilitators.

**Implementation Expertise**
After the training program, Lean Six Sigma facilitators are available to assist you in successful implementation of Lean Six Sigma principles in your work environment. Kent State also offers other Lean and Six Sigma consulting and project coaching services, as well as on-site training.

---

“The instructor and the materials are very engaging. It will change the way I do my job with a new set of skills.”

— Ryan Trapp, Process Engineer, PCC Airfoils

Programs are offered at the following locations and times:
ALL WEEKS OF TRAINING ARE HELD MONDAY THROUGH FRIDAY FROM 8:30 A.M. TO 5 P.M.

LEAN SIX SIGMA BLACK BELT
FACILITATOR: STEPHEN SKILLMAN

FALL 2019
› SEPT. 16 – 20, 2019
› OCT. 14 – 18, 2019
› NOV. 4 – 8, 2019
› DEC. 2 – 6, 2019
HILTON GARDEN INN TWINSBURG, OHIO

SPRING 2020
› MARCH 2 – 6, 2020
› MARCH 30 – APRIL 3, 2020
› APRIL 27 – MAY 1, 2020
› JUNE 1 – 5, 2020
EDUCATIONAL SERVICE CENTER OF NORTHEAST OHIO INDEPENDENCE, OHIO

LEAN SIX SIGMA GREEN BELT
FACILITATOR: JOHN NOVAK

FALL 2019
› SEPT. 23 – 27, 2019
› OCT. 21 – 25, 2019
HILTON GARDEN INN TWINSBURG, OHIO

SPRING 2020
› FEB. 24 – 28, 2020
› MARCH 16 – 20, 2020
EDUCATIONAL SERVICE CENTER OF NORTHEAST OHIO INDEPENDENCE, OHIO

LEAN SIX SIGMA MASTER BLACK BELT
FACILITATORS: ROBERT SKILLMAN AND STEPHEN SKILLMAN

The Lean Six Sigma Master Black Belt program will be held in fall 2020 at the Educational Service Center in Independence, Ohio.

Invest now in your organization’s future growth and prosperity.

WEB:
• Project identification; team building
• Introduction to Lean thinking; process capability
• Six Sigma methods and quality
• Basic Minitab measurement system analysis
• Six Sigma helicopter simulation

WEEK TWO
• Participant project reviews; Lean tools
• Hypothesis testing; comparative analysis
• Tests for data stability and normality
• Theory of Constraints
• Catapult simulation

WEEK THREE
• Participant project reviews
• Advanced Lean methods
• Regression and correlation
• Quick changeovers (SMED); Airplane simulation

WEEK FOUR
• Participant project reviews; team dynamics
• Advanced statistical tools; design of experiments
• Putting it all together to achieve wealth and prosperity for any organization

PROJECT
Each participant of Kent State’s Lean Six Sigma Training and Certification is required to complete a project using the methods learned. This will contribute significant results to the sponsoring organization.

INVESTMENT
Black Belt Training and Certification: $6,950
Green Belt Training and Certification: $3,750
Master Black Belt Training and Certification: $4,975

These prices include breakfast and lunch each day of training. The Black Belt and Green Belt program prices also include two reference books. All participants receive an electronic copy of the participant materials. After the required capstone project is submitted and approved, participants will receive an engraved plaque. Those who earn a Black Belt or Master Black Belt receive the Kent State University Lean Six Sigma polo shirt and are entitled to use the designation “Certified Black Belt” or “Master Black Belt” as a professional credential. Lodging accommodations are not included.

LAPTOP and SOFTWARE
So that participants can maximize the benefit of attending Lean Six Sigma training and to realize a return on investment for future Lean Six Sigma projects, Kent State requires that each participant bring a laptop loaded with current versions of Minitab and Companion by Minitab to each day of training. Kent State will provide information to purchase through Minitab.
BOB SKILLMAN
Kent State training and certification facilitator Robert Skillman is a Six Sigma Master Black Belt and a Lean Master Sensei who has been training and certifying Black Belts in Six Sigma and Lean methods since 1997. Skillman received his Lean Master certification from the Shingijutsu Limited Group, the founders of the Toyota Production System. Skillman is an engineer with 35 years of experience. He is also a certified quality engineer, certified quality auditor and is RAB-certified. His background includes extensive experience in automotive, aerospace, nuclear and service industries. Skillman has held quality, Master Black Belt, metallurgical engineering, corporate director and vice president positions with TRW, RB&W, Cleveland Container and SPS Technologies.

JOHN NOVAK
John Novak, CQA, is an industrial engineer and Lean Six Sigma Master Black Belt who provides consultation and training to improve work flow and methods for clients. He has experience as a software developer and in internal auditing. Novak received his bachelor’s degree in industrial technology from Bowling Green State University and his MBA degree from Kent State University. He has worked with many organizations, including TechniGraphics Inc., M.K. Morse, Elyria Foundry, University Hospitals and W.W. Grainger. Novak facilitates Kent State’s public and contract offerings of the Lean Six Sigma training programs.

STEPHEN SKILLMAN
Stephen Skillman is a Lean Six Sigma Master Black Belt, serving as a facilitator for Kent State University, training Lean Six Sigma Black Belts. Skillman received his bachelor’s degree in business administration from Lake Erie College. He has worked in the automotive, government ballistics and electrical insulation industries. Skillman has held production scheduler, purchasing manager, shipping manager and quality and continuous improvement manager positions with Nescor Plastics and Iten Industries.
