TUSCARAWAS

Kent State University Tuscarawas History

Kent State University at Tuscarawas began in the fall of 1962 as an academic center at New Philadelphia High School. That September, 202 students were registered for the night program.

In 1965, acting under a state law used successfully only in Tuscarawas County, the Tuscarawas County University Branch District was formed. Seven county residents were appointed by the Tuscarawas County Commissioners to a board of trustees, which then voted to place a five-year, half-mill levy on the November ballot of that year. By a two-to-one margin, county voters passed the levy and provided \$600,000 to help finance the Tuscarawas Campus. The State of Ohio and the federal government provided an additional \$1.8 million.

With the opening of the campus in 1968, the availability of higher education for area citizens was significantly enhanced. Today, Kent State Tuscarawas offers 16 associate degrees and 14 bachelor's degrees. Since 1962, approximately 37,179 citizens have sought to satisfy their aspirations for self-improvement, professional growth and social and economic betterment through credit coursework at Kent State Tuscarawas.

Kent State Tuscarawas is part of the eight-campus network of Kent State University. However, unlike other state university regional campuses, Kent State Tuscarawas is owned by the Tuscarawas County University Branch District and operates under contract with Kent State University for programs and services.

Since the 1968 construction of the original building, now called Founders Hall, there have been five additions to the building. To accommodate enrollment and program growth, three new state-of-the-industry facilities have been constructed. In 2002, the Science and Advanced Technology Center opened and houses the science and nursing programs, as well as workforce development and customized training. In 2010, the world-class Performing Arts Center opened featuring 50,000 square feet and a 1,100-seat theatre. It is also a premiere venue for conferences, receptions, traveling Broadway shows, concerts, lectures and other types of entertainment.

The most recent addition to the campus is the 27,000-square-foot Tolloty Technology Incubator, which opened in June 2014. Located on Tech Park Dr. N.E., the facility is the gateway to the Tuscarawas Regional Technology Park. The Incubator is a state-of-the-art science, technology, research and development facility. It was developed to cultivate and nurture technology-based entrepreneurship and stimulate the regional economy through new business development, business expansion and the creation of high-tech, high-skill jobs. It also provides academic opportunities for Kent State Tuscarawas students through co-ops and internships, as well as serving as a forum for students to investigate and launch their own enterprises. The Tuscarawas County Community Improvement Corporation manages the Incubator in partnership with Kent State Tuscarawas, which owns the facility.

The Mission of Kent State University

The mission of Kent State University is to transform lives and communities through the power of discovery, learning and creative expression in an inclusive environment.

ACADEMIC REGALIA

Identification of the hood and robe as academic apparel is believed to have originated at the English universities of Oxford and Cambridge during the 12th and 13th centuries. The hoods are a carry-over from the time when monks, who operated these universities, wore them to protect their shaved heads in winter. The robe is an adaption of the shoulder cape also worn by monks while collecting alms.

Use of the academic robe came to the United States in 1754, with the founding of what is now Columbia University. In 1895, a commission of University officials adopted a universal code of design and color for the academic garb. This code has undergone several revisions in subsequent years with most recent modifications made in 1960.

Styling of the robe varies for the bachelor's, master's and doctoral degrees. The width of the sleeve borders and length of the hood increase with each advanced degree.

In the hoods, the color of the velvet border indicates the type of degree held, while the lining designates the official colors of the institution granting it.

COLOR TABLE FOR ACADEMIC REGALIA

CEREMONIAL MACE

The ceremonial mace, a symbol of university scholarship and integrity and the powers and authority vested in the leaders of the institution, is used to lead the academic procession at commencement and other special ceremonial occasions. It signifies the importance of the event and the confirmation of the academic process.

COMMUNITY SERVICE AWARD

Bob and Trudy Sensel Owners and Founders, Dover Hydraulics

Bob and Trudy Sensel, of Dover, and Dover Hydraulics are the 2023 recipients of the Kent State Tuscarawas Community Service Award. This recognition is given to valued members of the community who have generously made our community and Kent State Tuscarawas a better place.

Bob and Trudy have a true passion and vision to make the Tuscarawas County region a dynamic area to live, work and study. They are both graduates of Conotton Valley High School, Bob in 1962 and Trudy in 1964.

After attending Kent State University in Kent for two years, Bob started working at the former Warner and Swasey Company (now Gradall) as a systems analyst. In 1968, he began his banking career at The First National Bank of Dover (formerly, Bank One and now Chase), helping to introduce the Bank Americard, the first bank credit card program in Tuscarawas County. He ended his tenure at Bank One in Dover as a Vice President, accepting the position of Vice President in charge of Commercial Lending for The Central Trust Banking Company in Canton, Ohio.

Two years later, Bob, Trudy and their family moved back to Tuscarawas County, and Bob rejoined Bank One in Dover, Ohio, accepting the position of Vice President in charge of Business Development where he remained until 1982. In 1996, he was appointed to the Board of Directors for First Federal Community Bank in Dover, where he remained on the board until he retired as a Director Emeritus in 2022.

Over the span of their 58 years of marriage, Trudy has worked in several managerial and accounting department positions, ultimately joining Bob at Dover Hydraulics and working beside him to set up the administrative side of their successful business.

The Sensel family began Dover Hydraulics as a small family-owned business in 1982, growing their company to 100 employees and adding a fabrication company, Dover Fabrication and Burn in 2012. Dover Hydraulics has a strong commitment to its client base, dedicated employees and our community. Their daughters, sons-in-law and at times, their grandchildren, have all been an important part of helping to sustain the success that Bob and Trudy started in 1982.

Bob and Trudy, their family and the company all work continuously to make a big impact on the area and invest in many charitable causes. Annually, the couple funds scholarships for Kent State Tuscarawas students and supports the campus Performing Arts Center and Buckeye Career Center.

Bob and Trudy are the proud parents of three daughters, have eight grandchildren and are eagerly awaiting the arrival of twin great-grandchildren in August of 2023.

AWARD FOR DISTINGUISHED ALUMNI

Lois Grandison
Chief Executive Officer
Ember Home Care, Inc.

Lois Grandison is the recipient of the Kent State Tuscarawas 2023 Distinguished Alumni Award. This honor recognizes the professional and community accomplishments of alumni from Kent State Tuscarawas and is the highest acknowledgement bestowed on a Kent State Tuscarawas graduate.

This year, we recognize Lois, who has excelled in her career and in service to our community.

Locally, she spends many hours working with the Twin City Christian Service Center and serves as its executive director. Other volunteering includes the Buckeye Cruise for Cancer, Rainbow Connection, Claymont Booster Club, Claymont sports programs, Claymont Band Parents and Share-A-Christmas. Lois also helps assemble and distribute Thanksgiving and Christmas food baskets and “Back to School” items for the Park Christian Church children.

Professionally, Lois is a registered nurse, earning her degree from Kent State Tuscarawas in 1980. She is the CEO of Ember Home Care, Inc., a home health agency and a company of residential homes that serves individuals across four counties. She also currently serves as president of the Claymont City School District Board of Education.

KENT STATE TUSCARAWAS ALUMNI
